THE REGENCY AUCTION 53

JULY 28 • THE BELLAGIO • LAS VEGAS, NV

THE REGENCY AUCTION 53

JULY 28 • THE BELLAGIO • LAS VEGAS, NV

Welcome friends!

Regency Auction 53 is our biggest and best of 2022 so far! We have 429 lots crossing the block, featuring four anchor collections and highlights abound from those as well as many other consignors. As with all of our Regency Auctions, you know that care was taken to curate the sale.

The first collection to cross the block is the Unforgettable Collection of Commemoratives. Ranking near the top of the PCGS Set Registry, every coin included in this advanced set (a basic 50-piece type set along with some duplicates) truly live up to the name. All are top notch quality and have stunning visual allure from their gorgeous toning. Many of these coins have been off the market for decades and making their first auction appearance in our July 2022 Regency Auction.

A varied and amazing type coins follow, with a nearly complete set of Proof Seated Liberty dimes and the MHS Collection of Capped Bust quarters surrounded by many other great coins, that lead into the M&S Petty Collection of Seated Liberty Dollars, a complete set, with many CAC approved and Mint State specimens of this very challenging series. Built with the guidance of Laura Sperber, and featuring a number of impressively pedigreed pieces, each coin is truly special. Obviously the most famous is the FCC Boyd specimen of the ultra rare 1870-S, but also the 1850-O in PCGS MS64 CAC (first generation holder) and the James A Stack 1873-CC in PCGS AU55 CAC are among the many other highlights.

Morgan dollars, both common dates with stunning toning, and rare dates in high grade are well represented, from a number of advanced collectors and other consignors. The selection truly has something for everyone. Following the silver dollars is a fantastic grouping of Patterns, duplicates from the famed Black Cat Collection. Over the last four years, the collector has become one of the most serious specialist collectors of these very rare coins, and has accumulated a group of duplicates. He has decided to sell some of these to allow other collectors the opportunity to add truly world class coins to their collections. Closing out the sale is an extensive offering of gold coins, one of our strongest yet this year (and that is saying a lot!). Many of the coins are highlights, including high end rare date quarter eagles and half eagles, and a wide range of double eagles.

We welcome you to participate in person, online, or on the phone. If you need any assistance or would like more information do not hesitate to reach out to us, we are here to serve you, the collector.

Best,

Jessica Berkman, President LRCA

P.S. Do not forget about our 174 lot online only session that soft closes on July 31.

TERMS AND CONDITIONS

This is a public auction, conducted in accordance with these Terms and Conditions of Sale, by Legend Rare Coin Auctions (hereinafter referred to as "LRCA"). By bidding on any lot offered by LRCA, the bidder indicates acceptance of the following Terms and Conditions of Sale. Bidders are to comply with the Terms and Conditions of Sale, posted on LegendAuctions.com, at the time of the auction in which they are participating.

BUYER'S PREMIUM

A 17.5% buyer's premium will be added to all successful bids (minimum \$20), and is payable by the winning bidder as part of the total purchase cost.

SALES TAX

All sales are subject to applicable state and local taxes. Any lots that are picked up and/or delivered in the state of The Regency Auction are subject to applicable state and local taxes.

PAYMENT

All merchandise must be paid for within TEN (10) days of the date of sale. We reserve the right to cancel any unpaid order after that time and to ban the bidder from future sales. Credit cards (Visa, MasterCard and Discover) are accepted for auction payments up to \$2,500.00 per invoice. Invoices and/or balances over \$2,500.00 must be paid via personal or certified check, money order, or wired funds. Personal checks, money orders and cashier's checks may be held for up to 10 business days in order to allow time for them to clear appropriate banking channels. Please email info@legendauctions.com for bank-wiring instructions and/or to provide numismatic references.

E-CHECK PAYMENTS

E-check payments now available. Please email form to info@legendauctions.com

INTERNATIONAL BUYERS

Foreign buyers, unknown to us, are required to deposit 25% of their anticipated expenditures before bidding. Please contact us in advance of bidding for bank wiring instructions.

EXTENDED PAYMENT TERMS

For all items \$15,000.00 and over, LRCA is now offering Extended Payment Terms. Please advise us at least 48 hours before bidding or purchasing the item in question. Pre-approval is required.

RETURN POLICY

All lots are sold "as is." Lots graded by PCGS, NGC or other third-party grading services, or any lot viewed by the buyer or anyone on buyer's behalf prior to the auction, may not be returned. This is not an approval sale. All sales of lots to the highest bidder are final. Bidders are strongly advised and encouraged to research any lots upon which they plan to bid, and to determine bids, based upon their own evaluation. Bidders assume all risks concerning and related to the grade, quality, appearance, condition, history and origin of any lot. Bidders acknowledge that coin grading is not an exact science, that it can be subjective and inconsistent and that it is possible that two parties might assess or grade the same coin differently. LRCA makes every effort to accurately describe all items offered in its sales. All items will be available for preview prior to the auction.

SHIPPING

Shipping costs will be billed separately and are non-refundable. Items will usually ship within 5-10 business days after payment has been received and/or funds have cleared. Coins will be shipped via Fed Ex or USPS or transported via armored carrier.

The shipping charge includes fees for our third-party insurance coverage, as well as any costs incurred through the USPS or Federal Express. Any shipments made via armored carrier (Brinks, Dunbar, etc.) will be calculated and assessed at the time of shipment.

INTERNATIONAL SHIPPING

It is not possible for LRCA to ship to some countries. Please email questions to info@legendauctions.com. Payment for all international orders is required in US funds. Please contact julie@legendauctions.com for bank wiring instructions. Customs requirements for each country are the responsibility of the buyer. All packages shipped outside of the United

States will include the required customs declaration and full value of the invoice.

BIDS VIA TELEPHONE

An absentee bidder may also participate live, during the auction, via telephone. Requests for phone bidding must be received at least three days prior to the auction date. Please fill out our phone bidding request form online or call 732-935-1168 to request a call from one of our representatives during the live auction. LRCA cannot guarantee phone lines, but will make every effort to accommodate those who wish to participate via this method.

RIGHTS & RESPONSIBILITIES

The auctioneer will determine the highest bidder. The auctioneer, alone, has the right to reopen the bidding for an item, if deemed necessary. LRCA and its representatives reserve the right to remove any attendees who impede the preview and/or the auction. Title to all merchandise shall pass to the winning bidder after receipt of good funds by LRCA. Bidders will be held responsible for their bids, including those bids placed incorrectly. PLEASE VERIFY BIDS BEFORE SUBMITTING THEM. In order to have a bid removed or corrected, bidder must contact LRCA prior to start of the auction. Bidder waives auctioneer's responsibility and holds LRCA harmless for failure to recognize, accept, receive or execute any lost or missing bids by internet, telephone, email, floor bid, fax, mail or other means. LRCA reserves the right to postpone or cancel an auction without notice. Lots may be withdrawn at LRCA's discretion, without prior notice. Lots may carry a reserve. A reserve is a price below which the auctioneer will not sell an item, or will re-purchase the item on behalf of the consignor or for LRCA. LRCA permits bids to be placed by the auctioneer, or an employee of the auctioneer, up to the pre-determined reserve set by the consignor. Legend Rare Coin Auctions' partner, Legend Numismatics, reserves the right to bid on items, for its own account and for the accounts of its clients.

DISCLAIMER AND WARRANTIES

No warranty of merchantability or fitness for a particular purpose is made or implied on any lot. No warranty, whether expressed or implied, is made with respect to any lot except for warranty of title, and in the case of title, auctioneer is selling only that right or title to the lot that the consignor may have as of the auction sale date. All lots are sold "as is" and with all faults. Purchaser hereby assumes all risks concerning and related to the grading, quality, description, condition, authenticity, and provenance of a lot.

- a. Coins and currency listed in this catalog graded by PCGS, NGC, or any other third party grading service or examined by the buyer prior to the auction sale may not be returned for any reason whatsoever by any buyer, except for claims related to authenticity.
- b. For non-certified coins that have not been examined by the Buyer prior to the Auction Sale: if it is determined in a review by LRCA that there is a material error in the catalog description of a non-certified coin or the LRCA no later than seventy-two (72) hours of delivery of the lots in question, and such lots are returned and received by LRCA, in their original, sealed containers, no later than fourteen (14) calendar days after delivery, in the same condition the lot(s) were delivered to the Buyer, time being of the essence.
- c. If an item or items are returned pursuant to the terms herein, they must be housed in their original, sealed and unopened container.
- d. Late remittance or removal of any item from its original container, or altering a coin constitutes just cause for revocation of all return privileges.
- e. Grading or condition of rare coins may have a material effect on the value of the item(s) purchased, and the opinion of others (including independent grading services) may differ with the independent grading services opinion or interpretation of LRCA. LRCA shall not be bound by any prior, or subsequent opinion, determination or certification by any independent grading service.
- f. Questions regarding the minting of a coin as a "proof" or as a "business strike" relate to the method of manufacture and not to authenticity.
- g. All oral and written statements made by LRCA and its employees or agents (including affiliated and related companies) are statements of opinion only, and are not warranties or representations of any kind, unless stated as a specific written warranty, and no employee or agent of LRCA has authority to vary or alter these Terms and Conditions of Auction Sale. LRCA reserves the right to vary or alter the Terms of Sale, either generally or with respect to specific persons or

circumstances, in its sole discretion. Any variation or alteration shall be effective only if in writing and signed by an officer of LRCA authorized to do so.

h. LRCA is acting as an auctioneer. Title to the lots purchased passes directly from the Consignor to the Buyer. Accordingly, LRCA is not making, and disclaims, any warranty of title.

i. Bidder acknowledges that the numismatic market is speculative, unregulated and volatile, and that coin prices may rise or fall over time. LRCA does not guarantee or represent that any customer buying for investment purposes will be able to sell for a profit in the future.

j. Bidder acknowledges and agrees that neither LRCA, nor its employees, affiliates, agents, third-party providers or consignors warrant that auctions will be unimpaired, uninterrupted or error free and accordingly shall not be liable for such events.

WAIVER AND RELEASE

Bidder, for himself, his heirs, agents, successors and assignees, generally and specifically waives and releases, and forever discharges LRCA, and its respective affiliates, parents, officers, directors, shareholders, agents, subsidiaries, employees, managers and members and each of them, and their respective successors and assignees from any and all claims, rights, demands and causes of actions and suits, of whatever kind or nature, including but not limited to claims based upon Auctioneer's negligence, whether in law or equity, tort or otherwise, whether known or unknown, suspected or unsuspected (a "Claim"), which Bidder may assert with respect to and/or arising out of, or in connection with any challenge to the title to or authenticity of any goods purchased, the sale itself, any lot bid upon or consigned, and/or the auction, except where such Claim is otherwise expressly authorized in these Terms of Sale. It is the intention of Bidder that this waiver and release shall be effective as a bar to each and every Claim that may arise hereunder or be related to the Auction Sale.

DISPUTES

If a dispute arises concerning ownership of a lot or concerning proceeds of any sale, LRCA reserves the right to commence a statutory inter-pleader proceeding at the expense of the Consignor and Buyer and any other applicable party, and in such event shall be entitled to its reasonable attorneys' fees and costs. LRCA reserves the right to cancel or postpone the Auction Sale or any session thereof for any reason whatsoever. No Bidder shall have any claim as a result thereof, including for incidental or consequential damages. Neither LRCA nor any affiliated or related company shall be responsible for incidental or consequential damages arising out of any failure of the Terms of Sale, the auction or the conduct thereof and in no event shall such liability exceed the purchase price, premium, or fees paid. Rights granted to Bidders under the within Terms and Conditions of Auction Sale are personal and apply only to the Bidder who initially purchases the lot(s) from LRCA. The rights may not be assigned or transferred to any other person or entity, whether by sale of the lot(s), operation of law or otherwise. Any attempt to assign or transfer any such rights shall be absolutely void and unenforceable. No third party may rely on any benefit or right conferred by these Terms and Conditions of Auction Sale.

Any dispute arising out of or related to these Terms of Sale, the Auction Sale or any lot, with the sole exception of actions by Legend Rare Coin Auctions to collect amounts owed to it and other damages, shall be submitted to binding arbitration pursuant to the commercial arbitration rules of the American Arbitration Association, with any arbitration hearing to occur in Monmouth County, New Jersey. Absent an agreement of the parties, the arbitrator shall limit discovery to that which is necessary to enable the hearing to proceed efficiently. The arbitrator shall not have the power to award punitive or consequential damages, nor alter, amend modify any of the terms of this Agreement. The award by the arbitrator, if any, may be entered in any court having jurisdiction thereof. Each party shall pay one-half the costs of the arbitration. Bidder acknowledges and agrees that the competent courts of the State of New Jersey shall have exclusive in personam jurisdiction, subject to the requirement to arbitrate, over any dispute(s) arising hereunder, regardless of any party's current or future residence or domicile. Bidder further agrees that venue of the arbitration proceeding shall be in Monmouth County, New Jersey; and any court proceeding shall be in the Monmouth County Superior Court, in the State of New Jersey, and in each case waive any claim of Forum Non Conveniens. Bidder agrees that any arbitration or legal action with respect to this Auction Sale is barred unless commenced within one (1) year of the date of this Auction Sale.

Auction participants expressly waive any right to trial by jury.

OUR ESTIMATES

The estimates you see published in this catalog are based on HAMMER. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

PRINCIPALS

Laura Sperber
Partner

Laura was raised in Highland Park, NJ. During high school, the coin bug hit her hard. Her trip to the 1976 NYC ANA left a lasting mark and huge desire for her to own and handle the greatest rarities. While attending Monmouth University, Laura attended coin shows more than classes. After college, she started LSS RCI, a wholesale coin company. In 1986, she realized the need for a "better" coin retailer and teamed up in 1986 with George Huang to form Legend Numismatics.

In 1996 Bruce Morelan became a partner and since then Legend has exclusively built or assisted in assembling this generation's greatest collections. In 2012 Laura saw the need for a smaller, boutique auction firm, and created Legend-Morphy with Dan Morphy, whom she split with in 2014. Today, Laura is also a leading consumer advocate for coins. The passion has never subsided, and she keeps a beautiful Proof Walker on her desk to this day.

Bruce Morelan
Partner

Bruce started collecting coins when he was only six years old and by the time he was in high school his dream was to be a coin dealer. But life intervened and instead, Bruce went into business. By chance, he became Legend Numismatics' financial backer in 1996. His great grandmother had given him three coins when he was young, one of which being a Trade Dollar, so he set out to build the finest Trade Dollar set. After a few years with ultra rarities, Bruce returned to his love of dollars and completed both a set of Gobrechts and a set of Seated Dollars.

After selling those sets, Bruce recently returned to dollars with a new Gobrecht set and a spectacular early dollar set capped by his dream coin, the Amon Carter 1794 Dollar. Not many collector's can say they have completed not only the finest 1794-1885 Dollar Sets and have over the years owned such coins as two 1913 Liberty Head Nickels, an 1894-S Dime, 1876-CC Twenty Cent piece, 1827 Original and Restrike Quarters, 1838-O Half Dollar, two 1885 Trade Dollars and four 1884 Trade Dollars!

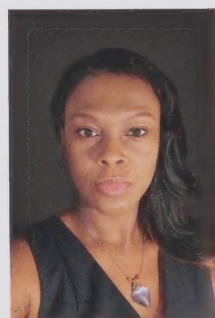

Jessica Berkman
President

Jessica heralds from the Lone Star State where she earned her BA in Art History from the University of North Texas. Her interest in Fine Art led her to seek employment at Heritage Auctions. As fate would have it, the role available was in Numismatics. Equally passionate about History, the opportunity sounded intriguing and turned out to be a great fit. It wasn't long before Jessica was entrenched in the rare coin industry and earned a solid reputation for providing outstanding customer service while adeptly managing coin consignments.

After six years and life taking its course, she explored the world of bullion and precious metals before returning to the auction landscape. Jessica is thrilled to be a member of the Legend Rare Coin Auctions team where she will continue to expand and grow her numismatic horizons while providing the top notch level of service that Legend is known to deliver. In her spare time, Jessica enjoys travelling around the world, creating pottery and spending quality time with her furry and not so furry pets.

THE UNFORGETTABLE COLLECTION

After a long break from childhood collecting, my adult collecting started back in the late 90's with small cents, reigniting my passion. I still collect small cents. But a few years ago, I wanted to do something different. Doing another regular issue series didn't seem interesting.

While reading a book about the Chicago World's Fair, I started looking into the commemorative series. The interesting designs combined with the colorful toning imparted by the packaging, were very enticing. After purchasing two or three nice ones, opportunity knocked, and it knocked hard! A collector who built a set in the early 90's wanted to sell a group of those coins in one deal. At first, I was unsure about such a large deal right out of the box. But, after comparing a few of them to coins in the top registry sets, I knew this opportunity wouldn't come often, if ever. To get the very best, I had to buy them all – around 20 coins. I ended up selling a few, but the core of that set is still present and together in mine. Those include the Norfolk, Alabama, 36-D Cincinnati, 92 Columbian, Antietam, Pan Pac, Sesqui, 35-S San Diego, Texas, 52 Washington-Carver, and the Monroe. I was off to the races faster than I thought possible.

Although each coin is individually special, these are among my most favorite:

Lynchburg - Easily the greatest Lynchburg in existence. Far better than any other in a top 10 collection (including #1

& 2 and the sole MS68). It was removed from its original mint envelope in 1993, along with six others. This one was the best and has not been viewed or offered publicly since. It has been tucked away in an older collection until I bought it in 2018.

Pan Pac PCGS 67+. One hit on the skirt away from a 68. This coin has a subtle but very captivating powder blue texture I can stare at for hours. It's 68 quality.

Hawaiian – Besides a personal connection to Hawaii, what better statement about the "rainbow state" than a commemorative with the King catching a rainbow. It may not be the best, but it is the most unique IMO.

Hudson – Again, easily the most colorful and finest 67+

Columbia D&S bought together from your New Orleans auction, and if I recall were from the same collection when brought to your office. A stunning pair as nice as the 68+'s made since then. The color on the reverse of the D is just on fire.

Long Island – is one of my favorites, and really could go 68. I love the contrast between the clear satiny portrait and the peripheral toning that is evenly distributed around the coin. That's different than any of the others in this grade.

These truly are UNFORGETTABLE coins!

LOT 1**25C 1893 ISABELLA. PCGS MS67+ CAC**

A truly MAGNIFICENT example of the only commemorative quarter struck prior to the 1976 Bicentennial quarter. Exceptionally brilliant and beautifully toned, we absolutely love the look of this totally original SUPERB GEM.

Incredible and delightful multicolored toning, showing slate-blue, lilac-teal, and amber-tangerine-rose that is boldly brought out by a sensational glowing cartwheel luster. The brilliance and the toning are seriously captivating. Sharply impressed design elements stand out on this FLAWLESS SUPERB GEM. Everything about this coin is PQ! Pristine surfaces are brilliant and even with a strong glass, we find nothing to that is worthy of mention, giving this satiny SUPERB GEM an even greater eye appeal.

PCGS 66, NGC 55, CAC 31. There are 13 in MS67+. The two most recent examples sold in 2019, one in our December 2019 Regency Auction at \$13,513 and the other for \$16,450 in March 2019. The current Collectors Universe value is listed at \$15,000. PCGS has graded a mere 7 coins finer, none of which have sold since 2014, and today, would sell for more than \$50,000 should one appear in auction. This fabulous Isabella will certainly delight any advanced commemorative specialist. Good luck.

PCGS# 9220 | EST: \$14,000+

**LOT 2****50C 1921 ALABAMA. PCGS MS66+ CAC**

This is a beautiful, totally original, and shimmering SUPERB example of this popular, conditionally rare early commem.

The surfaces are clean and gleam with a brilliant, frosty luster that possesses a vivid sheen. The mint glow accents a dusting of iridescent gold and hints of multicolored patina. Sharply struck devices and smooth, problem free surfaces, combine for a beautiful state of preservation and bold visual effect.

PCGS 156, NGC 93, CAC 52. There are 24 in MS66+ at PCGS. The most recent example sold in April 2020 for \$1,860 and prior to that we sold one for \$2,703 in January 2020. The PCGS Price Guide value is \$3,000. VERY RARE any finer, PCGS has graded just half a dozen finer, and an MS67 will cost into the five figures. This gorgeous coin is worthy of a very strong bid and will see very active bidding.

PCGS# 9224 | EST: \$2,200+

LOT 3**50C 1921 ALABAMA 2 X 2. PCGS MS67 CAC**

The Alabama 2X2 is a major condition rarity in the series, fewer than 10 examples have ever graded this fine or better! WOW! Of the 6,006 struck, this one is tied for second highest graded and was graded ages ago, housed in an old green tag holder.

Everything about this coin is totally original and amazing! First off the defiant eagle on the reverse, designed by Laura Gardin Faser is

awesome. The design elements are sharply struck up, a trait not often seen on this early commemorative type. Essentially PRISTINE surfaces, and while we make no guarantees, this is as close a shot to 67+ as you could hope. Attractive gold and soft pale blue is accented by a brilliant silver luster with a pearlescent sheen. The eye appeal of this old holdered SUPERB GEM is off the charts for this often unattractive type.

PCGS 7, NGC 9, CAC 4. This remarkable coin sold in April 2019 for \$16,800. A coin like this is worth more than the published levels and we expect it will attract very spirited bidding when it crosses the block!

PCGS# 9225 | EST: \$15,000+

LOT 4**50C 1936 ALBANY. PCGS MS67+ CAC**

Tied for second highest graded by PCGS. A wonderful tab toned Albany half! A bold, brilliant cartwheel luster swirls boldly on both sides, accenting the warm golden toning. The surfaces are essentially flawless, free of any distracting marks and the strong strike adds to the outstanding visual quality.

PCGS 256, NGC 181, CAC 96.

PCGS has graded 39 in MS67+.

Over the years, only 18 PCGS/CAC MS67+s have sold in auction, realizing an average of \$1,747. We think this one will sell for more.

PCGS# 9227 | EST: \$1,500+

LOT 5
50C 1937 ANTIETAM. PCGS MS68
CAC

Ex Shepherd, as noted on the old green insert.

This is one of the most SENSATIONAL Antietam half dollars we have EVER seen! This coin is off the charts amazing in every sense. WOW!

First the toning sets this MONSTER apart from its peers. Both sides are reminiscent of Jacob's coat; every shade of the spectrum is visible, and they come to a bold vivacity when rotated in a light. Deep crimson, royal violet, dark orange, and soft verdant hues really pop. The central obverse has just a subtle touch of gold, as if a spotlight is being placed on the profiles of Robert E. Lee and George McClellan, the commanding generals of the Confederate and Union Armies, respectively. The famed Burnside Bridge on the reverse looks sculpted and 3-D on the reverse, the tranquil landscape on the reverse looking nothing like it did on the chaotic day in September 1862 which was the bloodiest single day battle in the entire Civil War. The eye appeal is simply STUNNING.

PCGS 23, NGC 23, CAC 17. There are two, essentially ancient APRs for similar patinated coins (though those looked darker for sure); one was in January 2005 for \$21,850 and another back in September 2003 for \$26,450. For a coin like this it is probably best to ignore the more recent comps and disregard the published price guides, as the bidding action will send this coin into a frenzied charge of bidding. We would not be surprised if a new auction record was set when this coin crosses the block!

PCGS# 9229 | EST: \$15,000+

LOT 6
50C 1935 ARKANSAS. PCGS MS67
CAC

RARE in this lofty state of preservation. A truly SUPERB Arkansas half that clearly sat in an old collector album for ages, as the peripheries have toned up beautifully, yielding to frosted lustrous silver in the centers. Lovely bands of dappled multicolored coppery-orange and violet, with accents of other hues that are brought out by a bold lustrous frost. A strong glass reveals only the tiniest of ticks that keep this coin from a plus and becoming tied for FINEST graded.

PCGS 28, NGC 17, CAC 18. This lovely SUPERB example is worthy of a very strong bid, one that will leave the published levels in the dust. Only five MS67+ have ever graded finer, the only one that has ever sold was over a decade ago! We expect very strong bidding on this beauty, and our estimates will be left in the dust when the hammer falls.

PCGS# 9233 | EST: \$2,200+

LOT 7**50C 1936-S BAYBRIDGE. PCGS
MS67+ CAC**

A beautiful and high end SUPERB
GEM example of this popular Classic
Commemorative issue!

Dreamy surfaces are ultra clean and
have a wonderful satiny smooth
texture. The design is bold with the
California Bear on the obverse and
the bay view on the reverse fully
defined and free from any distracting
marks or ticks. Warm gold, and
variegated sunset hues surround
the bear. The eye appeal is truly
sensational!

PCGS 265, NGC 115, CAC 106. There are 45, no doubt including duplication, graded MS67+. The last time we sold one was over five years ago for \$2,350 and the current PCGS Price Guide value is listed at \$2,500. Rare any finer, making this a great example for the collector.

PCGS# 9254 | EST: \$2,000+**LOT 8****50C 1935/34-D BOONE. PCGS
MS68**

A sensational SUPERB GEM
example, tied for second highest
graded at PCGS from the tiny
original mintage of 2,003.

Thick, satiny surfaces have a
bold pearly luster glowing boldly
with a warm satiny smoothness.
Lilac-imbued dove surfaces in the
centers with pleasing rainbow patina
framing the rims. The devices are
crisply struck with fully defined
details and the fields are PRISTINE
and totally without flaw. This is an AMAZING example that will delight even the pickiest of collectors!

PCGS 7, NGC 8. As expected for a coin with such a low Population, these rarely appear in auction, The last one sold back in September 2016. Today the PCGS Price Guide value is listed at \$8,500. Just three in MS68+ are graded finer, and NONE have ever sold in auction. We know this MONSTER GEM will bring very strong bidding when it crosses the block. A real prize for the collector seeking the best. Don't let this opportunity pass you by!

PCGS# 9263 | EST: \$7,500+

LOT 9**50C 1936-D BOONE. PCGS MS67+ CAC**

A special Boone for sure! Tied for **FINEST** graded at PCGS, this clearly is one of the best known from a small original mintage of 5,005.

The obverse displays a wonderful blush of icy blue over brilliant silver surfaces. That same hue of blue dominates most of the reverse, framed by a nearly complete ring of deep, sunset orange. The devices are sharply struck and were it not for a tiny mark on the great pioneer's

cheekbone, this coin could have upgraded, our consignor certainly thought it had a shot. Needless to say, this coin is all there from the standpoint of technical quality and the eye appeal is exceptional and truly unforgettable!

PCGS 65, NGC 20, CAC 31. PCGS has graded 10 in MS67+ and NONE FINER. The record price realized for a 36-D Boone was for an untoned MS67 PCGS back in the 2004 FUN auction, which brought \$3,450--this beauty will likely beat that level when the hammer finally falls. Bound for an AMAZING set of Commemoratives! Good luck.

PCGS# 9267 | EST: \$2,500+

**LOT 10****50C 1936 BRIDGEPORT. PCGS MS67+ CAC**

Tied for **FINEST GRADED**, this Bridgeport has a thick frosty luster that accents a rich, antique silver and hint of gold at the periphery. Sharply struck and essentially **PRISTINE**, this **SUPERB GEM** has a great look!

PCGS 130, NGC 49, CAC 37. There are 14 in MS67+ and NONE FINER. The most recent example sold in August 2021 for \$3,240, and prior to that, one sold in 2019 for \$4,080.

The current Collectors Universe value is listed at \$3,250 and with NONE finer, this example belongs in another world class collection of Commemoratives.

PCGS# 9279 | EST: \$2,800+

LOT 11**50C 1925-S CALIFORNIA. PCGS MS67+**

This is an AMAZING California half dollar! This is a sensationally beautiful example, tied for third FINEST graded.

Intensely brilliant surfaces have a blazing luster that belies the delicate pastel iridescent toning. Shades of sky-blue and teal mingle with soft amber-rose. The devices are razor sharp, with full, crisp definition to every detail. The surfaces are satiny smooth and there are no flaws of any

kind to be found, even with the aid of a strong glass. The eye appeal is exquisite! We have no idea what kept CAC from approving this SUPERB GEM, it is a totally amazing example, don't take our word for it, take a look for yourself! You will fall in love.

PCGS 18, NGC 11. The most recent examples to sell in auction were CAC approved, the most recent selling in November 2021 for \$4,680. The current PCGS Price Guide value is listed at \$5,000. VERY RARE any finer, PCGS has graded just nine in MS68 or MS68+, and nothing finer in a PCGS holder has sold since January 2015. A beauty that will highlight any commemorative cabinet. Bidding will be as intense as the luster on this one.

PCGS# 9281 | EST: \$4,000+

**LOT 12****50C 1936 CINCINNATI. PCGS MS67+ CAC**

Tied for the absolute FINEST KNOWN of this low mintage commemorative. This coin is virtually PRISTINE! Of the few tiny ticks that are seen with the aid of a strong glass, none have an impact on the outstanding visual allure. A thick mint frost glows, accenting satiny smooth and vibrant surfaces. A hint of the faintest toning attests to the originality and adds to the high end visual allure. The quality and eye appeal are unimproveable!

The Cincinnati half dollar commemorates the 50th anniversary of the Ohio city as a center of music, thus the portrait of America's troubadour, Stephen Foster, and an allegorical goddess holding a harp on the reverse. A congressional act dated March 31, 1936 authorized the issue. Each mint produced 5,000 examples and these were offered in P,D,S sets, most of which have been broken up over the years.

PCGS 37, NGC 10, CAC 6. There are 3 in MS67+ and NONE FINER. This is the only example to sell in auction, realizing \$15,000 in June 2018. The current PCGS Price Guide value is \$18,000 and we have no doubt that this impressive coin will bring a very strong bid. It should be noted that the overall eye appeal of this SUPERB GEM is better than the record holder MS67 from the Guttag Collection that sold back in the 2011 ANA auction for \$17,250. Bid accordingly!

PCGS# 9283 | EST: \$15,000+

LOT 13
50C 1936-D CINCINNATI. PCGS
MS67+ CAC

A SUPERB example! Only two have ever graded finer at PCGS, though it is hard to imagine how any could surpass this coin's quality!

A thick, frosty luster glows boldly with a brilliant satiny finish. As you rotate the PRISTINE surfaces in a light, a visually hypnotic cartwheel rolls uninterrupted on smooth fields. Splashes of amber-gold toning graces the obverse while the reverse has a narrow band of lovely rainbow at the rims, and soft iridescent hues that float into the centers. The devices are well struck, with boldly defined details. Only 5,005 were struck and few can hold a candle to the presently offered example.

PCGS 81, NGC 45, CAC 27. There are 16 graded MS67+ and just two are finer. None have sold in over three years, and the most recent sold in the 2019 FUN auction for \$4,080. The current PCGS Price Guide value is listed at \$4,500 and it jumps to \$25,000 in MS68! A sensational coin worthy of the FINEST of sets!

PCGS# 9284 | EST: \$4,000+

LOT 14
50C 1936 CLEVELAND. PCGS
MS67+ CAC

WOW! Clearly this SUPERB GEM Cleveland half sat for ages in the original cardboard holder. Rich peripheral coppery-gold, orange, and golden-green tones meld to a dusting of olive-russet over brilliant silver surfaces. The luster is intense bringing the varied hues to life. While a strong glass reveals a tiny tick or two, these are mostly hidden by the patina and the overall eye appeal is amazing.

PCGS 103, NGC 77, CAC 48. PCGS has graded 21 in MS67+ and just 3 finer. The most recent example had a similar look, and sold for \$9,300 in October 2021. Keep in mind that a 68 will cost over \$40,000, this glorious coin is worthy of a very strong bid indeed! Good luck.

PCGS# 9288 | EST: \$3,500+

LOT 15**50C 1936 COLUMBIA. PCGS MS67+ CAC**

Only 9,007 were struck and this one ranks among the 30 highest graded at PCGS, and we have no doubt the Population figures include some duplication.

The surfaces are gleaming and brilliant with a rich, antique silver that is accented by a hint of peripheral toning and pearlescent silver. Sharply struck devices stand out boldly from the smooth, defect free surfaces. The eye appeal is incredible.

PCGS 127, NGC 100, CAC 73. There are 25 in MS67+ at PCGS. The most recent example sold for \$2,040 in March 2022 (was NOT CAC), well above the published PCGS Price Guide level. The last PCGS/CAC example brought \$2,468 in Our June 2019 Regency Auction 33. Just 5 have graded finer, none of which have sold in auction since August 2013 (back then, it sold for over \$15,000). Bid accordingly.

PCGS# 9291 | EST: \$1,500+

LOT 16**50C 1936-D COLUMBIA. PCGS MS68 CAC**

This AMAZING MS68 Columbia, SC half dollar is an old friend and we are honored and proud to offer it again! When we offered it for the first time in September 2018, this beauty was TOTALLY FRESH to the market, having been a part of an old time collection that was housed in the ancient Wayte Raymond boards. This is one of the most amazing and eye appealing examples of this type we have ever handled, and we sold the MS68+!

This marvelous SUPERB GEM is virtually peerless in terms of amazing eye appeal! Both sides are very sharply struck up and are drenched in a vibrant satiny luster that glows from all over. What sets this MS68 apart from all of its peers is the SPECTACULAR toning on the reverse. Crimson, orange, gold, apricot, cinnamon, and violet toning cover about 60% of the surfaces, leaving the center and the left untuned to act as a silver spotlight contrasting against the seductive color. You will have a hard time putting this amazing coin down, the color is just mesmerizing!

PCGS 38, NGC 53, CAC 20. We like the look of this coin as much as the MS68+ we sold in May 2019 for \$15,863. This is an incredible opportunity to get this monster toned Columbia! Bidding will be fierce for this beauty. Do not let it pass you by!

PCGS# 9292 | EST: \$6,000+

LOT 17**50C 1936-S COLUMBIA. PCGS MS68 CAC**

Another GLORIOUS SUPERB GEM Columbia half dollar. Like the 36-D above, this coin is an old friend, offered here for only the second time in the modern era, hailing from the same old time collection that was housed in a Wayne Raymond album prior to certification. A lower mintage issue, with only 8,007 distributed, it is among the very FINEST survivors graded!

This coin really is quite beautiful for the type. A satiny luster booms on both sides, especially frosty in the centers. The peripheral devices are coated with a beautiful album toning, which creates a great frame for the well struck central devices.

PCGS 18, NGC 16, CAC 13. The current PCGS Price Guide value is listed at \$6,500 and the CAC CPG value is \$6,880; the most recent sold in May 2022 for \$6,000. Only a handful are graded finer, all MS68+, none of which have ever sold in auction, making this one of the best available for the collector. We know this SUPERB GEM is worthy of placement in one of the FINEST sets of classic commemorative half dollars.

PCGS# 9293 | EST: \$6,000+

LOT 18**50C 1892 COLUMBIAN. PCGS MS67+ CAC**

The Columbian Expo half dollar, struck in honor of the 1893 World's Fair in Chicago, which coincided with the 400th anniversary of Columbus's "discovery" of the New World. Between the two years, 1892 and 1893 this type was struck, over two million were produced. Many went to non-collectors and eventually found their way into circulation. While common enough in Mint State grades up to MS66, it is RARE in SUPERB grades.

Incredible EVERYTHING! WOW oh WOW! This is a sensational Columbian Expo half! Tied for second HIGHEST graded at PCGS, there is just a single MS68 graded finer.

This example is beautifully toned over semi-Prooflike reflective lustrous surfaces. WOW! Rose and lilac overtones grace the clear gold and antique silver coloration that define the surfaces on the obverse, while the reverse is mostly untuned with a hint of peripheral color that frames the intense brilliance of the centers. Razor sharp in strike, even the most minute details of the globe are fully rendered by an exacting blow from the dies. A strong glass reveals a tiny, insignificant tick or two, but nothing that distracts the eye or has any impact on the outstanding visual allure. All we can say is WOW! In fact, the surface quality is essentially identical to the MS68.

PCGS 52, NGC 51, CAC 27. There are 14 in MS67+ at PCGS The most recent example sold in our October 2021 Regency Auction for \$13,513. The current Collectors Universe value is listed at \$10,000 and we think this beautiful SUPERB GEM will easily exceed that level when the hammer falls. Good luck.

PCGS# 9296 | EST: \$10,000+

50C 1893 COLUMBIAN. PCGS MS67 CAC

Incredible quality! This coin is wonderfully preserved and very high end! A bold luster booms from under the color and as expected for the lofty grade, there are no distracting marks or scuffs of any kind. Indeed, all we can see is a tiny tick in the center of the sails on the reverse. Otherwise we see no reason this coin couldn't "+". Both sides show off a warm teal-blue, slate, and russet-rose. The eye appeal is wonderful.

PCGS 41, NGC 39, CAC 21. There is a wide range of APRs, the most recent PCGS/CAC example selling in November 2021 for \$4,130. The PCGS Price Guide value is listed at \$3,600, and the CAC CPG value is \$5,620. Only 7 coins are graded higher, and we sold one of them for a world record \$20,563 in our April 2022 Regency Auction. Do not let this important SUPERB GEM example get away. Worthy of strong bidding.

PCGS# 9297 | EST: \$3,200+

LOT 20

50C 1935 CONNECTICUT. PCGS MS67+ CAC

A thickly frosted SUPERB GEM Connecticut half dollar that is all there from the technical grade standpoint and has a fantastic visual effect on top.

Nearly flawless surfaces have a glittering satiny frost. Mostly pearly silver in color, both sides have peripheral accents of color. The obverse shows a blush of gold. The reverse has a deeper orange-gold at STATES and a pearly-silver gold.

The devices show exquisite exactness in strike with all the leaves of the Charter Oak crisply rendered. The eye appeal is excellent.

PCGS 148, NGC 111, CAC 74. PCGS has graded a mere 20 in MS67+ and a solitary MS68 finer. Only 6 MS67+ CAC examples have sold in auction, with an average APR of \$3,320; the most recent of which sold for \$4,200 in June 2020. The sole MS68 has never made an appearance in auction, but would certainly bring well into the five figure range if it came to market. This sensational coin is worthy of a very strong bid. Good luck.

PCGS# 9299 | EST: \$3,000+

LOT 21

50C 1936 DELAWARE. PCGS MS67+ CAC

What a great looking, exceptionally preserved, essentially PRISTINE GEM. This is an awesome Delaware, easily one of the FINEST MS67+s that has been graded, and certainly one of the nicest we have ever had the honor of offering.

Premium quality to the fore! Beautifully preserved, the surfaces are frosty and satiny with a bold luster that glows all over. Every detail is sharply struck up with

pinpoint precision razor sharp exactness. The surfaces immaculate, flawless in fact, devoid of even the tiniest of ticks. Awesome tab toning graces this GEM with a delicate gold deepening to coppery-orange that frames the obverse and the reverse has a wonderful mix of lemon-yellow, tangerine, and soft reddish hues. We have never seen an MS67+ Delaware that compares!

PCGS 211, NGC 165, CAC 87. There are 44 in MS67+ and it is highly doubtful that more than a handful can come close to this SUPERB coin's visual allure. The most recent example of this grade realized \$5,760, and is close to this coin in terms of visual quality. There are seven graded higher at PCGS, none of which have ever sold in auction, but PCGS lists a value of \$25,000. This coin will see very strong bidding and placement in another world class classic commemorative set. Good luck.

NOTES

LOT 22

50C 1936 ELGIN. PCGS MS68+ CAC

Tied for FINEST certified and a contender for FINEST KNOWN honors! WOW! This coin is truly SPECTACULAR in every way! Did we say "WOW" yet?

The surfaces of this coin are PRISTINE! Even with the aid of a strong glass you will NOT find a single flaw of any kind, or any size anywhere on the surfaces. A sensationally bold, vibrant, brilliant mint frost glows from below the amazing multicolored patina. Shades of emerald, amethyst, citrine, and garnet can be seen on both sides; on the obverse it frames the pioneer portrait, which is untoned and thickly frosted; those same colors cover the entire reverse side. The eye appeal is stunning and words are hardly adequate to describe this STUNNING SUPERB GEM! One look in hand and you will instantly fall in love!

PCGS 11, NGC 16, CAC 2. There are four in MS68+ and clearly none finer. The only MS68+ to ever sell in auction realized \$49,938 in the 2014 FUN auction. The current PCGS Price Guide value is listed at \$50,000 and we would not be shocked if this MONSTER Elgin brought more. This coin should realize a world record bid!

PCGS# 9303 | EST: \$40,000+

LOT 23
50C 1936 GETTYSBURG. PCGS MS67+ CAC

Sensational, totally original tab toning graces this SUPERB Gettysburg half dollar. One of the most popular subsets from the extensive classic commemorative series is those related to the Civil War. This type is in constant demand from collectors, and is rare in this lofty state of preservation, and the Gettysburg half is prohibitively RARE any finer.

This exceptional, essentially FLAWLESS coin sat with the reverse up in the original cardboard holder. Rich peripheral toning and a coppery-gold spot in the exact center take the pattern of the holder, while the obverse is evenly covered across the entire surface. Shades of peach, tangerine, and violet dominate, with subtle shades of olive and emerald that pop out when the satiny frosted surfaces are rotated in a light. The strike is razor sharp and are unmarred by any contact, clearly this coin sat unmolested from the time of issue until it was submitted for grading. The eye appeal is stupendous!

PCGS 258, NGC 140, CAC 90. There are 54 listed on the PCGS Population Report in MS67+ and a mere four coins graded higher. Certainly this high end and beautiful example is one of the nicest MS67+s out there! The current Collectors Universe value is listed at \$6,000. We expect this coin will sell for more when it crosses the block. An amazing example worthy of any top notch toned classic commemorative set. Good luck.

LOT 24
50C 1922 GRANT. PCGS MS67+ CAC

Ex San Diego Collection, as noted on the insert.

Everything about this coin is AMAZING. Not only is it tied for FINEST GRADED at PCGS, this colorful SUPERB GEM has it all!

Clearly this beauty sat undisturbed in an old album or similar type holder, imparting a band of intense color at the periphery, yielding to lighter patina in the centers.

Tangerine, gold, magenta, and rose dominate the peripheral tones, infused with hints of teal and violet. The centers are antique silver and iridescent icy blue. The colors are further enlivened by a satiny mint bloom which accents the flawless surfaces and sharply impressed design elements. We have studied this coin over and over with a strong glass, and we cannot locate anything that would keep it out of an even higher grade holder (no guarantees), but we cannot imagine a finer example. The eye appeal is incredible.

PCGS 93, NGC 53, CAC 29. There are 16 graded MS67+ at PCGS and NONE FINER. We have had the pleasure of selling two examples in 2021, realizing \$7,638 and \$9,694. Neither coin had the stunning looks of this SUPERB GEM and we have no doubt that the PCGS Price Guide value of \$9,000 will be exceeded when the hammer falls. Worthy of another spectacular set of Classic Commemoratives. Bidding will be intense.

PCGS# 9306 | EST: \$9,000+

LOT 25

50C 1922 GRANT, STAR. PCGS MS67 CAC

This is the ULTIMATE Grant with Star half dollar. One of the KEYS to the series, only 4,256 were struck with the tiny star in the field above GRANT on the obverse, and this one is tied for second HIGHEST GRADED with just a single MS67+ graded higher. Our sister firm owned this coin twice over the years, and we sold it for \$42,300 in our Regency Auction XX, back in January 2017.

Superior surfaces are flawless. You can use a strong glass and look really hard for a long time and will not be disappointed. There are only some light Mint made striations visible. A way above average luster shows off the beautiful light and totally original pewter/pale purple color. This is NOT a dull or drab coin. Every detail is well struck. The eye appeal is super, and in our opinion it is unquestionably above and beyond all others in quality!

PCGS 6, NGC 16, CAC 2. The most recent MS67 example to sell was a non-CAC NGC coin that brought \$43,200 in April 2022. The current CAC CPG value is listed at \$48,000. We expect this one to sell for more.

PCGS# 9307 | EST: \$35,000+

LOT 26
50C 1928 HAWAIIAN. PCGS MS66
CAC

The 1928 Hawaii is one of the most popular types in the entire classic commemorative series, and with a mintage of 9,958, it is one of the key dates. A large number were stored at the Bank of Hawaii and the hot, humid, tropical climate imparted a "dusty" golden tone that is quite often seen on original examples. This GEM is no different. However the eye appeal of this PQ example is better than often seen.

What sets this beauty apart is the rainbow band that streaks across the central reverse, painting a rainbow over the Hawaiian landscape behind Kamahamaha. The strike is bold and the surfaces are glowing with a sensationally vibrant mint luster. The eye appeal is very high end!

PCGS 129, NGC 74, CAC 47. The current CAC CPG value is \$6,600 and this colorful, borderline SUPERB GEM will bring a very strong bid from the advanced collector. This type does not often come looking like this, so do not let this one pass you by! Good luck.

PCGS# 9309 | EST: \$5,500+

LOT 27
50C 1935 HUDSON. PCGS MS67+
CAC

This SUPERB GEM is an old friend, a coin we sold in our September 2018 Regency Auction. Then, as now it was tied for FINEST graded, and its quality and eye appeal is truly spectacular! It would not come as a surprise if this coin counted for several of the currently 8 listed at this grade level at PCGS.

Not only is this coin SUPERB from a technical quality perspective, but it is also AMAZING in terms of eye appeal! Ultra satiny surfaces glow in the fields around the devices, giving life to the wonderful ORIGINAL toning. Clearly this coin sat in an old album where it was able to take on some vivid orange and pastel hued iridescent toning. The eye appeal is spectacular! We doubt a nicer Hudson even exists anywhere.

PCGS 40, NGC 38, CAC 12. There are 8 in MS67+ and NONE FINER. This also the only one to sell in major auction, realizing \$22,913 in our September 2018 Regency Auction. The current PCGS Price Guide value is listed at \$24,500, and we have no doubt that the published level will be challenged when this world class SUPERB GEM crosses the block. This is one of the greatest examples that belongs in another sensational collection of commemoratives! Do not let this opportunity pass you by!

PCGS# 9312 | EST: \$22,000+

LOT 28**50C 1924 HUGUENOT. PCGS MS68 CAC**

This has to be the most beautiful Huguenot half dollar we have EVER seen! This is a type that rarely comes nice, and WOW! This beauty is very high end!

The surfaces are free of distracting marks. The frosty lustrous surfaces show a satiny sheen that glows through the wonderful, original colorful toning that adorns both obverse and reverse. AMAZING deep and rich rainbow toning on

both sides which yields to brilliant silver in the center. The sunset orange, purple, blue, green, and other tones really come out boldly on the obverse and the reverse is a bit more subtle, but no less beautiful. A strong luster accents the colors and brings them to life in the most vivid way. The PRISTINE surfaces are free of distracting marks or discolorations of any kind. The strike is sharp and the eye appeal is really quite special! We are totally in love with it!

PCGS 5, NGC 3, CAC 2. No PCGS MS68 has ever sold in auction before. The current PCGS Price Guide value is \$25,000 and it is quite possible that this beast will bring that or more when the hammer finally falls. We wish you the best of luck if you are bidding on this coin, the competition will be fierce!

PCGS# 9314 | EST: \$20,000+

**LOT 29****50C 1946 IOWA. PCGS MS68+**

A magnificent example, to call it a SUPERB GEM does not do this Iowa half dollar justice. The surfaces are immaculate! Even with the aid of a strong glass they appear FLAWLESS. A strong luster blooms on both sides, a bold pearlescent satiny brilliance amplifies the pastel iridescent toning on the obverse, while the reverse is mostly untuned original silver. The eye appeal is incredible.

PCGS 16, NGC 5. The current PCGS Price Guide value is listed at \$4,000.

The last one sold half a decade ago, realizing \$3,055. There is a SINGLE MS69 finer at PCGS, a coin that has never appeared in auction, and would likely bring a strong five figure bid if it did. This beautiful and high end example will find itself at home in another world class set.

PCGS# 9316 | EST: \$3,000+

LOT 30**50C 1925 LEXINGTON. PCGS MS67**

A frosty, untoned SUPERB GEM Lexington. Struck to commemorate the sesquicentennial of the battles of Lexington and Concord and the start of the American Revolution, this has always been a popular type. Common up to and including MS66 grades, it is quite challenging in the presently offered SUPERB grade and extremely rare any finer.

Frosted silver lustrous surfaces radiate with a tinge of iridescent silvery/white toning. The devices are sharply struck up and the surfaces are clean and a delight to behold.

PCGS 38, NGC 17. The most recent PCGS-graded MS67 Lexington sold for \$3,600 in December 2021. Only nine are graded higher at PCGS: 7 in MS67+, 1 in MS68, and 1 in MS68+. Only the MS68 has ever sold in auction, realizing \$69,000 back in 2005! We anticipate this beauty will see very strong bidding and placement in another great set of commemoratives. Good luck.

PCGS# 9318 | EST: \$3,200+

LOT 31**50C 1918 LINCOLN. PCGS MS67+ CAC**

This is one Lincoln Commem well worthy of its lofty designation! WOW, this one is clearly near the top of the Pop! The eye appeal is SUPERB--absolutely original, and very high end.

This is a gorgeously toned Lincoln! The surfaces are blindingly brilliant with flashy, bold cartwheels that accent peripheral toning in wonderful rainbow hues that frame both sides. While the centers are gently kissed by pale sky blue. Lincoln's portrait stands out with a very bold definition and the reverse eagle and arms are all beautifully defined as well. Every detail is crisply defined. Immaculate surfaces are free from any serious marks. The eye appeal is stunning!

PCGS 161, NGC 87, CAC 52. There are 34 in MS67+ (no doubt there is some duplication of submissions at this level). We sold the most recent example for \$9,988 in our Regency Auction 50. This exceptional quality SUPERB GEM will bring a very strong bid. Only six have ever graded finer, none of which have sold in over seventeen years! WOW. Worthy of the FINEST of collections and this one will be hotly contested! Bid accordingly.

PCGS# 9320 | EST: \$7,000+

LOT 32**50C 1936 LONG ISLAND. PCGS MS67+ CAC**

Tied for FINEST GRADED at PCGS, this SUPERB GEM Long Island has a lot to offer the Registry Set collector. From the high end technical quality to the stunning visual allure, this colorful SUPERB GEM is worthy of the FINEST of collections.

The obverse is framed by a band or rainbow toning while the reverse sat against the paper on the holder, leaving a rose, olive, russet-tan dappled patina across the PRISTINE, flawless surfaces. A bold satiny mint frost provides a wonderful "backlight" to the color, enhancing all the soft, subtle hues that appear on the surfaces. The devices are crisp and bold, with a thick frost. The eye appeal is AMAZING.

PCGS 127, NGC 100, CAC 64. There are 28 in MS67+ at PCGS and NONE FINER at that service. There is a wide range of prices realized for PCGS MS67+ CAC examples, from \$5,000 to \$33,000! We believe this high end example will sell for well in excess of the published PCGS Price Guide value of \$6,500. Do not let this beauty get away!

PCGS# 9322 | EST: \$6,000+

**LOT 33****50C 1936 LYNCHBURG. PCGS MS67+ CAC**

This is a MONSTER toned Lynchburg, one of the most polychromatic, beauteous, and vividly patinated SUPERB GEMs we have ever seen! Mother Nature really worked her magic on both sides of this technicolor, psychedelic classic commemorative. The Easter egg pastel iridescent toning on both sides are reminiscent of a Grateful Dead t-shirt!

Vibrant, vivid, brilliant mint luster glows boldly all over this pristine, virtually PERFECT example. The blues, golds, greens, pinks, and oranges really come to life when the highly lustrous surfaces catch the light. The colors pop off the surfaces! Even with the aid of a strong glass you will be unable to find a single flaw worthy of mention and this coin is totally UNIQUE with this amazing palette of monster colors! WOW!

PCGS 169, NGC 135, CAC 67. PCGS has graded 31 in MS67+ and just a single MS68 finer. Nicer than the example that sold in 2013 for a record \$11,750, we think this coin could exceed that level when the hammer falls. Only time will tell! Good luck.

PCGS# 9324 | EST: \$4,500+

LOT 34

50C 1920 MAINE. PCGS MS67

A GORGEOUS MS67 Maine, tied for second highest graded at PCGS, and a very visually alluring example. After 36 years of grading coins, PCGS has graded precious few any finer, none finer than MS67+.

A bold underlying luster booms on both sides. The devices are crisply struck and expertly rendered from an exacting blow from the dies. Rich verdant and azure toning is accented by a hint of amber in the centers of the obverse. The reverse is similarly toned, save for the amber, and replacing that with a splash of brilliant, untuned silver surfaces. The surfaces are generally clean, only a strong glass finds some minor microscopic lines in the center of the Maine coat of arms. The eye appeal is impeccable and high end.

PCGS 66, NGC 44. The current Collectors Universe value is listed at \$3,000 and it jumps to \$9,500 in MS67+. We love the look of the toning on this one and expect it will end up in another WORLD CLASS collection. Good luck.

50C 1934 MARYLAND. PCGS MS67+

Maryland, my Maryland! This TOP POP SUPERB GEM will make you break out in song! Holy cow!

This is one of the prettiest examples the current cataloguer has seen. Truly album toned with the ice blue and sea green hues graduating to peach and gold and ending at white centers. Evenly toned on both sides. The toning is brought to life by a strong luster and brilliant vivacity that is just incredible. Sharply struck, even Cecil Calvert's facial details which are virtually always flat are boldly defined and quite strong. The surfaces are immaculate and flawless, giving this Maryland an impressive visual allure that is RARELY seen! WOW.

PCGS 18, NGC 9. The last one to sell realized \$4,348 in our September 2019 Regency Auction, and the current Collectors Universe value is listed at \$4,350. This magnificent SUPERB GEM belongs in the finest of collections and will see very strong bidding. Good luck.

LOT 36

50C 1921 MISSOURI 2X4. PCGS MS66+ CAC

Among the **FINEST KNOWN** examples of this **KEY** commemorative issue. Only 5,000 were struck, and after 36 years of coin grading, PCGS has **NEVER** graded one in full **SUPERB GEM** grade, this one comes as close as any! This is a real prize for anyone working on a top tier set!

Frosty, satin luster blooms in the ultra smooth fields. The strike is bold with fully struck devices that seem to be in high relief. The most delicate touch of iridescent golden tone is brought out by the impressive satiny lustrous frost. The eye appeal is exceptional and if you collect **TOP POP** commems, you will find a lot to love with this borderline **SUPERB GEM**!

PCGS 52, NGC 42, CAC 15. There are 10 graded MS66+ at PCGS and **NONE HIGHER**. We have sold two very similar examples over the years, including the record holder, which brought \$31,725 in our May 2019 Regency Auction. The current PCGS Price Guide value is \$30,000 and in this market we would not be surprised if this coin brought a new record price. Good luck.

PCGS# 9331 | EST: \$26,000+

LOT 37**50C 1923-S MONROE. PCGS MS66 CAC**

One of the most magnificent examples of this typically visually challenging type in the series. The visual allure of this particular GEM is off the charts and its quality borders on the SUPERB GEM grade.

The usually lackluster surfaces are beaming with a bold luster that glows with a dramatic brilliance under the totally original and visually enticing toning. Azure and amber tones burst forcefully off the silky smooth surfaces. The devices are likewise counter to what you often see on this type; they are very sharply impressed. On the present coin you can actually see the female forms that create the North and South American continents on the reverse. The eye appeal is amazing for a GEM Monroe!

PCGS 115, NGC 70, CAC 26. The toning and eye appeal really set this one apart. We sold a lovely non-CAC PCGS MS65 for \$4,700 in Regency Auction 50; a gorgeous PCGS MS64+ CAC for \$3,055 in Regency 28; and an other stunning MS65 for \$3,760 in Regency 26. We think this coin is going to sell in that range when the hammer finally falls on this PQ GEM. When you see it, you will know how special this Monroe is! Good luck.

PCGS# 9333 | EST: \$2,500+

LOT 38**50C 1938 NEW ROCHELLE. PCGS MS67+ CAC**

Ex Bruce Scher Collection, as noted on the insert.

WOW! WOW! WOW! This is a MONSTER TONED New Rochelle! The color is absolutely CRAZY beautiful. Among our personal favorites from this Unforgettable Collection!

A kaleidoscopic array of colors give this polychromatic SUPERB GEM a fabulous look! Crimson and azure tones dominate the obverse with hints of green at the periphery. The same tones frame the periphery of the reverse, keeping the center frosty and untuned in the center. This coin has the eye appeal of an even loftier grade, especially from the obverse, but a few tiny ticks on the wide open reverse keep it at the impressive MS67+ grade. Needless to say though, this New Rochelle half dollar offers high grade, beautiful color, and a superb pedigree, all traits that will lead to very strong bidding.

PCGS 300, NGC 117, CAC 109. There are 66 graded MS67+, clearly there is duplication at this level. This MONSTER will easily blow past other MS67+ CAC coins and the published levels. This coin will be a highlight of any superlative collection. Our estimate is just conjecture, we suspect this coin will set a record for any MS67+ ever sold.

PCGS# 9335 | EST: \$3,500+

LOT 39**50C 1938 NEW ROCHELLE. PCGS SP67+ CAC**

One of the coolest commemorative type coins in the entire series, the special "Specimen" New Rochelle strikes. Only 50 examples were originally struck using specially polished dies. Had these been struck on specially produced planchets and struck with more than one blow from the dies these would have been full Proof strikes. This is one of the FINEST graded and these are just so cool and very RARE!

This coin is truly of MAGNIFICENT QUALITY! Truly SUPERB in every way! Glassy reflective mirrors beam in the fields. The icy surfaces have a stunning, blast white, untuned brilliance that glimmers against the sharply struck devices. The eye appeal is AMAZING!

PCGS 15, NGC 9, CAC 13. There are four graded SP67+ and just a single SP68 graded higher at PCGS. The current PCGS Price Guide value is listed at \$16,500 and the most recent one sold for \$13,200 in January 2021. The single SP68 has never sold in auction and would likely sell in excess of \$35,000 should it come on the market. Good luck!

PCGS# 99335 | EST: \$13,000+

LOT 40**50C 1936 NORFOLK. PCGS MS68 CAC**

Ex Shepherd, as noted on the insert.

WOW! This has to be one of the most magnificently toned Norfolk half dollars we have ever seen, and you will certainly agree! One look at the rich, multicolored patina will have you entranced and you will be captivated by the awesome eye appeal. Thanks to the somewhat busy design types, this is one of the few commemoratives that is readily available in MS68. That said, few Norfolks have this coin's AWESOME look!

The colors were imparted by long term storage in the original holder, you can see the tab pattern in the color on the obverse. Every color of the spectrum comes out when rotated in the light, from purple to gold. The surfaces are without flaw and the devices are sharply struck. The eye appeal is excellent.

PCGS 218, NGC 129, CAC 94. A similar looking example, housed in an old NGC holder, realized \$3,240 in April 2022. We have no doubt this coin will bring more when the hammer falls. Good luck.

PCGS# 9337 | EST: \$3,200+

LOT 41**50C 1938-D OREGON. PCGS MS68+ CAC**

A VERY HIGH END and simply sensational SUPERB 38-D Oregon Trail half dollar! Indeed this is easily among the FINEST KNOWN examples of the 6,005 struck. The technical quality and visual allure are both sublime!

This coin is immaculate, flawless, pristine! There are zero imperfections anywhere, even using a strong glass. Indeed, we would not have flinched if this coin was graded MS69! Every detail sports razor sharp definition, from the Indian's headdress to the infant sitting on its mother's lap inside the covered wagon on the reverse. A bold and brilliant luster with a frosty satin-like sheen is vibrant and captivating on the surfaces. Both obverse and reverse show spectacular toning that clings mostly to the periphery and yields to the brilliant silver confined to the centers. The toning really makes the sharpness of the devices pop off the surfaces of is awesome commemorative half dollar.

PCGS 58, NGC 79, CAC 18. There are 11 in MS68+. This unforgettable coin sold for \$12,925 back in the 2015 FUN auction. It is remarkable that there are 3 finer at PCGS, all MS69. There are all impounded in important collections, as none have sold since 2004! We would not be surprised if this coin hammered for more than its 2015 auction record. Bound for another top tier set! Bid accordingly.

PCGS# 9349 | EST: \$8,000+

LOT 42**50C 1915-S PANAMA-PACIFIC. PCGS MS67+ CAC**

Tied for second highest graded at PCGS and NONE are finer at CAC. This beauty is wonderfully toned and PRISTINE! We have looked this SUPERB Pan-Pac over and over with a strong glass, and there are ZERO imperfections. Perhaps the totally original color is a little deep for PCGS to call it MS68, but we would not flinch if it was in a 68 holder (no guarantees).

A strong underlying luster highlights the rich verdant, azure, and aurelian toning. The devices are sharply struck and the surfaces are flawless. The eye appeal is off the charts amazing.

PCGS 133, NGC 63, CAC 69. There are 29 graded MS67+ at PCGS (including no doubt some duplicate submissions in hopes of getting a 68 grade). The current PCGS Price Guide value is \$10,000 and the average APR is \$10,548. There are five graded MS68 finer at PCGS, none of which is CAC approved, and the last one sold over seven years ago for over \$30,000! This is an amazing example of one of the most popular commemorative types. Good luck.

PCGS# 9357 | EST: \$8,500+

LOT 43**50C 1920 PILGRIM. PCGS MS67+**

Tied for second FINEST seen by PCGS! This is a beautifully preserved SUPERB GEM with exceptional everything!

Richly, and originally toned in iridescent shades of full rainbow patina on both sides. The devices are sharply struck and accented by a wealth of warm, satiny luster that brings out the subtle shades of the lovely toning. Sharply struck devices stand out against essentially PRISTINE surfaces. The eye appeal is very high end and exceptionally pleasing.

PCGS 15, NGC 2. The last non-CAC example sold back in June 2014, realizing \$5,454. The current PCGS Price Guide value is listed at \$6,000 and if one of the three MS68s that are graded finer at PCGS were to come to market, the PCGS Price Guide value of \$15,000 would certainly be exceeded! A wonderful example of this early commem, one that will be a prize in any high end set!

PCGS# 9359 | EST: \$4,500+

LOT 44**50C 1921 PILGRIM. PCGS MS67+ CAC**

An unimpeachable SUPERB GEM, tied for second FINEST graded at PCGS and among the most visually appealing 1921 Pilgrim half we have seen! Clearly this impressive example has been lovingly cared for over the last 101 years, allowing it to take on a gentle blush of toning and remain in virtually PRISTINE condition!

The luster is exceptionally brilliant, glowing with a warm, satiny vibrance. Coppery-orange gold clings to the periphery, while blending to a soft, sky blue, pastel rose, pale periwinkle, and iridescent hues that come to life when rotated in a light. Were it not for a microscopic tick or two, this coin may have made its way into a 68 holder; it certainly has the eye appeal!

PCGS 66, NGC 38, CAC 11. PCGS has graded 10 in MS67+. The last two sold in 2021 for \$6,600 and we sold a similar looking coin for \$7,050 back in March 2020. The current PCGS Price Guide value is \$7,500 and this coin could surpass that level when it crosses the block. A single MS68 is graded finer, a coin that has yet to sell in auction. Bound for a great set of commemorative halves and a coin that will see very strong bidding. Do not let it slip away!

PCGS# 9360 | EST: \$6,500+

LOT 45**50C 1936-D RHODE ISLAND. PCGS MS67+ CAC**

Very, very HIGH END and spectacular! Among the FINEST we have offered, and with just three graded higher at PCGS, this coin is certainly among the highest graded.

Flashy, brilliant mint luster has a bold, radial brilliance that rolls on with strong cartwheels. The surfaces are imbued with a subtle iridescent toning, pastel rose and gold are suffused with an icy sky blue hue. The eye appeal is exceptional in every way.

PCGS 105, NGC 55, CAC 40. There are a mere dozen in MS67+ and just three finer. The most recent example to sell in auction realized \$8,519 in our Regency Auction 50. A single 68 sold in our May 2018 Regency Auction for \$43,475. This coin is worthy of a very strong bid for sure, and will fit nicely in any very high end set. Good luck.

PCGS# 9364 | EST: \$3,200+**LOT 46****50C 1936 RHODE ISLAND. PCGS MS67+ CAC**

This is a truly spectacular SUPERB Rhode Island half, a coin with very distinctive, essentially Prooflike lustrous brilliance. The reverse is framed in a subtle halo of rainbow toning that accents the Art Deco style portrayal of the original Puritan settler of Rhode Island meeting a Native American. The devices are crisp and the superior and brilliant surfaces are PRISTINE. We absolutely love the look of this flashy beauty!

PCGS 86, NGC 58, CAC 31. There are just 10 graded MS67+ and a single MS68 finer at PCGS. The current PCGS Price Guide value is listed at \$2,900 and it would not come as a shock if this SUPERB GEM sells for more. This stunning, Prooflike SUPERB GEM is a world class addition to any world class set.

PCGS# 9363 | EST: \$2,500+

LOT 47**50C 1937 ROANOKE. PCGS MS68 CAC**

A SUPERB GEM! One of the FINEST graded examples extant, with just a single MS68+ graded higher! WOW!

A sensationally brilliant luster swirls over extremely smooth surfaces and boldly struck design devices. The fields are flashy, the luster just jumps off the surfaces! Touches of amber-gold color, mostly at the peripheries make the design elements stand out in a near 3-D effect, especially in Sir Walter Raleigh's beard and ruffled collar. The surfaces are flawless and free of any kind of distracting marks or ticks. The eye appeal is virtually flawless!

PCGS 31, NGC 42, CAC 17. There is a very wide range of APRs; the two most recent sold in 2021 for \$4,440 and \$10,800. The current Collectors Universe value is \$5,800. Just a single MS68+ is graded finer. Bound for a great, high ranked Registry Set of Classic Commemoratives.

PCGS# 9367 | EST: \$5,500+

LOT 48**50C 1936 ROBINSON-ARKANSAS. PCGS MS67+**

Tied for second FINEST graded at PCGS, this SUPERB GEM Robinson is extremely high end and beautiful!

A brilliant and bold underlying mint frost glows in the fields, accenting sharply struck devices and hints of dappled coppery color at the peripheries. The surfaces are sleek and clean, free of any distractions of any kind any where. The eye appeal is exceptional, as is the quality.

PCGS 18, NGC 12. Only two have ever sold in auction, realizing \$4,560 and \$3,878. The current Collectors Universe value is listed at \$5,000 and there are just two finer both MS68 and the last one sold all the way back in 2005 for over \$20,000! Do not let this attractive SUPERB GEM pass you by!

PCGS# 9369 | EST: \$4,000+

LOT 49

50C 1936-D SAN DIEGO. PCGS MS68

Now this is a truly UNFORGETTABLE San Diego half dollar. TOP POP and unbelievable quality everything, this is the definition of a MOOSE! WOW!

Intense and brilliant mint luster booms vividly across the surfaces. Swirling cartwheels radiate, accenting the ultra sharp devices and bringing the gorgeous obverse color to life, particularly on the obverse. The reverse is mostly pearly silver with the ever lightest blush of color at the left most rim. A tiny break in the frost on the reverse is essentially invisible and otherwise it is virtually PRISTINE. The eye appeal is sensational in every way! We cannot imagine a nicer one.

PCGS 4, NGC 5. Only one has ever sold, realizing a record \$38,400 in April 2022. Disregard the PCGS Price Guide, as even the wholesale price guide levels have surpassed it! WOW. This is a rare treat that you have an opportunity to bid on two of the FINEST in so short a span of time. Don't let this one pass you by! Good luck.

PCGS# 9372 | EST: \$25,000+

50C 1935-S SAN DIEGO. PCGS
MS68 CAC

The image displays two circular medals from the 1935 San Diego Exposition. The left medal (obverse) depicts a seated female figure, likely Liberty, holding a torch in her right hand and a globe in her left. The text 'UNITED STATES OF AMERICA' is inscribed around the top, and 'LIBERTY' is at the bottom. The right medal (reverse) shows a detailed illustration of a cathedral, presumably the San Diego Cathedral. The text 'SAN DIEGO' is at the top, '1935' is on the right, and 'IN GOD WE TRUST' is at the bottom. The outer ring of the reverse medal contains the text 'PACIFIC INTERNATIONAL EXPOSITION'.

Deep, vibrant, autumnal rainbow toning envelopes both sides of this SUPERB GEM. The crimson, violet, tangerine, rose, and pale green really POP when rotated in a light. The devices are ultra crisp and the surfaces uber smooth and clean, free of distracting marks of any kind. The eye appeal is truly amazing.

PCGS 8, NGC 9, CAC 3. The most recent PCGS MS68 CAC to sell realized \$9,000 in January 2019, and that was the first one to sell since 2005! While the current PCGS Price Guide value is listed at \$11,000 we would not be shocked at all if that level was surpassed and left in the dust when the hammer falls. Another unforgettable quality classic commemorative from this collection that will excite even the pickiest, most jaded collector.

PCGS# 9371 | EST: \$9,000+

NOTES

LOT 51

50C 1926 SESQUICENTENNIAL. PCGS MS66 CAC

WOW!!! This is one of the **FINEST** Sesquicentennials that exists! As a type the Sesquicentennial half dollar, with its dished fields often comes with shallow, soft strikes and lack luster surfaces. It really is interesting to consider that despite a generous mintage of 141,120, relatively few survive in GEM grade, and **NONE** have graded in the **SUPERB** grades. When we sold this Premium GEM back in December 2017, there were **NONE** FINER.

This is the opposite of what a typical Sesqui looks like. Boldly and brilliantly lustrous, well struck, and well preserved. This example is fully struck up on both sides. The reverse has a semi-reflective lustrous sheen, while the obverse possesses a more frosty-satin luster. Lovely toning at the rims frame both sides imparting a bold visual allure. This GEM Sesqui is essentially on par quality and visually with the MS66+ we sold last year.

PCGS 19, NGC 32, CAC 9. This is the most recent example to sell in auction, realizing \$22,325 in our December 2017 Regency Auction. PCGS has graded four finer in MS66+, and we sold the most recent of those for \$37,600 in October 2021. Worthy of a very strong bid, and placement in a world class set. If PCGS were to grade a 67, it would be worth into the six figure range. This is an excellent addition for the advanced commemorative collector. Good luck.

PCGS# 9374 | EST: \$20,000+

LOT 52**50C 1935 SPANISH TRAIL. PCGS MS67+ CAC**

Without a doubt, the Spanish Trail half dollar is one of the more interesting and obscure designs of the commemorative series. The cow skull on the obverse is a play on the name of Alvar Nunez Cabeza De Vaca, a Spanish explorer of the early southern portion of the United States in 1535, whose last name translates to "cow's head."

Only 10,008 were struck, and it is one of the KEY types of the series.

A fully brilliant mint luster swirls boldly on both sides accenting a blush of pearly gold. Virtually FLAWLESS, this SUPERB example has a great eye appeal.

PCGS 225, NGC 129, CAC 77. PCGS has graded 41 in MS67+, a figure that no doubt includes some duplication. Only 10 are graded finer. The current PCGS Price Guide value is listed at \$3,500. A great type coin, worthy of a fabulous set, especially if you demand CAC approval, as none of the MS68s have ever been approved.

PCGS# 9376 | EST: \$3,500+

LOT 53**50C 1925 STONE MOUNTAIN. FS-101. PCGS MS66 CAC**

A lovely Premium Quality example of this scarce Doubled Die Obverse variety. The doubling is most notable at STONE MOUNTAIN and the date. A warm golden-russet, olive-gray, and delicate lilac hues are accentuated by a glowing luster and the devices are sharp.

PCGS 1130, NGC 848, CAC 356. PCGS has graded nine examples of this distinct Doubled Die variety. The current CAC CPG value is \$390, and we have no doubt this lovely coin will sell for a premium bid.

PCGS# 9378 | EST: \$350+

LOT 54

50C 1925 STONE MOUNTAIN. PCGS MS67+ CAC

An exceptional Stone Mountain half dollar. Virtually pristine surfaces have a bold luster that glows with a vivacity and brilliance atypical of the type. Sharply struck devices stand out through blushes and splashes of original iridescent toning. The eye appeal is excellent.

PCGS 385, NGC 216, CAC 143.

There are 55 in MS67+ at PCGS, and a mere 8 coins graded finer. We sold the most recent example for \$2,468

in September 2021. The current PCGS Price Guide value is listed at \$2,600. The last MS68 sold back in May 2007-- that was 15 long years ago! WOW. Worthy of a strong bid. Good luck.

PCGS# 9378 | EST: \$2,400+

LOT 55

50C 1938-D TEXAS. PCGS MS67+ CAC

This SUPERB GEM is another old friend of ours, having once sold in our October 2017 Regency Auction, lot 529, where it was described as:

"Among the very finest examples of this date certified by PCGS, only two coins have received higher grades. The eye appeal of this SUPERB GEM is amazing. The obverse sees a dusting of iridescent pewter-silver and russet patina--which is the sort of look Texas halves usually have.

But when you flip this lustrous coin over, and the reverse is blanketed in a rich melange of rainbow hues that blend over the intricate and well struck details. Stunning carmine, olive, magenta, aubergine, and teal hues create a stunning palette of color! Only 3,775 were struck."

PCGS 154, NGC 128, CAC 66. There are 26 in MS67+ at PCGS and just four in MS68 finer. This coin brought \$3,878 in October 2017 and today it should sell for more! A fabulous toner that is worthy of the greatest toned commemorative collection ever.

PCGS# 9395 | EST: \$3,500+

LOT 56**50C 1925 VANCOUVER. PCGS MS67+ CAC**

This Vancouver half dollar is off the charts AMAZING! Certainly among the FINEST graded, and totally worthy of its impressive, lofty grade assigned and CAC accolades.

A beautifully toned and satiny lustrous SUPERB GEM Vancouver. Rich blue, rose, gold, teal, and coppery hues blend over near flawless surfaces imparting a bold and impressive eye appeal.

PCGS 104, NGC 66, CAC 49. There are 27 examples graded MS67+ and just four finer. We sold the most recent example in our October 2020 Regency Auction 41 for \$5,288. The current PCGS Price Guide value is listed at \$5,000. There are just four in MS68 finer, the last one sold back in the 2011 FUN auction for nearly \$15,000! With CAC approval a 68 would cost \$20,000! A very important opportunity of the Registry Set crowd not to be taken lightly.

PCGS# 9399 | EST: \$4,600+**LOT 57****50C 1927 VERMONT. PCGS MS67+ CAC**

One of the most beautifully toned and high end Vermonts we have ever had the pleasure of handling. Among the FINEST graded, sitting near the apex of the PCGS Population Report.

Both sides of this SUPERB GEM are awash in rich autumnal hued toning; shades of crimson, tangerine, and hints of green blend together majestically. The eye appeal and technical quality are SUPERB in every way!

PCGS 88, NGC 37, CAC 23. There are a dozen graded MS67+ and only three finer. We sold the most recent for \$14,688 in May 2021. We feel this monster belongs in the FINEST of sets, and it will face stiff bidding competition when it crosses the block. Good luck.

PCGS# 940 | EST: \$12,000+

LOT 58

50C 1946 BOOKER T. WASHINGTON. PCGS MS67 CAC

A beautifully toned SUPERB GEM example of this relatively common, but conditionally and visually challenging type. Seductive golden russet toning with soft verdant and violet accents around the rims. The toning spans stem to stern here, and is unbroken to the centers, and intensifying near the rims. Stunning quality and one of the finer examples graded by PCGS.

PCGS 111, NGC 85, CAC 108. This pretty coin will see strong bidding, and will surpass the published levels. The first example of the 3-piece P,D,S, set we are offering in this Unforgettable collection.

PCGS# 9404 | EST: \$500+

LOT 59

50C 1946-D BOOKER T. WASHINGTON. PCGS MS67+ CAC

A GLORIOUS SUPERB GEM Booker T. Washington half dollar! This beauty is exceptional with incredible toning and sensational eye appeal.

Sunset orange and clover-green mingles over the surfaces on both sides, showing accents of original untuned silver, providing an attractive dappled look. The surfaces are essentially without flaw, and anything that keeps this SUPERB 46-D BTW from grading MS68, is only visible with the aid of a powerful loupe. The eye appeal is amazing.

PCGS 74, NGC 69, CAC 61. There are 14 graded MS67+ (no doubt with some duplication), and seven in MS68 finer. The last one sold for \$4,560 in March 2021. We have no doubt that this impressive looking coin will delight even the pickiest of collectors and will end up in an AMAZING set of commemoratives. It should be noted none of the PCGS MS68s have ever sold in auction.

PCGS# 9405 | EST: \$3,600+

LOT 60

50C 1946-S BOOKER T. WASHINGTON. PCGS MS67+ CAC

One of the most beautiful 1946-S BTWs we have handled. While one of the most common commemoratives in an absolute sense, the Booker T. Washington halves are VERY RARE so fine! Technically and aesthetically, this SUPERB GEM is all there, and then some! WOW!

Velvety smooth surfaces show a bold, radiating satin sheen and brilliant luster. SUPERB surfaces are essentially PRISTINE and display a layer of totally original and gorgeous envelope toning that delights the eye. The reverse is truly KILLER! EXTREMELY RARE any finer, this is a very impressive SUPERB GEM for the collector.

PCGS 150, NGC 135, CAC 98. PCGS has graded 19 in MS67+ with only 8 finer, all in MS68. Do not let the APRs and published levels sway your bidding plans, this exceptional example will see strong bidding for sure! Good luck.

PCGS# 9406 | EST: \$1,200+

LOT 61

50C 1952 WASHINGTON-CARVER. PCGS MS67+

This coin is a MONSTER TONER! If the Northern Lights collector was putting together a set of classic commemoratives, this would be his Washington Carver!

Insanely toned, wildly colorful, sensational quality surfaces are just AMAZING! A superior luster blazes boldly on the surfaces, clearly amplifying the cranberry and teal-blue toning that dominate the obverse and the dappled iridescent toning on the reverse. The toning really makes the sharply struck details stand out boldly. Over the years, as toned dollars got much of the market's attention, colorful classic commems gained a huge following as well and this one will entice even the pickiest collector!

PCGS 12, NGC 5. We sold a similar toned example back in September 2016 for \$7,638. The current PCGS Price Guide value is listed at \$8,900 and we have no doubt today that the bidding will be as intense as the toning, leading to a very high bid!

PCGS# 9434 | EST: \$7,500+

LOT 62

50C 1936 WISCONSIN. PCGS MS68+ CAC

Tied for **FINEST GRADED!** Not only is this coin a **TOP POP**, but it also has a fantastic visual quality to match the technical quality. We cannot help but marvel at this amazing Wisconsin half dollar!

The surfaces are **PRISTINE!** Mother Nature with some aid of the cardboard holder this coin was stored in, created an awesome mix of totally original shades of golden tan and olive-gold, while accents of rose, apricot, emerald, and tangerine sparkle from all over. A thick lustrous frost belies the toning, giving the subtle shades to life. All of the details are sharply struck and stand out in fine form. The eye appeal is unforgettable!

PCGS 54, NGC 61, CAC 31. PCGS has graded 13 in MS68+ and NONE FINER. The current PCGS Price Guide value is listed at \$13,500. This lovely coin belongs in another top ranking Registry Set, and we expect that bidding will be as fierce as a badger when it crosses the block. Good luck.

LOT 63

50C 1936 YORK. PCGS MS68 CAC

Ex Bruce Scher, as noted on the insert.

This is one of the most visually alluring **SUPERB GEM** York half dollars we have ever seen (only the MS69 has more stunning color). This is a truly marvelous **SUPERB GEM**, only five coins have ever graded finer.

Wonderful pine green toning dominates the obverse with accents of orange and crimson at the rims, while the reverse has the same tones in a more pointillistic pattern. The pristine surfaces are aglow with a vibrant, vivid luster. The strike is **RAZOR** sharp and the technical quality is virtually unimprovable!

PCGS 44, NGC 44, CAC 17. The average APR for a PCGS MS68 CAC is \$3,774 and well above the published levels. There are four in MS68+ and a single MS69 finer. Only one MS68+ sold, realizing \$9,000 over three years ago and the MS69 brought six figures! This **GORGEIOUS SUPERB GEM** is worthy of a very strong bid from the collector building another top notch world class collection!

LOT 64**\$1 1900 LAFAYETTE. PCGS MS66+ CAC**

If you have been seeking a SUPERB example of this singular silver dollar commemorative type, if your hand is the last in the air on July 28, you can declare your search over. WOW!

For sure, this is one of the better Lafayettes we have seen in some time. Ultra satiny mint luster blooms all over the smooth surfaces. We cannot stress enough the cleanliness of this coin. In fact, only a single well hidden reeding mark on the

reverse is what keeps this coin from MS67. Clearly this wonderful coin sat in the original packaging, undisturbed for years, where it was able to acquire a layer of totally original rich (but NOT dark), blue-green and a halo of reddish gold coloration at the peripheries. Every detail is sharply impressed from a strong, forceful blow from the dies. The eye appeal is exceptional in every way and is one you won't forget! We certainly rank it as ultra HIGH END.

Ex JFS Collection; Cary and Cheryl Porter Collection, Heritage, May 2007, lot 2444; unknown intermediaries; our consignor.

PCGS 107, NGC 67, CAC 27. There 18 graded MS66+ and just a half dozen examples graded finer at PCGS. The last CAC-approved example sold back in December 2019. More recently is a very wide range of APRs from \$13,800 to \$30,000 for non-CAC PCGS MS66+ pieces. The current Collectors Universe value is listed at \$23,000 and we sold a very similar looking MS66 CAC for \$22,913 in October 2021. Anything finer will cost mid five figures, so if you are looking for a truly special Lafayette dollar, do not let this one get away.

LOT 65**MEDAL 1925 NORSE-AMERICAN. THIN, PCGS MS66 CAC**

A SENSATIONAL GEM, a marvelous example of this Congressionally authorized commemorative medal that is often included as part of the commemorative half dollar collection. Tied for FINEST graded at PCGS, this coin is an old friend, sold in our Regency Auction 26. We loved it then, and we love it now!

This awesome GEM is Premium Quality defined! Boasting a lovely old tone with shades of lilac-teal, amber-rose, and slate-blue that evenly coat both obverse and reverse. Well struck and beautifully preserved, this Norse medal is one of the FINEST graded, and there is no doubt as to why!

Struck in 1925 to commemorate the arrival of 53 Norwegian immigrants one hundred years earlier, the Philadelphia mint struck these as medals, since a commemorative coin act did not pass Congress. However, this medal, in its three standard varieties: Thick planchet silver (mintage 33,750); Thin planchet silver, as here (mintage 6,000); and gold (mintage 100). With the much lower mintage, the Thin Planchet variety is much more elusive in such lofty states of preservation. Popularly collected alongside the 144-set of commemorative half dollars, in fact we have seen contemporary coin albums (Library of Coins, Wayne Raymond, and the like) with an octagonal opening to include this medal with the half dollars.

PCGS 23, NGC 7, CAC 17. This beauty realized \$9,400 in May 2018. The current PCGS Price Guide value is listed at \$9,500. With none graded finer at PCGS, this coin belongs in another one of the FINEST sets of commemoratives.

LOT 66
50C 1936 GETTYSBURG. PCGS MS67 CAC

We love this SUPERB GEM. We are honored to offer it again. We sold it in our Regency Auction 50, where it was described as:

"A beautifully toned MS67 Gettysburg! This special example of this popular classic commemorative is housed in an old green tag holder and features a melange of toning from the original cardboard holder. Frosty mint luster glows all over, bringing out the varied deep orange and dark violet tones. The strike is sharp and the eye appeal is awesome."

PCGS 203, NGC 111, CAC 88. This SUPERB example sold for \$4,348 in spirited bidding in our January 2022 Regency Auction. The buyer has changed collecting directions and re-consigned this beauty to our sale. We have no doubt that it will excite and entice strong bidding from the commem collector.

LOT 67
50C 1920 MAINE. PCGS MS67+ CAC

A marvelous SUPERB GEM, tied for FINEST GRADED at PCGS.

Frosty, untuned satin surfaces have a thick lustrous finish on both sides. Sharply struck on both sides, and the surfaces are essentially flawless. Needless to say, this coin is extremely eye appealing. Maines are far tougher than the Pops show.

PCGS 80, NGC 44, CAC 33. There are 14 in MS67+ and NONE FINER. In our Regency Auction 50, this coin brought \$7,931 and the current PCGS Price Guide value is listed at \$8,500. Worthy of the greatest of commemorative sets, we have no doubt it will again bring a very strong bid. Good luck.

LOT 68
50C 1923-S MONROE. PCGS MS66+ CAC

A high grade example of this conditionally challenging early commemorative type. A thick satiny luster glows boldly on both sides, the underlying brilliance accents a hint of dappled original toning. A pleasing strike is stronger than typically seen and the surfaces are truly devoid of any serious contact.

PCGS 135, NGC 82, CAC 26. There are 21 in MS66+ and just 15 finer. The most recent sold for \$5,040 in May 2022, well above the PCGS Price Guide value. Anything finer will bring into the five figures. Don't let this opportunity pass you by!

PCGS# 9333 | EST: \$3,600+

LOT 69**FARTH 1723 HIBERNIA PATTERN, SILVER. PCGS SP64**

This is a VERY RARE silver striking of the Wood's Hibernia Farthing struck in silver. Martin 3.2-Bc.10, Breen-171/173, W-12500. These are considered to be Rarity-5, and are among the more interesting issues collected among the early "Colonial" series.

Deeply toned, flashy silver surfaces gleam with a vibrant brilliance. The dappled iridescent toning attests to the originality. The devices are crisp and stand out boldly. The eye appeal is quite nice.

Approximately two dozen were located in England in the 1950s. Prior to that, the silver Wood's Hibernia pattern farthings were quite rare. (Eric Newman noted his example was "probably unique." The hoard was handled by Baldwin's in London, and were descended generation to generation from the time of striking to the 1950s in the Woods family. Over the years, these were dispersed to colonial coin collectors here in the United States, and are infrequently offered in the market place today, especially in this quality.

PCGS 9, NGC 0. The most recent one to sell realized \$7,800 in August 2021. The current PCGS Price Guide value is listed at \$9,500 and there are seven graded higher at PCGS, none of which have sold since August 2015. A great high end, silver colonial coin in near GEM quality that is at an affordable price point. Bidding activity will be intense.

LOT 70**1/2C 1805 MEDIUM 5, NO STEMS. C-1. NGC MS64 BN**

The C-1, B-1 1805 half cent is identified by the recut 5 and the stemless wreath. While it is a Rarity-1 in all grades, it is quite scarce in Choice Mint State.

Sharply struck central devices, indeed, the only weakness we see is on the dentils from a slightly misaligned die. Satiny chocolate brown patina graces the fields, while some hints of original red clings to the recesses of the design elements. There are just a few ancient ticks seen with the aid of a glass and no serious discolorations, or other flaws that are often associated with early copper. The eye appeal on this highly collectible Mint State Draped Bust half cent is great.

PCGS 4, NGC 2. This coin most recently sold in our 2022 Central States Regency Auction for \$3,995. The buyer has switched directions and re-consigned it to our Regency Auction 53. A wonderful type coin that may not be offered again for quite some time.

LOT 71**1/2C 1806 C-1. SMALL 6, NO STEMS. PCGS MS64BN CAC**

A near-GEM Draped Bust half cent with a great look and fantastic pedigree.

High end and boldly lustrous with a lovely satin gleam. Rich, original golden brown surfaces show accents of olive and steely-brown patina which blend with very subtle hints of faded original mint color.

The devices are generally very well struck for an early copper.

Close inspection does reveal a few scattered teeny ticks. Overall the eye appeal is very strong.

The current PCGS Price Guide value is listed at \$6,500 and the CAC CPG value is listed at \$6,880. Just three are graded finer in the designation, this is a great example for type, variety, grade, and will make its place in a fantastic collection.

PCGS# 1093 | EST: \$5,500+**LOT 72****1/2C 1834 PCGS MS65 RB CAC**

This is a truly AMAZING GEM C-1. Only a single die pair was used to strike the entire mintage of 1834 half cents, and this one ranks among the best! An awesome pedigree adds to the allure!

Blazing mint luster radiates boldly on both sides, highlighting the sensational original RED color that dominates about 75% of the surfaces. The remaining portion is a light brown with hints of steely blue that comes around when viewed in a light. Well struck from Manley State 3.0, Breen State III, which shows double die clashing. The eye appeal is spectacular!

Ex Howard Newcomb, 1935; B. Max Mehl, 1935; Col. E.H.R. Green, June 8, 1936; Green Estate to St. Louis Stamp & Coin (B.G. Johnson & Eric Newman), in April 1943; Eric P. Newman; Eric P. PCGS 5, NGC 10, CAC 3. When this coin sold as part of the Simpson Collection, its prior pedigree was left off. In the Missouri Cabinet Collection auction, this coin realized \$26,450, and had it been noted in the 2022 description it would have likely brought more than it did. This is an outstanding opportunity to acquire one of the greatest 1834 half cents! Good luck!

PCGS# 1166 | EST: \$8,500+

LOT 73**1/2C 1835 PCGS MS65+ RB CAC**

From our Regency Auction 49, where it was described as:

"Only two pairs of dies were used to strike the entire mintage of 1835 half cents, the differences between the two are easily identified by the placement of the ST in STATES. The B-2, C-2 variety, seen here has the ST close. This is a high-end example, likely in the Condition Census. Only two examples have ever graded numerically higher, a 66 BN and a 66 RB.

The present PQ GEM has a bold look. Mellowed red on the obverse is faded to a soft, light brown, highlighted by a warm underlying brilliance. The reverse is mostly red and brilliantly lustrous. Well struck from die state VI, with a boldly pronounced bisecting die crack on the reverse and clashed dies. The eye appeal is quite nice!"

PCGS 33, NGC 23, CAC 21. There are five examples in this lofty grade at PCGS and just one finer. The only one to sell in auction was the McGuigan-Foxfire-Pogue coin that was NOT CAC and brought nearly \$6,500 over five years ago. The current Collectors Universe value is listed at \$8,250 and we think this coin, with its outstanding look and CAC approval will bring close to that when the hammer falls. Bound for a fantastic type or date set of Classic Head half cents!

LOT 74**1/2C 1842 RESTRIKE. PCGS PR65+ BN CAC**

B-2, First Restrike, considered to be Rarity-6.

This is truly a sensational GEM! Everything about this coin screams quality, rarity, and eye appeal, a killer combination that is so desirable for the sophisticated collector.

Blazing, icy smooth, boldly reflective fields look like freshly cut sheets of glass. The devices are razor sharp and have a frosty texture that provides a wonderful contrast, especially on the obverse (which has a cameo-like look). The surfaces are a deep mahogany red-brown with a fabulous teal-blue overtone and some golden-brown accents at the periphery. A strong glass fails to reveal anything more than a trivial lint mark or two; there are no flecks, flakes, spots, or any marks of any kind that distract from the sensational visual allure.

Only about 20-30 are known in all grades. PCGS 2, NGC 3, CAC 3. This is the sole PR65+ BN and there are just three graded finer in the designation at PCGS. There are no recent auction comps, but in PR65+ BN, the PCGS Price Guide value is listed at \$18,500. A world class Proof half cent, and worthy of a fabulous cabinet. Good luck.

PCGS# 1317 | EST: \$5,000+

LOT 76**1C 1793 CHAIN, AMERICA.****PCGS F15 CAC**

The first cent struck for circulation by the United States mint. A very important and highly collectible type coin!

The Chain cents were struck early in 1793, among the first coins coined in the first federal mint. A total of 36,103 were struck between February 27 and March 12, utilizing five distinct die pairings, all of which are scarce to rare, Sheldon called it not collectible. The present coin is a wonderful collector grade S-3. While as a Rarity-3, the S-3 is the most "common" of the Chain cent varieties.

While this example is lower grade, extensively circulated to the Fine range, the surfaces are remarkably smooth, and free of any kind of serious marks. The copper planchet was of good, hard metal before striking without fissures or imperfections that would attract environmental damage. The surfaces are devoid of all but the most insignificant contact marks from its time in early federal commerce. All the details are fully visible, though there are a few areas of weakness from the strike, which is normal. The central portions of the design: Henry Voigt's flowing haired portrait of Liberty and the chain links are all bold.

As a coin with so much history, collectors have been drawn to the issue since the earliest days of coin collecting in the United States. Today, most collectors can only dream of owning one of the low grade and/or damaged pieces, which even barely identifiable, coins still command low four figure prices. A pleasing and generally problem free, though heavily circulated coin like this will see very strong bidding from collectors with good taste.

PCGS 34, NGC 6, CAC 3. The most recent example to sell in auction realized \$22,200 in September 2020. Now, nearly two years later, the PCGS Price Guide value is listed at \$27,500 and the CAC CPG value is listed at \$26,400. CAC has approved just 3 in the entire VF range (all VF25, and none have sold in auction), so if you are looking for a great CAC approved example that won't cost \$50,000 or more, this is your coin! Good luck.

LOT 77**1C 1837 N-5, SMALL LETTERS. PCGS MS64 RB CAC**

Ex Doug Bird Collection, as noted on the insert.

This is a borderline GEM example, coming from the special collection of early copper specialist Doug Bird. Offering a bold and lustrous mint red, this coin has more original RED than the Naftzger coin! That speaks volumes! Hints of olive and steely brown patina account for the B in the RB classification. Generally well struck from the middle state of the dies, the only flaw is a tiny mark above the O in OF on the reverse rim. The eye appeal is truly exceptional.

PCGS 4, NGC 1, CAC 1. This coin sold for \$3,240 in February 2020 and the Naftzger coin sold for \$4,348 in June 2015. The CAC CPG value is \$4,060 and the PCGS Price Guide value is listed at \$4,500. RARE finer, we sold the finest MS65+ RB in May 2019 for \$8,519. This near-GEM is worthy of a very strong bid, and placement in a very high end cabinet of Large Cents.

PCGS# 1733 | EST: \$3,000+

LOT 78**1C 1839 SILLY HEAD. PCGS MS65 RB CAC**

A truly fabulous GEM example of this classic Red Book variety! Two die pairings correspond to the Silly Head variety, N-4 and N-9. The N-4, as offered here is a Rarity-1, but it is quite challenging to find in GEM grades, especially with CAC approval. The colorful names for the 1839 portrait styles date to June 1868--less than 30 years after they were produced, and they have stuck ever since.

The surfaces are gleaming with a rich, original red luster that peers through the dusting of soft brown and iridescent patina on both sides. Well struck from Noyes die state C/B which is defined by heavy flow lines on the obverse, leading to soft dentils on most or the rim; likewise the reverse has some peripheral weakness at the dentils. The only flaw of note is a tiny patch of shallow marks in the right obverse field, but these are quite minor and will forever serve to identify this GEM as the E.S.M. coin.

PCGS 7, NGC 2, CAC 6. The most recent Silly Head MS65 RB to sell was the N-9 in our May 2021 sale of the Sommelier Collection, which realized \$10,565. This coin sold before that in August 2020 for \$9,000 as part of the E.S.M. Collection. The current PCGS Price Guide value is listed at \$12,000 and the CAC CPG value is listed at \$11,200. VERY RARE any finer, with just three graded higher in the designation. Bound for another WORLD CLASS collection of early coppers. Good luck.

PCGS 64, NGC 19, CAC 31. A great type coin, the most recent sold for \$2,280 in the 2022 FUN auction. The current PCGS Price Guide value is \$2,000 and we think this one will fit nicely for the date or type in a wonderful collection.

This is a brilliant example, with fiery RED luster that swirls boldly all over. The only thing keeping it from a higher grade are some delicate toning flecks, but these attest to the originality and have minimal impact on the eye appeal.

PCGS 34, NGC 14, CAC 4. There are two in MS64+ RD at PCGS, and this one last sold in June 2014 for \$2,233. Today, the PCGS Price Guide value is listed at \$3,500. For the type or date collector, this coin represents a nice opportunity.

The Small Date 1857 large cent was struck in Proof format only. The mintage is listed in places at 238, and about 100 are known in all designations and grades according to PCGS CoinFacts.

The present example has a flashy, highly reflective near-GEM! Icy blue, soft olive, and steely-brown/tan patina are brought out boldly by the underlying mirrored brilliance. The fields are sleek, clean, and offer strong depth of reflection. The devices show razor sharp definition on both sides, adding to the exceptional visual allure.

Only 238 Proofs were struck. PCGS 15, NGC 7, CAC 2. The most recent PCGS PR64 BN to sell was NOT CAC and sold for \$5,520 in September 2021. This CAC-approved beauty should sell closer to the \$6,750 Collectors Universe value. RARE finer. Good luck.

LOT 90

1C 1943 STRUCK ON SILVER 10C BLANK. PCGS MS61

A very popular date and error type. During the wartime crush of coinage production, a few dime planchets found their way into the bins with the standard steel blanks for the 1943 cents. Their similar brilliant silver colors did not draw attention to them apparently and there are a small number of these known. This one appears to be one of the higher graded pieces. A soft pewter-silver gray patina graces both sides, and there is a warm glowing satiny brilliance. The devices are weakly struck, as the dime planchet did not have enough metal to go all the way into the depths of the dies. There is no wear anywhere to be found.

The comps are all over the place, we have found examples in XF Details to MS66, with prices ranging from \$1,440 to well into the five figures. We expect this coin will bring a strong price. A very rare and fascinating mint error, and one that will be the centerpiece in a really neat Lincoln cent collection! Good luck.

1C 1949 PCGS MS67 RD

Vibrant, brilliant, brick red color is accented by a bold luster. Sharply struck devices stand out against smooth, problem free surfaces. A SUPERB GEM that ranks among the highest graded at PCGS, there are only five finer.

PCGS 43, NGC 81. The most recent example sold in April 2022 for \$1,250 before that, one sold for \$1,320. The current PCGS Price Guide value is listed at \$1,500 and the only MS67+ RD sold in October 2021 for \$9,000. This is a great coin for any advanced Lincoln cent set.

LOT 93

1C 1970-S LG DATE DOUBLED DIE OBV. PCGS MS65 RB

Tied for FINEST in the RB designation at PCGS, this FS-101 (FS-029) is a MAJOR RARITY among varieties of the era. Indeed this Doubled Die Obverse is in fact RARER than the more famous 1969-S Doubled Die. The doubling is boldest at IN GOD WE TRUST, LIBERTY and the date.

Bold and satiny luster billows out from the GEM surfaces. A hint of iridescent toning over the vibrant red color. This is the PCGS CoinFacts Plate coin for the variety in RB.

PCGS 4, NGC 5. The Collectors Universe value is listed at \$12,000 and none have ever sold in auction. There are none FINER in RB, and there are only 20 in GEM in the RD category. This GEM is worthy of a very strong bid when it crosses the block and will find itself at home in a fabulous set!

1C 1910 MATTE. PCGS PR66+ RD
CAC

Hugely lustrous, satiny surfaces gleam with a sensational vibrance. Varied RED hues mix together over the borderline SUPERB surfaces and envelope the fields and reliefs. It has been a while since we sold one, and with a coin like this we can say it was certainly worth the wait!

LOT 95

1C 1916 MATTE. PCGS PR67 RB CAC

We have LOVED this SUPERB GEM from the moment we laid eyes on it! IT is an AMAZING Matte Proof cent! Tied for the second FINEST graded in the RB designation, this coin SCREAMS SUPERB GEM! WOW, its quality is off the charts and absolutely amazing. Photos do this monster no justice, and you really need to look at it in hand to really appreciate its awe inspiring eye appeal, color, and luster.

First off, this coin is essentially full RED! We have a feeling (no guarantees) one day we might see this in a RED holder. The surfaces are satiny and gleaming with a fiery brilliance. The smooth fields and sharply struck devices give this incredible quality SUPERB GEM an awe inspiring look.

Only 1050 Proofs were struck. PCGS 4, NGC 3, CAC 2. This coin sold in our October 2021 Regency Auction for \$23,500 and before that, one sold for \$24,000 in November 2020. The current Collectors Universe value is \$27,500. There is a single PR67+ RB graded higher, a coin that has not sold in auction and is valued at \$43,500. This is an amazing coin, one that will bring a very strong bid. NOTE: PCGS has never graded a full red finer than PR66. Good luck.

PCGS# 3325 | EST: \$22,000+

LOT 96**1C 1936 BRILLIANT. PCGS PR65 RD**

Intense, watery reflective RED mirrors beam and gleam boldly from all over. Sharply struck and sleek icy fields are nearly flawless and the devices are crisply rendered. The eye appeal is incredible, we don't know why CAC didn't bean this GEM.

PCGS 222, NGC 51. The current PCGS Price Guide value is listed at \$2,200 and the most recent sold in April 2022 for \$1,860. Quite challenging any finer, this attractive GEM will see very spirited bidding for sure. 25390485

PCGS# 3335 | EST: \$1,750+

**LOT 97****1C 1936 BRILLIANT. PCGS PR65 RD CAM CAC**

An AMAZING GEM Cameo Proof! This is a VERY RARE opportunity for the advanced collector, as precious few of the 5,569 1936 Brilliant Proofs that were struck have any kind of Cameo contrast.

Blazing red mirrors beam with a glorious reflection and contrast amazingly against the sharp frosted devices. The surfaces are virtually devoid of any flaw, all we see are some very minor flecks that are invisible to the unassisted eye.

PCGS 2, NGC 2, CAC 1. This is not the one that sold back in 2015 for \$7,990. Today the PCGS Price Guide value is \$9,000 and the CAC CPG value is \$9,380. Clearly anything finer is a major five figure condition rarity and this beautiful GEM belongs in the finest of collections.

PCGS# 83335 | EST: \$7,500+

**LOT 98****2C 1872 NGC MS61 RB**

The last date struck for circulation, and with the lowest mintage in the series, the 1872 is a KEY, especially in Mint State grades. Only 65,000 were struck. The present coin has no wear anywhere. Accents of original red peek through a layer of violet "woodgrain" toning. Some light contact is noted, but the eye appeal is generally quite pleasing for the grade.

PCGS 0, NGC 2. The last NGC MS61 RB sold over a decade ago, realizing \$2,875 in February 2011. The current Collectors Universe value is listed at \$3,650.

PCGS# 3613 | EST: \$2,500+

LOT 99**2C 1871 PCGS PR66 RB CAC**

Tied for FINEST graded at PCGS in the RB category, this is a totally original, beautifully toned, wonderfully preserved GEM! Blazing mirrors beam boldly and brilliantly all over the sleek, icy smooth fields. Razor sharp devices stand out with significant frost, especially on the obverse. Both sides have a wonderful, original overlay of iridescent violet patina that adds to the amazing eye appeal.

Only 960 Proofs were struck. PCGS 34, NGC 20, CAC 21.

The most recent example realized \$2,640 in April 2022; prior

to that, none had sold since our August 2020 Regency Auction. The current PCGS Price Guide value is listed at \$3,000.

NONE ARE FINER in RB at PCGS, and this beautiful GEM will see very strong bidding from collectors of this obsolete denomination. Good luck.

PCGS# 3646 | EST: \$2,200+

LOT 100**2C 1872 PCGS PR66+ RD CAC**

A virtually FLAWLESS, virtually SUPERB GEM that is a sure fire Set Registry contender. Among the FINEST in the RD category, PCGS has seen just a single PR67 RD graded finer.

Incredible bold and flashy mirrored surfaces have a beaming and brilliant finish that is amazing to behold. The surfaces have a full red coloration that is blazing and fiery with a gentle hint of deeper crimson that attests to the fabulous originality. The devices show hints of contrast as the coin is rotated in a light. The eye appeal is simply sensational in EVERY possible way!

Only 950 Proofs were struck. PCGS 18, NGC 8, CAC 5. This is the ONLY PR66+ RD graded at PCGS, and just a single PR67 RD is graded higher (that coin is NOT CAC). Realizing \$15,600 in June 2021, the current Collectors Universe value is \$18,750 and if you are working on the FINEST CAC-approved set, this is the SINGLE FINEST you can get! Do not let it pass you by!

LOT 101**3CS 1854 PCGS MS66+ CAC**

Mint State 3CS are one of our ALL-TIME favorite series. Legend, our sister company had assembled the FINEST MS+PR set of 3CS. With unrivaled experience we can say this coin is by far one of the better 1854's you will see!

Wonderful surfaces are extra clean and smooth. There is also some light die clashing (all Mint made) as well. The luster is a glowing cartwheel type. Moderate colors of totally original olive/pale navy/golden

brown/pale purple is scattered about both sides. No question this coin is 100% original. All of the details are sharply struck. The eye appeal is excellent!

PCGS 21, NGC 4, CAC 12 (obvious resubmissions). PCGS has only graded 6 in MS66+ with only 3 graded higher, 2 in 67 and 1 in 68. The current Collectors Universe value on this coin is \$9,000. A slightly lesser MS66+ CAC just sold for \$7,343. Look at the value you get here: obsolete denomination, a top GEM, a low pop, and the coin is 168 years old! Why should it not be \$15-\$20,000? If you think about it, you should never have seen many 1854's in MS66+ in your hunting. Opportunity knocks loud here for the picky high-grade seeking MS 3CS collector!

PCGS# 3670 | EST: \$7,500+

LOT 102**3CS 1858 PCGS MS67 CAC**

What an incredible SUPERB GEM 1858 trime! Tied for second finest graded at PCGS, everything about this coin screams quality, eye appeal, and originality.

The surfaces are pretty much perfect. Even using a strong glass will yield no problems. A moderate luster can be seen. Both sides are evenly covered by a deeper mix of evergreen/purple/golden brown/russet original colors. Every detail is fully struck. The eye appeal is very pleasing!

PCGS 12, NGC 19, CAC 5. The last PCGS CAC piece to sell in auction brought \$19,200 in March 2020. The current PCGS value is \$20,000. We cannot stress how very important an opportunity this is for the advanced collector of this series. Worthy of a premium bid!

PCGS# 3674 | EST: \$18,000+

LOT 103**3CS 1869/'8' PCGS PR66+ CAC**

A truly fabulous example of this so-called overdate three cent silver. This is thensole PR66+ and there is just a single PR67+ graded higher in the non-CAM designation. Walter Breen called this an overdate, and at one time it was listed in the Red Book; more recent scholarship and study by Kevin Flynn suggests this is a repunched date, not a true overdate and it has been delisted from the Red Book.

This is a very pleasing example, everything about this coin is impressive. The mirrors are deep and highly reflective with great clarity. There are no problems of any kind to be found, and that is to be expected for a borderline SUPERB GEM! The obverse is completely covered by a vibrant, original deep teal-blue and lilac-violet mix that is evenly distributed over amazingly brilliant mirrors. The astonishing color and deep mirrors delight the eye with its impressive visual allure!

Only 600 Proofs were struck. PCGS 5, NGC 0, CAC 4. This is the SOLE PR66+ graded by PCGS, and just the PR67+ ex Legend Collection coin is graded higher in the designation. The current PCGS Price Guide value is listed at \$11,000. A world class Proof trime worthy of a world class set! We expect very strong bidding for this beautiful GEM!

**LOT 104****3CN 1867 NGC PR66+ CAM**

What a beautiful CAMEO GEM Proof! An early date of this series boasting icy, blinding, chrome-like brilliance flashes and beams all over this PQ GEM! The mirrored fields have a bold depth of clarity and are quite intensely reflective, imparting a strong cameo contrast with the snowy white frosted devices. The eye appeal is sublime!

Only 625 Proofs were struck. PCGS 5, NGC 3. The last few NGC coins sold really cheaply and we think this borderline SUPERB GEM has a fantastic look that will vault the bidding way past our estimate range; for reference the Collectors Universe Price Guide value is listed at \$2,950. Bound for a great set of this odd, obsolete type. Good luck.

PCGS# 83763 | EST: \$1,250+

**LOT 105****3CN 1868 PCGS PR66+ DCAM CAC**

This is a truly SUPERB example! Tied for FINEST graded in the DCAM category, and it is totally worthy of its place at the Top of the Pop!

There is a SPECTACULAR deep black and white contrast between the devices and fields. The design elements are sharply struck with a bold, rich frost and the fields are icy smooth, with ultra deep, sleek, and clean reflective mirrors. Virtually flawless, the eye appeal is worthy of its high grade and CAC endorsement.

Only 600 Proofs were struck. PCGS 16, NGC 5, CAC 14. There are six in PR66+ DCAM and NONE FINER at PCGS. We last sold this coin back in May 2018, where it realized \$4,465. LOT 108

3CN 1876 PCGS PR67 CAM CAC

A truly spectacular SUPERB GEM Cameo Proof example of this centennial year three cent nickel. Tied for FINEST graded, it is not hard to see why, the quality and eye appeal jump out of the slab as soon as you pick this coin up.

Carefully struck from an early state of the dies with thick frost across the sharply struck devices. The fields are icy and sleek, with essentially flawlessly smooth mirrors that stand out in stark contrast to the devices. The eye appeal is dramatic and amazing!

PCGS 5, NGC 7, CAC 2. The other PCGS/CAC PR67 CAM sold in our May 2020 Regency Auction for \$5,053. Since that time, the overall market is stronger and the PCGS Price Guide value suggests a value of \$6,500 and the CAC CPG value is listed at \$7,190. NONE are finer at either service, making this an ideal coin for ANY high end Registry Set.

3CN 1877 NGC PR67* CAM

This is truly a SENSATIONAL SUPERB CAMEO Proof example of this popular and important low mintage Proof-Only date. Only 510 were struck and this one ranks near the top of the Population for the designation, with just six graded higher at NGC.

The fields are blazing and brilliant with a bold reflection giving them an icy smooth mirrored finish that contrasts deeply against the thickly frosted devices. The surfaces are essentially PRISTINE and the eye appeal is spectacular, worthy of its "*" designation assigned by NGC.

Only 510 Proofs were struck. PCGS 15, NGC 25. It has been over two and a half years since the last NGC-graded example sold, realizing \$3,720 in October 2019, the market is stronger today than back in 2019. The current Collectors Universe value is listed at \$6,000 and the presently offered SUPERB GEM will see very strong bidding. Good luck.

A magnificent SUPERB GEM! This coin actually has claims to MS68 (no promises). It is that high end and pristine!

There is no question about this coin's HIGH END SUPERB GEM status. Impeccable surfaces are satiny smooth. You can use a strong glass and look all day and find zero imperfections. A moderate luster can be seen all over. Both sides have a light to medium mix of soft original colors that are PRETTY! Miss Liberty and the details are frosty and are fully struck. The eye appeal is AMAZING!

PCGS 15, NGC 15, CAC 7. There are just four in MS67+ and a single MS68 graded finer. None of the MS67+s to have sold had CAC approval. The current PCGS Price Guide value is \$18,000 and we would not be shocked if this beautiful SUPERB GEM brought more. Bound for a WORLD CLASS type or date set of half dimes.

What a gorgeous, nay, DROP DEAD GORGEOUS Seated Liberty half dime! WOW! This coin is FLAWLESS, extremely high end, and of course, TOP OF THE POP! What else could you want from this short lived subtype with Arrows by the date?

We marvel at the fact this coin remains in absolutely PRISTINE condition! The surfaces are flawless to the naked eye and even under careful scrutiny with a powerful loupe you will be unable to find any kind of flaw anywhere. Satiny luster blooms all over the fields and the sharply impressed devices. Both sides have a glorious, delicate iridescent patina. Soft pastel peach-rose, lilac, and sky blue colors are all the more brilliant as the light hits the surfaces. The eye appeal is exceptional in every way. Did we say "WOW!" yet?

PCGS 17, NGC 23, CAC 6. There are five in MS67+ at PCGS and NONE FINER at either service. We have had the honor of selling three distinct examples of this date and grade, ranging from \$18,800 to \$27,025. The current PCGS Price Guide value is listed at \$22,500, but this AMAZING, SUPERB GEM will likely realize in excess. Good luck.

LOT 157

10C 1796 PCGS MS63+ CAC

This is a VERY HIGH END, VERY CHOICE, 1796 dime. A glorious representative of this first year of issue that is rarely seen so fine or so beautiful!

The dime was authorized in the April 12, 1792 Mint Act, and while silver coinage began in 1794, it focused on half dollars and dollars. In the early days of the mint, depositors would deliver silver to the mint for assaying and refining, then the silver would be used to produce coins. Little demand was seen for dimes and quarters, both denominations did not begin to see any demand until 1796 (Spanish colonial one and two reales pieces served in commerce for the smaller silver denominations). The 1796 dime is a two-year only type, and as the first year of issue, the 1796 is an American numismatic "blue chip" a coin that is in demand from collectors in all grades.

This is a totally original and fully CHOICE JR-1. Easily identified by the die break at Star 1, this is a late die state with bold clashes on the obverse and cracks on the reverse. Superior surfaces offer NO imperfections. If you use a strong glass all you will find are Mint made items like die cracks and some light clashing. We do NOT believe this coin has ever been messed with (we can't even find any old light cleaning lines). A moderate luster beams from all over. Both sides have a totally original even warm gold/champagne color with blue/deep violet rims (mostly on the reverse). Ms. Liberty and the details are amazingly struck. The reverse even has 98% full breast feathers. The eye appeal is tremendous!

PCGS 15, NGC 21, CAC 4. This is the ONLY MS63+ graded at PCGS. This coin is a dear friend, most recently selling in our October 2020 Regency Auction bringing \$49,938. The current PCGS Price Guide value is listed at \$58,000. It should be noted that the CAC CPG value in MS64 is \$85,800. This coin will be the pride of any collection. LOT 158**10C 1837 NO STARS, LARGE DATE.****PCGS MS65 CAC**

The year 1837 was a transitional year at the mint, switching from the Capped Bust to Seated Liberty design. The first Seated dimes had no stars on the obverse making Liberty the focus of the design type, giving it a cameo like appearance.

This is a very high end GEM quality example. Displaying a classic palette of deeper antique silver, dove/pewter-gray, sky blue, and delicate rose accents, this is a very

eye appealing specimen. A sharp strike compliments the satiny smooth, frosty lustrous surfaces. Typical for the date, the obverse has a pair of die cracks that extend from the rim at 7:30 and 4:30 and converge in the drapery, just below Liberty's knee. This is one very appealing example.

PCGS 30, NGC 26, CAC 17. The most recent example was not as pleasing as this one, realizing \$9,900 in April 2021. The current PCGS Price Guide value is listed at \$10,000 and we think this coin will bring that or more. Only a dozen are graded finer. Whether for type or date purposes, this GEM will fit nicely in any set.

Despite a large mintage of over 4.6 million, the 75-CC dime is RARE in GEM or finer grades. A thick, pearly mint frost belies the soft silver-gold iridescent toning. The devices are generally sharp and bold struck from a rusted state of the dies. There are a few minor marks visible with the aid of a strong glass, but they do not distract. The eye appeal is pleasing on this popular CC mint dime!

PCGS 22, NGC 8, CAC 10. The most recent example sold in August 2021 for \$4,800. RARE finer, PCGS has graded just 15 higher. Bound for a nice set of Seated dimes and worthy of a strong bid.

LOT 161**10C 1837 NO STARS. PCGS PR63 CAC**

A fantastic early Proof rarity. While the original mintage was not recorded, Water Breen (1988) wrote, "In triumph, Mint Director Robert Maskell Patterson on June 30, 1837, ordered the newly completed Gobrecht dies to be placed into the dime press, and some 30 brilliant Proofs struck for presentation to Treasury officials and other VIPs. About 20 of these Proofs survive today..." The experts at PCGS CoinFacts estimates 25-30 are known today in all grades.

The presently offered CHOICE BRILLIANT PROOF example is a fantastic representative of this first year of the design. Housed in an ancient PCGS "rattler" holder and endorsed by CAC, this coin boasts a totally original melange of olive and pewter, with accents of russet, rose, and tan patina. As you rotate the surfaces in a light, a dusting of champagne toning pops and adds to the wonderful blend of colors. The No Stars design is quite pleasing, the wide open obverse fields give the central devices a bold cameo like appearance, and the details are razor sharp in definition. This outstanding example has distinct claims to an even higher grade, and while we make no guarantees, we would not be surprised if one day this coin would end up in a higher grade holder.

10C 1897 PCGS MS65 CAC

A GEM and totally original Barber dime. A strong satiny luster glows under a layer of iridescent azure hues. As you rotate this coin in a light, the varied colors pop. The devices are sharply struck and the eye appeal is excellent.

PCGS 46, NGC 52, CAC 10. There has not been one sold in nearly four years, but a non-CAC example sold in December 2020 for \$504. Ignore the published levels, this highly attractive GEM will bring a strong bid.

10C 1897 PCGS MS67 CAC

Clearly, this is one of the finest MS 1897 10C graded! It's hard to imagine there could ever be a nicer one (there are 3 coins finer).

Sensational moderate and totally original rainbow colors of royal blue/rose/green/gold swirl vividly all over both sides. The surfaces are easily visible thanks to a full booming luster. There are NO impairments anywhere. Miss Liberty and the details are fully struck. The eye appeal is great you could just stare at this GEM all day!

PCGS 4, NGC 5, CAC 5.. These just seem like an UNDER valued item in today's market. Why aren't they worth more? Mother Nature did one heck of a beautiful job here!

LOT 164

10C 1901 PCGS MS65 CAC

A glorious GEM example of the type. Nicely struck devices and satiny surfaces are imbued with a totally original mix of pale blue/gray patina. The eye appeal is excellent!

PCGS 38, NGC 29, CAC 8. The current PCGS Price Guide value is listed at \$650 and we think this one will surpass that when it crosses the block. Rare finer.

10C 1940-S PCGS MS68

What a beautiful little jewel. A sensationally brilliant mint luster booms boldly on both sides, accenting the gorgeous rainbow toning that graces the peripheries and sparkles in the mostly untuned centers. The obverse is crisply defined, while there is just some softness on the central band on the reverse. No marks of any kind can be found on either side, making this beauty a stand out.

PCGS 9, NGC 12. The last non-CAC example sold eight years ago; more recently we sold a CAC-approved example in March 2019 for \$5,523, The current PCGS Price Guide value is \$2,000 and it would not be a shock if this beauty brought that. Good luck.

10C 1939 PCGS PR66 CAM CAC

This is a super high end and AMAZING GEM Proof 1939 dime! It is one of the most visually striking examples you will see. Ultra deep mirrors are crystal clear, super clean, and have bold reflectivity. The contrast is bold and can be seen from yards away. Ms. Liberty and the details are thickly frosted with a bold silvery white and needle sharp in strike. The eye appeal is tremendous!

PCGS 7, NGC 14, CAC 7. The last one sold in our May 2021 Regency Auction, where it sold for \$3,643. Today, the PCGS Price Guide value is listed at \$5,500. VERY RARE in CAMEO, this beauty will fit nicely in a sensational collection of Proof Mercury dimes. Bidding will be as intense as the reflection!

20C 1875 PCGS MS66 CAC
 This is a truly MAGNIFICENT and HIGH END GEM example of this obsolete and short lived denomination. The first year of issue saw just 36,910 struck in Philadelphia for circulation. This Premium Quality example is one of the dozen FINEST graded at PCGS, and it really is a GORGEOUS GEM!

Exceptionally brilliant and virtually full Prooflike luster flashes boldly in the fields. The surfaces show off a beautiful melange of color with an aqua-teal hue that dominates with hints of gold and emerald around the eagle's head. Every detail is expertly impressed by an exacting, precision blow from the dies. Virtually flawless, this GEM has an amazing visual allure!

PCGS 8, NGC 7, CAC 3. Prior to this coin realizing \$20,563 in our October 2021 Regency Auction, no PCGS MS66 had sold since July 2006! WOW that is RARE! Only three are finer at PCGS, the last PCGS MS67 CAC selling for \$43,200 in August 2020. This is an incredible opportunity for the advanced type or date collector. Do not let this coin slip away!

20C 1875-CC PCGS MS65+ CAC

This is a great example of a historical and great CC date! Remember only two years of this short lived series were struck for circulation, and the 1876-CC 20C piece is a classic rarity that when it appears on the market sells for six figure prices. This coin is so high end we do agree it is well worthy of its + designation.

Clearly above average surfaces have thick satiny texture. Even when using a strong glass there are NO imperfections to be found. A moderate, satiny mint luster glows in the fields on both sides. The surfaces enjoy a totally original pale blue/green/reddish gold by the rims. This coin actually has some life! Unquestionably this coin has never been messed with. Miss Liberty and the details are frosty and fully struck. The eye appeal is really nice!

PCGS 36, NGC 31, CAC 16. There are only three graded MS65+ at PCGS and 10 finer. Way more appealing than the other two, one of which we sold in May 2020 for \$21,738. The current Collectors Universe value is \$27,500. Keep in mind that a PCGS 66 CAC sold for \$84,000 in November 2021. This coin offers a great opportunity for the collector Good luck!

This is an unquestionable SUPER HIGH-END coin. The + really DOES mean something here!

100% flawless surfaces are remarkable in nature. They have a smooth texture and a warm glowing luster that beams from all over. Both sides have an enchanting creamy original white color that covers both sides. Miss Liberty and the details are fully struck (no weakness in the breast feathers). The eye appeal is glorious!

PCGS 58, NGC 52, CAC 22. PCGS may have graded 13 in MS66+ (a number we dispute). There are no correct published prices. We have not seen any offered in at least 2 years-maybe longer. Coins like this are making huge comebacks. They got spanked too hard for no reason. Keep in mind, the lone PCGS CAC MS67 would easily run you \$35,000++ if you could even find it!

LOT 171**20C 1876 PCGS PR58 CAC**

One of the shortest lived denominations in all of American numismatics, the 20-cent piece was unpopular from day one, and was struck for circulation only in 1875 and 1876; the 1877 and 1878 were struck in Proof only. The present example has only the faintest hint of friction in the form of light lines in the fields. This coin has a distinct CAMEO look with a bold frost on the devices and reflective finish in fields. The eye appeal is nice.

PCGS 11, NGC 2, CAC 2. This was the only one to sell, realizing \$2,026 in February 2022. Great for an everyman set or collection of obsolete Proof type.

NOTES

THE MHS COLLECTION

We are exceptionally pleased to include in our July 28th sale the MHS Collection of Small Size Bust Quarters, assembled over the last fourteen years. The Consignor is a decades-long client and the majority of collection was placed by our sister company, Legend Numismatics. Each of these coins was clearly selected for its outstanding quality and visual allure. The Collection was the 2016 & 2017 Registry Set award recipient and is currently ranged #3 All-Time Finest (All Eras).

LOT 173

25C 1831 SMALL LETTERS PCGS MS66 CAC

What a GORGEOUS GEM! WOW! This coin is tops in all regards! A truly magnificent way to start off this impressive collection of Capped Bust quarters! Among the **FINEST KNOWN** examples of the B-4 die marriage and boasting a **SUPERB** visual allure, this coin is **PERFECTION** for any type or date collector!

Bold and brilliant, the surfaces gleam with a sensational cartwheel swirl that comes to life when rotated in a light. A gentle kiss of the faintest clear gold really pops, and is complimented by a blush of powder blue, delicate olive, and some accents of deeper russet gold. A couple of stray contact marks seen in the obverse field are all that keeps this sharply struck and wonderfully preserved coin from an even loftier grade designation! The eye appeal is excellent and those tiny marks can truly be overlooked in light of the awesome look!

PCGS 8, NGC 4, CAC 7. The most recent PCGS/CAC MS66 sold in our December 2019 Regency Auction, which realized \$41,125. The current PCGS Price Guide value is \$40,000 but we think this gorgeous coin could bring more. Just two MS66+ examples have ever graded higher at PCGS for the Small Letters Red Book variety and it is tied for **FINEST KNOWN** in both the Tompkins and Rea-Koenings-Haroutunian Census listings. A fabulous coin for any type, date, variety collector, or someone putting together a "box of twenty." Bidding will be intense!

PCGS# 5348 | EST: \$40,000+

LOT 174

25C 1831 LARGE LETTERS. PCGS MS64 CAC

A Condition Census level B-6, a Rarity-3 die marriage. This is a truly lovely example for the type, the date, or Red Book Large Letter variety, or of the B-6 die marriage!

Brilliant, somewhat reflective fields are flashy with a semi-Prooflike luster. The underlying glow enlivens greatly the dappled gold, rose, azure, lilac, and russet patina on the obverse and the reverse shows a somewhat richer orange-rose hue near the periphery with cobalt near the centers. The strike is crisp overall, only a hint of weakness is seen at some of the star centers. A strong glass will locate some minor chatter well hidden under the toning, and does not detract from the outstanding visual allure of this near-GEM Capped Bust quarter.

PCGS 14, NGC 61 (all varieties), CAC 6. The most recent PCGS MS64 CAC to sell in auction was a similarly scarce B-5, which sold in our December 2020 Regency Auction for \$8,813. The current PCGS Price Guide value is listed at \$10,250. VERY RARE any finer, PCGS has graded just seven higher: 1 in MS64+, 5 in MS65, and 1 in MS65+ as finest. What a great coin for any carefully curated collection. Good luck.

A lovely and boldly lustrous untoned B-2. Just below the Tompkins Census and within the Rea, et al Census. Full, swirling cartwheel luster radiates across the CHOICE surfaces. Well struck throughout, the surfaces show just the most subtle traces of contact, visible with a strong glass. The eye appeal is bold.

PCGS 1, NGC 0. Fewer than 20 have graded finer. The current PCGS Price Guide value is listed at \$5,000 and with no PCGS-graded MS64 or finer coin selling in over three years, this coin could certainly bring more than the published levels. Good luck.

LOT 176

25C 1833 PCGS MS64+ CAC

A Condition Census B-1, and a visually intriguing example at that! Truly a memorable near-GEM Capped Bust quarter.

This die pair went through a lot in its time of service, and this wonderful example was struck from die state 3, which shows heavy patches of die rust and die clash marks, before the dies were lapped (resurfaced) to remove these flaws. The lustrous surfaces display a blush of rose-gray and russet-gold with accents of lilac, olive, and tan-gold. The devices are crisply rendered by a forceful blow from the dies. The eye appeal is exceptional and the die flaws give this near-GEM a great look.

PCGS 6, NGC 14, CAC 4. This is the SOLE MS64+ graded by either service. There are just four coins graded higher. We matched this coin to the PCGS MS64 CAC ex Gardner, that brought \$15,275 in May 2015. Now, seven years later, and in a 64+ holder, it should sell for much more. Good luck.

PCGS# 5352 | EST: \$13,000+

LOT 177

25C 1834 PCGS MS65 CAC

A fabulous GEM B-1, one of the **FINEST KNOWN** for the die marriage, tied for second finest in both the Tompkins Census and the Rea, et al Census. This is also the Tompkins Plate Coin for the B-1 die marriage.

This resplendent GEM is a classic with great provenance dating back to the mid-1960s. A full, satiny brilliance and vibrant mint frost is brought to life when the lustrous surfaces are rotated in a light. Sharply struck with crisply defined devices on both obverse and reverse. An arching die crack from the rim just below Star 1 crosses over the bust through her hair, and to the rim at Star 13. The reverse is rotated 45 degrees clockwise. Both sides show soft, iridescent toning that is particularly lovely on the reverse. The eye appeal is excellent, matching its awesome pedigree!

Ex Lester Merkin, October 1966, lot 263; the New York Connoisseur's Collection, American Numismatic Rarities, March 2006, lot 631; Stack's, March 2009, lot 3768; intermediaries; our consignor.

PCGS 9, NGC 8, CAC 7. The current PCGS Price Guide value is listed at \$24,000. PCGS has graded just four coins finer. The last one we sold brought \$24,675 in January 2018. This is a great looking coin that will see very strong bidding when it crosses the block. A wonderful addition to any early quarter set or type collection.

LOT 178

25C 1835 PCGS MS64 CAC

This is a totally original, very pleasing, Condition Census level B-7, ranking within the Tompkins and Rea et al listings.

A sensational near-GEM specimen of this conditionally challenging type. A brilliant, semi-reflective luster glows boldly from below a rich palette of iridescent toning. In general, the devices, overall are crisply rendered and the surfaces are nicely preserved and free of distracting marks or contact. The eye appeal is very high end, indeed in the old days, this coin would likely have been called a GEM.

PCGS 15, NGC 17, CAC 4. The most recent PCGS/CAC example sold for \$8,519 in our January 2019 Regency Auction. Clearly the current published levels are influenced by non-CAC auction results. There are 9 coins graded finer, and none have appeared in auction for at least six years! Good luck.

PCGS# 5354 | EST: \$7,500+

LOT 179

25C 1836 PCGS MS64+ CAC

This is the third highest graded 1836 quarter of any die marriage at PCGS, just two are finer a single MS65 and a single MS67. This is easily in the Condition Census for the B-3 marriage, and though Rarity-1 overall it is EXTREMELY RARE so fine!

Both sides of this near-GEM were struck from shattered dies. Extensive cracks cross the obverse in dramatic fashion, it is a wonder the obverse die was still in use when this coin was produced. The details are well formed, but show some bluntness due to the advanced cracks. A satiny luster glows under a rich melange of golden and russet-gray patina that when rotated in a light reveals some iridescent hues. The eye appeal is excellent.

PCGS 6, NGC 15, CAC 4. This is the ONLY MS64+ graded by PCGS and just two are finer. Back in November 2012, this coin brought \$11,750. The current PCGS Price Guide value is \$14,500. The extensive Pogue Collection only contained an MS64 (that brought \$17,625 in May 2015, the only MS65, the Eliasberg-Gardner coin, sold in the same month for \$42,300. Worthy of a world class early quarter set, bidding will be very strong!

PCGS# 5355 | EST: \$15,000+

LOT 180

25C 1837 PCGS MS64 CAC

A very CHOICE and frosty B-2, clearly within the two main Bust quarter Condition Census listings.

A generally well executed blow from the dies imparted most details crisply on to the planchet, only some slight softness is seen, mostly on Liberty's cap and the corresponding portion of the eagle's talon. Mostly a warm silver with antique gray and the clearest gold iridescent toning is brought out nicely by the thick mint frost. The eye appeal is quite pleasing for sure!

PCGS 27, NGC 27, CAC 5. We sold the most recent example for \$6,169 in our February 2021 Regency Auction. In today's stronger market, the CAC CPG value is listed at \$7,310 and the PCGS Price Guide value is listed at \$9,000. While PCGS reports 25 graded higher, these are NOT common; the last one sold nearly three years ago for over \$20,000. This very pleasing MS64 will fit nicely in any carefully selected collection and will see stiff bidding competition. Good luck.

PCGS# 5356 | EST: \$6,250+

LOT 181

25C 1838 CAPPED BUST. PCGS MS64+ CAC

All 366,000 Capped Bust quarters were struck from a single pair of dies in 1838, the final year of this type, before switching to Gobrecht's Seated Liberty design. The present coin is among the 10 FINEST graded by PCGS, and is a Condition Census B-1.

Brilliantly lustrous silver centers are framed by a halo of mostly blue with accents of gold and crimson, likely imparted from long term storage in an old album. Sharply struck near the centers with some minor peripheral weakness. The eye appeal is exceptional.

PCGS 19, NGC 21, CAC 11. There are two graded MS64+ at PCGS, neither of which have sold in auction. We sold a PCGS MS64 CAC in December 2021 for \$8,225, and the Newman coin (which serves as the Rea, et al Plate Coin) had a similar look and is one of the NGC MS64+s, which last sold for \$14,688 in our June 2015 Regency Auction. We think the PCGS Price Guide value of \$10,000 is too low. NO PCGS-graded GEM has sold since 2015. Bound for a fantastic set! Good luck.

PCGS# 5357 | EST: \$10,000+

LOT 182

25C 1806 PCGS MS64+ CAC

A simply magnificent and totally original near-GEM Draped Bust quarter! Among the VERY FINEST 1806 B-2s known. This gorgeously toned example ranks high in the Rea, et al census, which is 65,65,64,63,63. We cannot trace it to any of the previously published auction recorded coins, and may be a new addition to the census.

Satin mint bloom glows in the fields surrounding the devices. Areas of striking weakness, as typical for the date, are noted, but in general the strike is bold. The eye appeal is enhanced by a rich, original peripheral, album tone that frames both sides. Coppery-golden amber blends with gunmetal, slate blue/gray and olive russet tone around the brilliant silvery centers. Struck from a late state of the dies with the reverse shattered by two cracks that bisect that side. Planchet adjustment and roller marks can be seen in the central portions of the design elements. Truly a beautiful near-GEM Draped Bust quarter, a totally AMAZING coin for the type.

PCGS 12, NGC 12, CAC 6. There are two graded MS64+ at PCGS. This coin sold for \$41,125 in our October 2020 Regency Auction. The current PCGS Price Guide value is listed at \$55,000. The other MS64+ sold for \$58,750 in June 2017. As said, this coin does not match any of the Condition Census coins published by Rea, Koenings, and Haroutunian or Tompkins. Our consignor bought this coin privately back in March 2013 from Legend Numismatics, and its previous pedigree is unknown. Keep in mind that the Stickney-Swan-Jung-Pogue MS64 sold for \$54,344. We think this coin will sell around that amount. The only MS65 to sell realized \$102,000 in the 2018 FUN auction, so this near-GEM presents a great value for the collector who wants a Condition Census level coin without spending high five or low six figures. Bound for a WORLD CLASS collection of high end GEM type.

LOT 183

25C 1837 PCGS MS65+ CAC

More than likely the **FINEST KNOWN** example of the B-4 die pairing, this GEM "+" graded reduced size Capped Bust quarter is a real prize for the type, date, or variety collector.

A bold luster glows with a strong brilliance over satiny, frosted surfaces on both sides. The fields and devices are gently kissed by a totally original dusting of original toning. Sharply struck devices show boldly defined details on both sides and the surfaces are free of distracting marks; even using a strong glass the ticks are minor and don't impact the quality or the outstanding eye appeal in any way.

The two oft cited Condition Census listing for this Rarity-3 die pair list coins graded MS64 at the top of the pop, clearly this MS65+ must be the **FINEST KNOWN**.

PCGS 15, NGC 13, CAC 5. There are just two graded MS65+ at PCGS, and this one sold for \$30,550 in April 2017--that seems like yesterday, but was actuality half a decade ago! The current Collectors Universe value is listed at \$32,500. While PCGS has eight coins listed higher on their Population Report, we wonder if there is some duplication in submissions. The last MS66 sold for \$76,375 in June 2014 and the two MS67 both sold in the first Pogue sale (May 2015) for six figure levels. This impressive Capped Bust quarter belongs in a **WORLD CLASS** type or date set of quarters. Bound for strong bidding.

A SUPERB GEM B-2, one of the FINEST KNOWN for the date and die pair! WOW!

Totally original and vividly brilliant with semi-Prooflike reflection underlying the deep azure, cobalt, clover, and emerald toning. Hints of rose and gold mingles with the dominating patina on the reverse, adding to the colorful allure. A sharp strike overall with crisp, fully defined devices stand out. An amazing Capped Bust quarter!

PCGS 6, NGC 5, CAC 2. There are two in MS66+ and just two in MS67 finer. This is NOT the former NGC MS66+ ex Newman coin, nor is it the Gardner PCGS MS66 CAC. that sold for \$76,375 back in June 2014. The current PCGS Price Guide value is \$57,500 and we think this marvelous SUPERB GEM will fit the bill in any SUPERB type set, or advanced cabinet of Capped Bust quarters. It should be noted that both MS67s are ex Pogue and sold well into the six figures when they sold seven years ago! We know bidding will be intense for this very high end and second highest graded example.

A very high grade and impressive SUPERB GEM example of this low mintage late date Seated Liberty quarter. Only 12,000 were struck, and this one ranks among the 9 finest graded by PCGS.

We are not entirely sure how this coin was stored prior to being graded, but the toning pattern is intriguing, colorful, unique, totally original, and visually very pleasing. Words do not do justice, you need to view this coin to truly appreciate its beauty. Blues, golds, greens, and pinks meld together over intensely brilliant surfaces. The devices are sharply struck, and aside from a stray tick or two, this coin appears FLAWLESS! The eye appeal is amazing!

PCGS 30, NGC 27, CAC 16. There are 6 in MS67+, but do not let that fool you these rarely appear in auction! The last PCGS MS67+ to sell in auction was over five years ago! The current PCGS Price Guide value is \$10,000 and it jumps to \$25,000 in MS68. Bound for a fantastic Liberty Seated quarter set or type set; either way, bidding will be intense!

This MAGNIFICENT GEM is the SINGLE FINEST CAMEO PROOF example of this low mintage, RARE early Proof Seated Liberty quarter date. The exact mintage was unrecorded, but odds are it was lower than 100, and this one is likely the FINEST KNOWN! It is an honor to sell this gorgeous GEM!

Blazing mirrors beam boldly all over, with a blinding brilliance. Thickly frosted devices stand out in bold contrast to the surrounding mirrors.

Rich iridescent violet-blue and golden-peach rose toning grace both sides and give this totally ORIGINAL and gorgeous coin a fantastic visual allure. We have looked this coin over and over and cannot figure out why CAC did not bean it. This is one of those coins that you just have to take our word for it, it is GORGEOUS and high end!

Less than 100 were struck (perhaps as few as 40). PCGS 0, NGC 1. This coin sold for \$12,338 in our Regency Auction 50. The current Collectors Universe value is listed at \$25,000 and we would expect that this coin will bring a strong price in this VERY RARE second chance opportunity. Good luck!

Hard to believe this coin is actually tied for FINEST known. It is a 100% grade A MONSTER!

Absolute perfect surfaces adorn both sides. We grade the reverse a full MS69! We examined this coin with a strong glass and found ZERO impairments of any kind, anywhere on the surfaces. There is one microscopic tick well-hidden on the cheek. The surfaces are also satiny and smooth. A strong luster enhances the pretty and totally original colors of golden brown/russet/olive/pale blue that swirl all. Miss Liberty and the details are sharply struck and do stand out. The eye appeal is great!

PCGS 5, NGC 1, CAC 4. PCGS has graded 2 in MS67+. There are no auctions for any selling. Somehow, there is a Collectors Universe value of \$22,500. Whether you're an P Mint Collector, MS Barber Quarter Collector, or a collector who "puts away" great coins, this certainly is one to consider! We expect strong bidding here-good luck!

This is a lovely well preserved piece. No question the quality is HIGH END!

Satiny like surfaces reveal no marks anywhere. Even if you use a strong glass you will be more than happy with this GEM. A moderate luster enlivens the moderate colors. Both sides are bathed in original pale green/golden brown/champagne colors. Miss Liberty and the details are all fully struck. The eye appeal is great!

PCGS 14, NGC 4, CAC 5. PCGS has graded 4 in MS66+. The current Collector Universe value is \$3,750. These have been so unfairly spanked in this market. We think MS Seated and Barber coins have strong potential.

This is a very high end and totally original SUPERB GEM with impressively smooth, watery reflective mirrors. The fields have a wonderful flash and bold clarity. Fantastic color adds to the extremely high end eye appeal of this classic looking beauty. Even a strong glass fails to reveal any flaws worthy of mention.

Only 727 Proofs were struck. PCGS 9, NGC 20, CAC 10. This coin sold for \$3,995 in our January 2022 Regency Auction and the current PCGS Price Guide value is listed at \$4,200. VERY RARE any finer, this SUPERB GEM would make a great addition to another world class collection of Proof Barber quarters.

Tied for FINEST graded at either service, and clearly a freshly graded Mint Set coin. Gorgeous colors grace both sides, mostly in the orange and golden hues, but with accents of green and violet at the rims. Hints of original silver gleam through the patina, giving this sharply struck SUPERB GEM a great look. There is a single, solitary tick seen with the aid of a strong glass, and is all that keeps it from an even higher grade.

50C 1806/5 O-103A. PCGS MS63+ CAC

One of the **FINEST KNOWN** O-103s known, and this late die state is considered **Rarity-4**. Not only that, this coin comes from one of the greatest collections of half dollars ever assembled, and is totally fresh to the market!

Totally **CHOICE** and **ORIGINAL**, this coin ranks at the top of the Herrman Census. Struck from an advanced state of the dies, there is a dramatic die crack from the base of star 1 into Liberty's curls and curving across to her chin. Likewise the reverse has a nearly bisecting die crack from the space between ST in STATES across through the eagle into the lower corner of the shield. Wonderful rich pewter and dove hues show accents of lilac and pale blue iridescent overtones. The central devices were crisp, while thanks to the late die state the peripheries show softness, as the details were drawn to the edge. A satiny underlying frost captures the light and brings the iridescent hues to life. A couple of tiny marks on the reverse confirm the provenance, but these are generally hidden and unobtrusive and have no impact on the eye appeal.

Ex George F. Oviedo Collection, Stack's September 1983, lot 734; Heritage, December 2004, lot 6042; Joseph C. Thomas Collection, Heritage, April 2009, lot 2393; unknown intermediaries; our consignor.

This Red Book variety is represented by just a single die pair, O-109. It is a rather common variety, listed as Rarity-1, but is always in demand from type, date, and variety collectors. This very pleasing CHOICE AU has a great look. Rich, original surfaces are wonderfully toned in a lilac-pewter-dove coloration over problem free surfaces. The warm colors are enlivened by an underlying luster that survives on the lightly worn fields. The strike is bold for the issue and the eye appeal is exceptional for the date.

PCGS 17, NGC 5, CAC 5. Much nicer than the one we sold nearly four years ago, this one realized \$4,583 back in the 2017 ANA auction--five years ago. Disregard published levels and other APRs this coin is worthy of a premium bid!

LOT 200**50C 1817 PCGS MS63+ CAC**

This is a very interesting 1817 Capped Bust half dollar. Struck from a later state of the O-103 die pair (the Punctuated Date) variety. The Overton-listed "a" model is defined by the lack of the die dot between 1 and 7. A later state, listed in Herrman's AMBPR, called O-103'b', is defined by a new smaller die dot between the 1 and 7, clearly displayed on this VERY CHOICE and brilliant example. The O-103'b' is called "probably R-5". Solidly in the Condition Census for the variety, this one ranks among the finest.

Brilliant, untuned silver surfaces shimmer with a bold cartwheel luster over frosted surfaces. The faintest blush of clear, pearlescent gold graces both sides in places, adding to the seductive visual allure. The devices are crisply rendered despite the later die state and the eye appeal is amazing!

PCGS 34, NGC 18, CAC 8. There are four in MS63+ at PCGS, and only one ever sold back in our February 2016 Regency Auction XVI sale. The current PCGS Price Guide value is \$8,000. Bold and brilliant, the luster radiates with a vivid intensity on both sides.

Well struck from a later state of the dies with the stars and legends drawn to the edges, and a lack of dentils in areas. The silver brilliance amplifies the delicate blush of the clearest gold. The eye appeal of this near-GEM is incredible!

**LOT 203****50C 1836 REEDED EDGE. PCGS**

AU55+

A classic in the half dollar series, the 1836 Reeded Edge was the first issue of the denomination struck using a closed collar on the new steam press in the second Philadelphia mint. This was a major technological advance in coinage production in the United States. Prior to 1836, half dollars were struck in a two step process: the planchets were struck using the screw press and run through the Castasing machine, which impressed the edge lettering that spelled out 50

CENTS OR HALF A DOLLAR. The use of the new steam press and closed collar allowed for the use of a new reeded edge that would be impressed on the planchets as the planchet was pressed by the dies. This made the production more efficient and the coins more uniform. Very few examples were struck using this new equipment, the oft cited figure is 1,200 (though PCGS CoinFacts suggests a mintage of 5,000). Regardless, this is an important coin for the early half dollar collector.

Beautifully toned on both sides, with a ring of aqua-teal at the rim, melding into an amber-orange-gold in the centers. The design elements are nicely defined by a crisp, exacting strike and there is only a touch of light wear on the surfaces. Inspection with a strong glass reveals some light, long toned over marks which have a minimal overall impact on the outstanding eye appeal.

PCGS 1, NGC 1. This is not the NGC coin crossed over. The current PCGS Price Guide value is listed at \$6,250, and we would expect this coin to realize around that. Scarce finer, this important type coin will delight anyone looking for an attractively toned example for an "everyman" set. Good luck.

50C 1836 REEDED EDGE. PCGS MS64

Ex Link, as noted on the insert.

A borderline GEM example from our September 2021 sale of the Chicago Collection, where it was described as:

"A classic issue, historic in its status as the first half dollars struck from the newly installed steam press at the Philadelphia mint. An unknown, albeit limited number were struck. The often cited number comes from the Red Book, which lists "1,200+", while the PCGS CoinFacts listing suggests 5,000. Only a single pair of dies was used to strike this low mintage issue, GR-1 is listed as Rarity-2 overall. Regardless of original mintage, the 1836 Reeded Edge is a major rarity in Choice Mint State or finer grades.

A delightfully toned MS64 example, very rare so fine. Sharply struck with bolder, crisper definition than usually seen on this issue. The feather details are very sharp, indeed the only area of weakness is at the tip of the bust and on some of the left peripheral stars. The surfaces have a bold luster, particularly on the reverse, where the luster has a distinct semi-Prooflike reflection; the obverse is more satiny. A few scattered contact marks, in the form of some minor reeding marks on the obverse are noted with the aid of a strong glass. Both sides have a soft blue, gold, olive, and tan patina, which is brought out boldly on the reverse especially. The eye appeal is nice."

This is a VERY HIGH END, borderline GEM early No Motto Seated Liberty half dollar and a VERY UNDERRATED issue in this lofty state of preservation. Satiny smooth, glossy lustrous surfaces gleam on both sides. A warm azure tint is encountered at the obverse periphery, fading to a light gold near the centers; the reverse is more gold with antique silver.. The definition is generally sharp throughout, with only some very minor weakness at the eagle's talon, not worthy of mention. Clearly generations of collectors have lovingly cared for this coin since it came off the dies, as the surfaces are sleek, smooth, and there is only a minor line or tick noted anywhere with the aid of a strong glass. This is a very pleasing example, one that will be a delight for any type or Seated half collector!

Among the half dozen FINEST graded at PCGS, this is a truly impressive example of this early Walker date. Representing a short lived subtype with the mintmark on the obverse, the 17-S is a conditionally challenging issue, RARE in GEM and excessively so any finer than MS65.

A warm satiny mint frost shows a brilliant glow and satin sheen on both sides. Antique silver surfaces have hints of iridescent toning that comes to the fore when the light hits the surfaces at different angles. The design types are sharply impressed by an exacting blow from the dies, and the surfaces are essentially pristine with no serious flaws of any kind to be found, even with the aid of a strong glass and the eye appeal is sensational.

50C 1919-D PCGS MS64+ CAC

A wonderful representative of this important, classic, KEY early date Walker. Truly beautiful, RARELY does this date come with such awesome eye appeal and quality. VERY RARE in this lofty state of preservation, and EXCESSIVELY RARE any finer. This special coin ranks among those tied for third highest graded at PCGS, with just a bakers dozen graded higher.

Generally well struck for the issue, there is only the slightest touch of striking weakness in the central obverse. A very bold satin sheen brings the subtle pastel iridescent hues to light. The eye appeal really is special for one of these that often comes lackluster. The surfaces are well preserved; even with a powerful loupe we cannot locate anything except the most minute hidden ticks (very few are in the most common spot, the dreaded right obverse field).

PCGS 94, NGC 78, CAC 19. There are just 9 graded at PCGS in this level. The most recent example sold for \$45,600 in August 2020, and the current PCGS Price Guide value is listed at \$50,000. While over 8 million 41-S Walkers fell off the dies, they are remarkably RARE In SUPERB GEM, and quite scarce in the presently offered 66+ grade. This is a very pleasing and high end example of this World War II date. Brilliant frosty mint luster glows vividly over smooth, virtually PRISTINE surfaces. Nicely struck overall, save for the absolute center of the obverse, which has a typical flatness of strike on Liberty's hand. The eye appeal is excellent.

A sensational 42-S, a very challenging date any finer, and this coin has strong claims to a higher grade. We suspect it has been submitted for a 67, it is that superb! We certainly LOVE the look. VIVID and BRILLIANT, the luster jumps off the surfaces glowing with a strong flash and swirling cartwheels. Accents of toning grace the rims, framing pristine surfaces and sharply impressed devices. The eye appeal is AMAZING!

50C 1946-D PCGS MS67

Lustrous and colorful; sharply struck and nearly flawless; high end technical and visual allure. All told, this 46-D is SUPERB. A bold, swirling luster enlivens the rose-pink-gold-lilac patina on both sides. The strike is bold and the eye appeal is great.

PCGS 174, NGC 149. There is a very wide range of APRs, with the last two bringing \$3,120 and \$960 in January and March 2022 respectively. This one's visual allure will certainly attract strong bidder interest.

50C 1942 PCGS PR68 CAC

This SUPERB PR68 1942 Walker is a beautiful and totally original GEM. Due to wartime considerations, the mintage of 21,120 was the final issue of Proof Walkers struck. The presently offered example is VERY high end, very high grade, and very attractive! Wonderfully toned with peripheral gold and an iridescent silvery white patina that is accented by the bold watery reflective underlying mirrors. The devices are sharply struck and the eye appeal is quite nice.

PCGS 82, NGC 207, CAC 49. The most recent examples have sold in the \$4,440 to \$5,520 range and the current PCGS Price Guide value is listed at \$9,000. VERY RARE any finer, we sold a PCGS PR68+ CAC in October 2021 for \$24,675, so bid accordingly. Bound for a great set.

One of the nicest 1952 half dollars we have ever handled! Gorgeous mint set colors give the obverse the most stunning look, accented by the bold radiating luster. Sharply struck, the details are crisp, especially on the Liberty Bell, and the surfaces are sleek and clean. The eye appeal is incredible.

PCGS 66, NGC 17, CAC 26. The PCGS Price Guide and CAC CPG value are the same, both listing the value of this SUPERB GEM at \$2,500. We believe that with just a half dozen graded finer and with its stunning looks, this SUPERB coin will bring way more! Good luck.

**LOT 224****50C 1951 PCGS PR66+ DCAM CAC**

Anyone who collects Proof Franklin half dollars knows how challenging they can be in DCAM, especially the early dates. Clearly care was not taken in preparation of the dies, and the frosted finish to the devices wore off the dies with use; similar to the Proofs from 1901-1915.

An awe inspiring DCAM; the mirrors are ultra deep for 51. Stunning contrast between the deep black mirrors and frosted, white reliefs. The mirrored fields are sleek, ultra-clean, and icy-smooth with a great, high end look. This is an AMAZING, borderline SUPER, DCAM GEM!

PCGS 33, NGC 31, CAC 30. There are just three graded PR66+ DCAM at PCGS, and the ONLY published APR for one of these was OVER A DECADE AGO! The current PCGS Price Guide value is listed at \$15,000 it jumps to \$28,500 in PR67 DCAM! This is an awesome coin worthy of a top tier Registry Set. THE M & S PETTY COLLECTION

Mark and I started this set this set when he was just 16 years old, back in 2006. He was the finder (he had a great eye) and I was the researcher and funder. By 2011, with the help of Legend, and timely sales of collections, we completed the set of 44 coins. At that time, we of relatively modest means, were the 5th to complete this set having lots of tough rarities. Unfortunately, Mark passed away at age 21 in late 2011, but the set had been completed before he passed. Since that time, nearly 60% of the collection was upgraded – champaing fever took hold as it does for many collectors.

Aside from the 1870-S, of which I believe 9 are known, there are many tough dates, especially the Mint State, CAC'd specimens. Two of the most under-rated in my opinion are the 1859-S and the 1872-S.

My opinion regarding this set and the handling of the coins followed the guidance of Dr. John Wong who owned the 1851 before I did. He is quoted in the 2001 Flannagan, Hinkley and Wong sale as stating:

"We are but temporary guardians of these beautiful coins. One day, others will, in turn, enjoy them."

That has been my thoughts with our Seated Liberty dollar collection and I hope that the new owners will be good guardians of these coins. That day has arrived for others to enjoy them.

With 70%+ of the set CAC'd, I hope you have the chance to own one of these rarities and become one of their custodians!

Best regards,
Stephen Petty

LOT 226**\$1 1840 PCGS MS63 CAC**

Regular silver dollar production ended in 1804, and aside from a small mintage of Gobrecht dollars in 1836 and 1839, it was not until 1840 when silver dollars were again struck for circulation. While 61,005 were struck, few were saved at the time of issue. Mint State survivors, especially those in CHOICE or finer, are quite rare! PCGS has graded 15 in MS63 and finer, with a quartet at the MS64 level the finest seen. Struck from OC-1, the most common of the four die pairings recorded for the date, making this a great coin for the date or type collector.

Rich, thick, antique dove, pewter, silver, and lilac-gray toning is imbued with hints of tan-russet and soft olive-gold. The devices are sharply struck up from an exacting blow from the dies. The surfaces have a warm underlying glow that accents the colors. A strong glass reveals some tiny ticks and the lightest of marks; these are mostly hidden by the rich antique patina and invisible to the naked eye. The visual allure is impressive!

Ex Legend Numismatics.

PCGS 8, NGC 8, CAC 4. The last PCGS MS63 CAC sold back in June 2014, a very pleasing piece from the Gardner Collection realized \$18,800. This one is housed in an earlier generation blue tag holder and is fresh to the market. The current Collectors Universe value is listed at \$20,000. Only seven coins are graded finer, and we sold a PCGS MS63+ CAC for \$24,675 in November 2018 and the Simpson PCGS MS64 CAC realized \$57,600 in the 2022 FUN auction. This lovely and CHOICE example will see strong bidding for sure. Good luck.

\$1 1841 PCGS MS64 CAC

The 1841 silver dollar is scarce in all grades and in Mint State this is a major condition rarity. The presently offered coin, graded MS64 by PCGS and endorsed by CAC is a condition census example, one of just four in this near-GEM graded and only four have been graded finer by that service. Struck from OC-4.

A strong satiny frost glows on both sides. The surfaces are of excellent quality and there are only a couple of relatively insignificant traces of contact seen with the aid of a strong glass, and are mostly hidden below the rich antique silver, pewter, and golden russet tan patina. The strike is bold with virtually all details struck up with pin point precision. With all the factors taken together: luster, strike, surface quality, and originality, this is one of the nicest 1841 dollars we have seen.

This coin is a headlight! Blast white untuned, surfaces are blazingly brilliant with a blinding semi-Prooflike reflective luster. Very nicely struck the details are mostly crisp with just a hint of softness in some areas. The device are frosty and the obverse has generous hints of a cameo-like appearance. There are only a few very minor marks that keep this from being an MS65 grade. The eye appeal is stunning!

\$1 1843 PCGS MS64+ CAC

Tied for FINEST graded 1843 silver dollar and a gorgeous coin to boot. Few were saved at the time of mintage, and today any Mint State survivor is at the very least quite scarce. In this lofty state of preservation it is one of only TWO so graded and NONE are finer.

A glowing mint luster bursts from satiny smooth and very high end quality fields. Both sides are gently kissed with a mix of iridescent pastel toning that is vividly brought out when twirled in a light. Varied shades of blue, orange, gold, antique silver-tan, pale teal, and lilac delight the eye. Careful inspection with a powerful glass reveals a tiny tick or two on the obverse and a short mark on the eagle. These easily blend into the surrounding areas and have very minimal impact on the outstanding eye appeal.

Ex Sterling Collection, as noted on the insert.

Tied for **SECOND FINEST GRADED**. The 1844 silver dollar saw a mintage of only 20,000 and they were all struck from a single pair of dies. Any Mint State example is a real prize for the advanced collector, as this date is elusive even in circulated grades. At the present grade, this date is **EXTREMELY RARE** and highly desirable.

Totally original and very high end! A rich antique dove, pewter, gold, olive, and lilac-gray patina blankets the essentially GEM quality surfaces. A creamy mint frost glows with an ember-like brilliance under the color, bringing out the subtle shifts in iridescence to life. Aside from a minor mint made "strike through" at the upper left obverse rim, the strike is crisp and complete. The eye appeal is excellent in every possible way!

There is a single MS65 graded finer, which last sold "raw" in Stack's October 1992 sale of the Floyd T. Starr Collection and is now impounded in the D. L. Hansen Collection. \$1 1845 PCGS MS63 CAC

A lovely and totally original example, tied for second FINEST graded of the date. The entire mintage of 24,500 was produced by a single die pair. While somewhat available as a date in circulated grades, Mint State coins are VERY RARE, and this date is UNIQUE any finer.

A warm golden-gray patina envelopes both sides and as you rotate the coin in a light, the underlying mint brilliance highlights some azure and lilac hues, particularly on the reverse. The surfaces are exceptionally CHOICE and very pleasing. Overall the details were crisply rendered by the press, but there are some areas of the slightest weakness as typically seen on this date. A strong glass reveals a tiny mark or two that prevents a higher grade, but they have little impact on the outstanding visual allure of this high end Condition Census early Seated dollar.

Ex Legend Numismatics, via private treaty to our consignor.

PCGS 3, NGC 3, CAC 2. The only PCGS/CAC example to sell in auction was the Eliasberg-Gardner example back in May 2015 (seven years ago) for \$31,725. The current CAC CPG value is \$30,000 and the PCGS Price Guide value is \$27,500. With only the Norweb-Legend-Hansen MS64 finer, the opportunity to acquire a very high end example of this date is fleeting. Do not let this coin slip away.

\$1 1846 PCGS MS63 CAC

The mintage went back to pre-1844 levels in 1846, with 110,600 struck. Scarce in lower Mint State grades, and extremely rare in GEM, there is very strong collector demand for MS63 and MS64 coins as these are the highest grades that are affordable to most collectors.

A vibrant, satiny mint luster blooms boldly and brilliantly in the fields highlighting a light golden patina over pearly-silver surfaces. The details are nicely struck with only some softness on the highest design points. The surfaces are generally clean and free of any serious marks, and even a glass fails to aid in the location of any single mark worthy of mention. The eye appeal is CHOICE and high end for the assigned grade. Housed in an older blue tag holder.

PCGS 16, NGC 13, CAC 4. The last PCGS/CAC example sold in our December 2016 for \$4,600 hammer. That coin was darkly toned and this one is much more brilliant and alluring. This lovely coin is deeply and richly toned, but when the light hits the surfaces the color really pop; it is not dark or drab in any way. Shades of tangerine and violet really come to the fore, melding with battleship and slate blue-gray tones. \$1 1847 PCGS MS64+ CAC

We love this sensationally high end, borderline GEM quality 1847 dollar. The original mintage saw 140,750 drop from four different die pairs. This one was struck from OC-2. This is the ONLY MS64+ graded and there are only six graded finer between both PCGS and NGC combined (all MS65).

From our September 2019 Regency Auction, lot 340, where it was described as follows:

“What a marvelous HIGH END example, virtually a full GEM caliber early Seated Liberty dollar and a very rare and underrated example. What a great coin!

For an 1847, this coin has a good luster and overall, the surfaces are exceptionally clean and smooth, with a warm underlying satiny luster that glows all over. Only when using a strong glass can you see the few light scuffs and widely scattered ticks that preclude a GEM grade, but none are serious or stand out. Both sides are evenly covered by an original mix of pearly silver with warm golden-tan accents toward the rims. Miss Liberty and the details are fully struck and have light frost. The eye appeal is exceptional in every way.”

PCGS 12, NGC 14, CAC 2. This is the ONLY MS64+ graded. In September 2019, this coin realized \$19,975 and the current PCGS Price Guide value is listed at \$27,500. Keep in mind NO MS65 has sold since our October 2014 Regency Auction that brought \$88,125. \$1 1848 PCGS MS64 CAC

Tied for second FINEST graded of this low mintage date. Only 15,000 were struck using a single pair of dies. There is just a single coin graded finer, a PCGS MS66.

An undulating brilliance glows boldly on both sides of this near-GEM caliber 1848 Seated Liberty dollar. The satiny lustrous surfaces bring the iridescent overlay of toning. Shades of lilac-slate, soft tangerine-gold, pastel pink, olive-tan, and golden-russet blend together beautifully on both obverse and reverse. A strong glass reveals some minor ticks and contact marks, all of which are hidden under the patina. Sharply struck devices add to the bold visual allure. A sensational coin for the advanced Seated Dollar Collector who demands the best available quality.

LOT 236

\$1 1849 PCGS MS64 CAC

A fantastic example of this important CONDITION RARITY! One of the finer examples known of this date. The original mintage of 62,600 quickly disappeared, as coins were exported early in the 1850s as the huge amounts of gold flooding the economy from the Gold Rush made silver more expensive in relation to gold. Many Seated dollars were melted overseas as the bullion value exceeded the face value.

The strike on this near-GEM is sharp throughout, with Miss Liberty's hair curls well defined. Mostly bright silver on the obverse with a pale golden hue favoring the periphery, the reverse sporting a bit more russet and gold, with a touch of blue at the rim. Close examination finds little more than a couple of tiny nicks from bag handling, which keeps this piece far and away finer than the majority of survivors seen of the 1849 issue. A rarity which will be a centerpiece in any advanced collection.

PCGS 19, NGC 19, CAC 1. This coin is an old friend, having sold in our Regency Auction XV, and was not CAC back then. Today, with its CAC approval, should bring the PCGS and CAC CPG values of \$15,000. Only three are finer at PCGS, none of which have sold in auction since the MS65 from the L.K. Rudolf Collection sold in May 2003! Worthy of another amazing collection of Seated Liberty dollars. Bidding will be intense.

\$1 1850 PCGS MS63 CAC

This is a truly spectacular and CHOICE example of this low mintage date. As gold flooded the economy from California, the ratio of gold to silver went out of balance, and the price of silver rose. Many silver dollars were exported and melted down for bullion. Mint State survivors of this low mintage are VERY RARE, EXCESSIVELY so any finer.

Highly Prooflike lustrous fields really pop dramatically in the light. The underlying flashy brilliance enhances the rich, multicolored, dappled iridescent toning. Depending on the angle the light hits the surfaces, variegated lilac, dove, pewter, gold, olive, coppery-orange, slate, and antique silver pop. We love the look of this very CHOICE and totally original 1850 dollar. The details are crisp and show off full, razor sharp definition. The eye appeal is exceptional in every way and the more we look at this highly alluring example, the more we love it! Only a few tiny contact marks keep this from an even loftier state of preservation.

Tied for FINEST GRADED, and more than likely the FINEST KNOWN 1850-O dollar that exists! Only 40,000 1850-O dollars were struck from a single die pair, of which only 1,000-1,500 are thought to survive in all grades, nearly all circulated. Mint State survivors according to PCGS CoinFacts are estimated at 20 and this one is at the apex of the Condition Census.

When cataloged by Paramount in Auction '79, this coin was described as:

"Gem Uncirculated 65. Beautiful iridescent greenish gold, grey, violet and blue toning. Well stuck with virtually all of the detail on Miss Liberty's head clearly defined. The quality of the surfacess is excellent with only a few insignificant handling marks visible below the superb natural toning. This is unquestionably the finest 1850-O Seated Liberty Dollar we have ever seen or handled and, in our opinion, it is quite likely the finest known."

There really is nothing left to add to that description. This coin was certified early on in PCGS's operations, housed in a first generation holder, and then was long off the market, only coming back on the market in Stack's Bowers' 2013 ANA Auction.

LOT 239**\$1 1851 PCGS MS63**

One of the CLASSIC rarities of the series, the 1851 business strike began rare, with only 1,300 struck. The Osburn-Cushing reference estimates that 65 examples survive from this paltry mintage. Apparently these were not released in 1851, but slowly over the following years, used in exchange for silver bullion. Auction appearances are infrequent, especially for PCGS-graded coins in MS63 or finer. (indeed, this coin has not been seen in auction since November 2001).

A brilliant, semi-Prooflike mint brilliance captures the light and brings out the wonderful, original toning. Hints of varied blue (ranging from teal to violet) at the peripheries meld to a rich apricot-gold over antique silver patina. The strike is very sharp, with all the fine details fully brought out by an exacting blow from the dies. The reverse has some light die cracks, not surprising, being that this reverse die was used in 1849 and 1850 before being used to strike the 1851 dollars. While a strong glass reveals a few very minor ticks, these do not detract from a stunning visual allure, and help identify this CHOICE Mint State 1851 for posterity.

A truly superlative example of this VERY RARE date, with an outstanding pedigree! Only 1,100 were struck, making this one of the lowest mintage examples of the series. This special specimen served as the the Bowers' Encyclopedia (1993) plate coin, and is exceptional in every way, making it the perfect coin to serve in that capacity.

As typical for a low mintage coin, the die polish did not wear off during striking, and this coin has an essentially fully reflective Prooflike brilliance. Delicate splashes of blue and gold come out when rotated in a light, clinging mostly to the right obverse side. The devices are razor sharp in definition, particularly in the centers. Careful inspection with a strong glass reveals some very minor, unobtrusive ticks, mostly invisible to the naked eye. The visual allure of this example is very strong and high end for the assigned grade. Housed in an earlier generation blue tag holder.

\$1 1854 PCGS MS63

The 1854 is another date that saw limited mintage, only 33,140 were struck for circulation, using a single set of dies. Of that number Osburn Cushing estimate 300 survive in all grades, PCGS CoinFacts suggests 900. Regardless, this is another challenging date in all grades, especially so in CHOICE Mint State or finer grades.

The current example is housed in an older blue tag holder. The devices show razor sharp definition on both the obverse and reverse, every detail is fully and crisply defined from an exacting strike. The luster is satiny and brilliant with hints of reflective tendencies under the thick layer of medium iridescent toning. Lilac-rose, lavender-gray, slate-blue, and hints of gold mix over the surfaces. The eye appeal is excellent.

Ex Sal Germano Rare Coins, via Ebay.

\$1 1855 PCGS MS63 CAC

A very challenging date to find so fine! WOW. This is a fully CHOICE and high end for the grade example, more than worthy of the CAC approval. Only 26,000 were struck for circulation, and this is a date that there are fewer than three dozen known in all Mint State grades, and this PCGS MS63 CAC is among the FINEST seen!

Brilliant, frosty, and boldly satiny luster glows with a warm vivacity that is visually quite engaging. As you rotate the shimmering silver surfaces in a light, there are hints of semi-reflective flash that is really captivating. Hints of the clearest gold clings to the pearly silver giving it just a fantastic look. Generally well struck with only the slightest touch of weakness on some of the star centers and on some of the eagle's wing feathers. A strong glass reveals some very minor ticks and marks, but these do not detract from the outstanding visual allure of this high end CHOICE Mint State example. Fresh to market and housed in an older blue tag holder.

Ex private sale from CAC to Bruce Morelan, via Legend Numismatics; Legend Set #2; private sale to our consignor via Legend Numismatics.

PCGS 6, NGC 2, CAC 3. The ONLY MS63 to sell was a PCGS graded coin in the July 2005 Bowers Sale of the Rod Sweet Collection. Missing from the extensive Rudolf Collection (Stack's, May 2003). The current CAC CPG value is \$49,000 and the PCGS Price Guide value is listed at \$50,000. We note that PCGS has graded just two finer, a 64 and 64+. The MS64 sold in the June 2014 sale of the Gene Gardner Collection, realizing \$141,000. When this coin crosses the block, and the fierce bidding action ends, and the hammer falls, we would not at all be shocked if the published levels and our estimates are left in the dust. Ex Richmond Collection, as noted on the holder.

A lustrous example of this conditionally challenging date. Bordering on the CHOICE grade level, this coin has a decent strike for the issue, with only some light weakness on the obverse stars and eagle. An iridescent clear gold patina is gently dusted on the surfaces with some dappled deeper gold and some blue peripheral tone on the reverse. A strong glass reveals some tiny marks and ticks that account for the assigned grade, but the overall eye appeal is pleasing.

\$1 1857 PCGS MS64 CAC

While the mintage of silver dollars temporarily went up to 94,490 in 1857 these are VERY RARE in such a lofty state of preservation. This coin sits clearly in the Condition Census for the date, and among the finest known. Struck from OC-2. Many examples were exported for the China trade, and were lost to circulation and melting in Asia.

This beautiful near-GEM was an early striking from the dies, as the obverse and reverse both show fully Prooflike mirrored reflection and bold flashy brilliance. A golden iridescent toning blends with a soft pastel lilac over sensational antique silver. Areas of striking weakness at the top of Liberty's head, at the tip of her foot and on some of the stars are typical for the date. The eye appeal is exceptional in every way! What a great looking coin!

PCGS 5, NGC 16, CAC 6. The last PCGS/CAC example we sold was the Sterling-Legend-Issaquah coin that realized \$34,075 in our May 2019 Regency Auction. The current Collectors Universe value is listed at \$18,000. There are a mere four coins graded higher, and any GEM will cost \$75,000-\$100,000! Worthy of a very strong bid and will find itself at home in another world class set of Seated Liberty dollars. Good luck.

A rare date, struck only in Proof, the 1858 is a key date from a mintage of just 300, but because they were struck only in Proof, the survival is better than those that were subject to circulation.

A pleasing Choice Brilliant Proof with boldly defined devices and sleek, watery fields. Soft iridescent toning graces the surfaces, attesting to the originality. A few small hairlines are seen with the aid of a glass, but the overall eye appeal is pleasant.

\$1 1859 PCGS MS64+ CAC

Ex Sterling-Legend, as noted on the insert.

The third FINEST KNOWN and a gorgeous near-GEM that was once a part of the greatest of Seated dollar collections-the LEGEND COLLECTION! Since 1858's entire mintage was Proof only, no circulation strike silver dollars had been coined since 1857, and in 1859 the mintage jumped to 256,500, produced by four different die pairs. Most of these again were exported to China, struck in competition with the Mexican 8 Reales that was dominating trade in the Orient. The vast majority of these were melted in Asia, lost to posterity. Mint State coins are rare, and at this lofty state of preservation, they are excessively rare.

This is a fabulous, essentially GEM quality Liberty Seated dollar. A brilliant cartwheel luster rolls boldly across the surfaces on both the obverse and reverse. The underlying brilliance enlivens the totally original toning. Shades of warm teal and apricot-rose meld with accents of clear gold and antique pewter-silver. The originality and eye appeal are simply stunning. The devices are sharply rendered from an exacting blow from the dies. There are some minor contact marks, mostly limited to the reverse, and they have minimal impact on the outstanding GEM-like visual allure.

It should be noted that most of the great, old time collections lacked a Mint State example of the date, using instead a Proof to represent this date in high grade. The current PCGS Price Guide value is listed at \$22,500 and none of the finer examples have sold in auction, but would bring six figures each were they to ever appear. This remarkable coin offers the collector a stupendous opportunity not to be missed. Good luck.

\$1 1859-O PCGS MS63 CAC

No silver dollars were produced at the New Orleans mint between 1851 and 1858, so the 360,000 1859-O dollars were only the third coinage of this denomination. In the early 1960s, a cache of back dated silver dollars were discovered in Treasury Department vaults and were released; among those were perhaps three bags of 1,000 coins each of the 1859-O dollar. While in Mint State, the majority were heavily bagmarked, and would grade MS62 or lower by PCGS or NGC. Coins graded MS63 are quite scarce, and are RARE finer.

A totally original coin, blessed with a strong mint brilliance and delightfully original iridescent pastel toning. The flashy luster highlights soft lavender-gray, antique silver, frosty dove-gray, pale rose and gold hues. The devices show razor sharp definition to the details, evidence of an exacting blow from the dies. The eye appeal is VERY BOLD.

PCGS 77, NGC 41, CAC 16. The most recent example to sell was in our May 2020 sale of the Blue Hill Collection, realizing \$3,995. The current PCGS Price Guide value is listed at \$5,500. Scarce finer, this is a fantastic coin for a carefully selected type set.

Ex Rudolf-Legend, as noted on the insert.

Only 20,000 silver dollars came off the dies in San Francisco mint in 1859, the first time this mint produced the denomination, and like many dates of the 1850s, these were produced mainly for the China trade. Few survivors made it back state side, and today, it is estimated that 35 exist in all Mint State grades; this CHOICE example is among the FINEST KNOWN, bested by just two examples, a 63+ and a 64+. Conditionally very challenging, even the Eliasberg, Norweb, and Amon Carter coins were all called AU! This also is the ONLY MS63 coin with CAC approval!

A radiant and brilliant example. Nearly fully Prooflike the bold mint luster glows with a subtle reflective flash. Essentially untoned, a blush of the faintest clear gold melds with a pearlescent hue that is just a delight to behold. A sharp strike has crisply rendered all the devices with full, complete definition. A few tiny ticks and giggles are seen with the aid of a strong glass. A strong luster glows boldly under a layer of rich orange-gold, lilac, and sea-green toning that blends together over an underlying gunmetal, rich silver hue. Ex Legend Collection, as noted on the insert.

The 1860-O was the last New Orleans silver dollar struck until 1879, and the mintage was quite generous for a Seated Liberty dollar, as 515,000 fell from the dies, just before Louisiana left the Union and joined the Confederacy. Like the 1859-O, a number of bags were discovered in the early 1960s in a Treasury Department vault and were released.

From our May 2019 Regency Auction, this beautiful near GEM last sold as part of the Issaquah Estate, where we described it as:

"No question this coin is HIGH END. For a bigger coin, it lacks all the little miseries you typically find. Also, this was a coin from our partner's original set!"

Yet another fabulous quality piece from the Issaquah Collection. Obviously this coin did not see much of the outside world after it left the Mint. All ticks/lines are extremely light and well scattered. Even using a strong glass they are non issues. There actually is a decent visible luster. Both sides have an even moderate mix of original reddish gold/golden brown/blue/deep pewter colors. There are no discolorations anywhere. We grade the reverse MS64+. Miss Liberty and the details are sharply struck and do standout. The eye appeal is great!"

Very, very CHOICE! This Civil War date is always popular, and it is remarkable that a silver dollar could survive in this high grade being struck during the Civil War. While it is often told that the tumult led to mass hoarding of gold and silver coinage, a silver dollar represented a lot of money: a Union enlisted volunteer was paid \$13 a month for their enlistment term.

The M & S Petty MS64 is boldly eye appealing. A wonderful luster has a satiny brilliance and semi-reflective flash that comes out as you rotate the surfaces in a light. Die lines and striations are seen as are some light ticks that account for the assigned grade, but they have minimal impact on the outstanding eye appeal. A blush of the faintest pale gold and pearly silver iridescence adds to the fantastic visual allure!

\$1 1862 PCGS MS64+ CAC

Solidly in the Condition Census for this popular Civil War year, this near-GEM is among the **FINEST KNOWN** from a small mintage of 11,540. In February 1862, the federal government issued approximately \$150,000,000 in Legal Tender notes that were not backed by specie, which led to more hoarding of gold and silver coins. This is why, despite a tiny mintage of only 11,540 pieces, PCGS CoinFacts estimates 100 survive in Mint State. That said, this coin is one of 2 in MS64+ and just three finer listed in the Population Report.

The dies were heavily polished before striking, resulting in semi-reflective, flashy luster in the fields, along with a series of raised die lines. Other than these mint produced lines, the fields are extremely clean and free of any post minting distractions. The devices are sharply rendered and stand out with a thick, creamy frosted texture. Mostly untoned, there is a beautiful arc of neon-cobalt frames the left obverse rim, while a dusting of the faintest clear gold on the reverse adds to the bold, original look of this exceptional coin. Visually this coin stands out from the pack!

A great example! Nearly of GEM quality and RARE so fine! Struck at the very height of the Civil War, only 27,200 were produced, and many were hoarded as the government suspended specie payments until after the war; once payments resumed, those hoarded silver coins made their way back into commercial channels and did not survive in high grade, including export to Latin America. Today, Proof examples are much more frequently encountered than high-grade Uncs.

Visually quite fetching, this VERY CHOICE example is wholly original and attractively toned in a rich melange of iridescent blue, lavender, and russet-gold. The underlying satiny luster really makes the colors pop in a light. The surfaces show some hidden ticks and light contact, nothing serious that puts a negative impact on the outstanding visual allure. Truly one of the prettier examples of this date we have handled in auction.

A high end, VERY CHOICE specimen of this important Civil War date. While the mintage ticked up a few thousand pieces, these are VERY RARE in this lofty state of preservation, especially so with CAC approval.

This is a thickly frosty, pearly near-GEM with a bold, shimmering brilliance. While mostly pearlescent, there is a blush of the faintest sky blue/lilac and clear gold. Sharply struck devices stand out from an exacting blow from the dies. We have looked this coin over and over with a strong glass and are unable to locate a single flaw worthy of mention. The eye appeal is excellent.

A sensational example, tied for second highest graded at PCGS with just a single MS65 graded finer. This is a pleasing example of the final No Motto Seated Liberty type. It is believed that a large portion of the mintage of 46,500 was exported to Central and South America, the quantity too large to have been "a token issue" nor was it really large enough to have satisfied domestic circulation demand.

A frosty CHOICE example that was perhaps dipped gently ages ago. A satiny brilliance gleams through a soft iridescent, pearly silver-pewter tone. Sharply struck devices stand out boldly and there are just a few minor ticks and marks that account for the assigned grade. The eye appeal is special for sure.

After the massive economic disruptions caused by the Civil War, the economy slowly began to rebuild. The mintage of silver dollars rose to 48,900 in 1866. These are scarce overall, but since specie payments were not made by the government, some were saved in Mint State for posterity.

This is the ONLY MS63 to be approved by CAC, and it is easy to see why! This coin is ultra high end for the assigned grade. We sold this beautiful borderline GEM back in September 2019, saying it would delight and excite any Seated dollar collector, and surly it did, finding its way into this WORLD CLASS collection!

We further described it as: "Thick and satiny mint frost glints and glimmers on both sides in the fields with an almost opal-like sheen. Snowy-white surfaces mingle with traces of a dappled golden tone that clings to the recesses of some of the design elements, especially out toward the peripheries. Nicely struck for the date with just some minor bluntness of strike seen in the central devices, but better than typically seen. A strong glass will reveal some minor "ticks and giggles" none of which have any impact on the exceptional visual allure or technical quality of this near GEM Seated dollar."

LOT 263

\$1 1870-S PCGS GENUINE

Ex F.C.C. Boyd, as noted on the insert.

One of the GREATEST RARITIES of the entire U.S. Silver Dollar Series, from 1794 to the present day! Listed as #29 in the Jeff Garrett and Ron Guth 100 Greatest U.S. Coins book, this is a coin that is the stuff of numismatic dreams. This extensively pedigreed example, while not perfect quality, is perfect for anyone seeking an example of this great rarity. Like many of the most desired rarities in all of American numismatics, the origins of the 1870-S dollar are somewhat shrouded in mystery, which only adds to the desirability.

No mint records exist for the striking of the 1870-S half dime, silver dollar, or \$3 gold piece. The 70-S half dime and \$3 are thought to be UNIQUE and the 70-S dollar is EXTREMELY RARE, with fewer than a dozen examples positively traced today. The existence of the 1870-S dollar was unknown until 1914, when H.O. Granberg displayed his collection at the ANS Exhibition. The presently offered 70-S was the first one ever offered

in auction, in the William Hesslein December 1926 auction. It is speculated that a few denominations were struck for inclusion in a time capsule that was placed in the cornerstone of the newly constructed San Francisco Mint, known as the Granite Lady.

The present coin displays the definition of a VF30 coin. In the 1926 sale cited above, the initials "FHI:" were engraved in the obverse field. Between the 1926 sale and the 1945 World's Greatest Collection sale, the fields were tooled to remove those initials from the surfaces. After the tooling, perhaps this coin was polished, retoned, then professionally conserved, as the coin does not have the deep dark toning today that it did in the old ANACS Photocertificate from the 1980s. The coin otherwise shows just moderate wear from circulation. The reverse remains relatively unscathed. While the problems are easily evident, the eye appeal is actually quite pleasing, considering the flaws. Indeed, these flaws add to the history of this LEGENDARY RARITY!

There are 11 examples enumerated in the most recent

roster, including two that cannot be verified:

1. James A. Stack Collection Specimen, PCGS MS62. Stack's, by sale in 1944 to James A. Stack; Stack's Sale of the James A. Stack Collection, March 1995, lot 212; L.K. Rudolf Collection, Stack's May 2003, lot 2136; Legend Collection of Seated Liberty Dollars.

10 and 11. Rumored to exist, but unverified. The Granite Lady Corner Stone Coin and a coin belonging to the family of a San Francisco mint employee.

Any "straight graded" 1870-S silver dollar would realize over \$500,000, and the top two examples have traded for seven figure prices. This example is likely the only 70-S dollar that could be had for under that \$500,000 level. Do not let this important opportunity to acquire a WORLD CLASS, LEGENDARY rarity pass you by! Who knows when another 70-S dollar will hit the market.

LOT 264

\$1 1871 PCGS MS64 CAC

Ex Share/Legend as noted on the insert.

This is a totally original, high end, and very attractive Seated Liberty dollar. While 1,074,760 were struck, many were exported overseas, and though common in circulated grades, in Mint State this date is very scarce, and EXTREMELY RARE any finer than the presently offered MS64.

A warm pewter-dove toning on the obverse shows accents of lilac and soft gold that are enlivened by a warm satiny mint frost. The reverse is mostly untoned, save for some hints of iridescent hues that cling to the periphery. The reverse luster is bold, flashy and brilliant. The devices are sharply struck and this coin boasts a bold near-GEM look.

PCGS 46, NGC 38, CAC 17. The current CAC CPG value is listed at \$6,750 and the PCGS Price Guide value is listed at \$7,500. The last one sold in April 2021 for \$5,280. PCGS has graded 15 finer, and anything finer will cost into the five figures. Good luck.

PCGS# 6966 | EST: \$5,000+

LOT 265

\$1 1871-CC PCGS AU58

A VERY HIGH END 71-CC dollar! Only 1,376 were struck, and Rusty Goe estimates that only 105-135 are thought to survive in all grades. High end AU58 coins are VERY RARE indeed, and Mint State coins are excessively rare.

The present coin is very fresh to the market and we have been unable to locate its prior appearance. Clearly an early strike as the fields are semi-Prooflike and reflectively brilliant. When you rotate this coin in a light, the flashy luster brings the smoky russet, tan-gold, amber-rose, and soft lilac-gray toning to life. The colors are rich, but not dark and do not obscure the underlying radiant brilliance. The devices are sharply impressed and the ever so slight trace of wear is imperceptible to the naked eye. With the aid of a powerful loupe, we can find a hint of friction in the fields and some unobtrusive tiny contact marks. This is a VERY CLASSY and really cool early Carson City dollar, easily in the CONDITION CENSUS and one of the FINEST around!

PCGS 6, NGC 7. The current PCGS Price Guide value is listed at \$75,000; but with no comparable example selling in at least a decade, who knows. The last PCGS AU58 sold in July 2008 for \$97,750 and this coin is similar in toning, but in our opinion, more attractive. This is a real prize for the Seated Dollar or Carson City specialist and who knows when the next one will appear in auction! We know another PCGS AU58 is currently being offered for \$100,000. Good luck.

PCGS# 6967 | EST: \$60,000+

LOT 266

\$1 1872 PCGS MS64+

A very flashy near-GEM that ranks among the VERY FINEST KNOWN of this late date. While over 1.1 million silver dollars were struck, few were saved and GEM quality examples are EXCESSIVELY RARE! There are only five coins graded finer at PCGS.

Brilliant, virtually untuned silver surfaces shimmer and glimmer with a bold satiny luster in the fields and a frosted silver-white texture on the sharply defined devices. A similar silver iridescent hue with accents of gold cling to the fields, brought vibrantly to life by a bold underlying luster. The eye appeal is great!

Ex Bel Air Collection; Legend Numismatics; our consignor via private treaty.

PCGS 9, NGC 0. No doubt this number includes some duplication. The current Collectors Universe value is \$22,500 and the most recent example, CAC-approved, sold for \$22,800. An MS65 (Pop 4) will cost \$50,000. This near-GEM will delight any collector seeking a high grade example of this late date.

PCGS# 6968 | EST: \$20,000+

LOT 267

\$1 1872-CC PCGS AU55 CAC

A VERY RARE coin from a mintage of only 3,150. Most of these disappeared into circulation, where they would remain for ages. Today, any higher grade example is a prize, and Mint State coins are virtually unheard of with CAC approval.

This VERY CHOICE AU has an icy sleek semi-Prooflike flash in the fields and sharply struck up devices. Minimal friction from its brief time in circulation appears in the fields, but there are no serious marks or signs of mishandling that plague so many of these early Carson City coins. Pleasing original toning graces both sides, accented by the underlying brilliance, as the light golden tone comes out. Sharply struck and frosted devices give this wonderful example the complete package and awesome eye appeal.

Ex Heritage, May 2008, lot 939; Legend Numismatics; private sale to our consignor.

PCGS 17, NGC 3, CAC 1. This coin brought nearly \$15,000 fourteen years ago, as an NGC AU55 CAC. More recently a PCGS AU55 without CAC sold for \$15,600 and this coin, PCGS/CAC will bring more. The CAC CPG value is \$22,800 and the Collectors Universe value is \$20,000. We anticipate very strong bidding for this important coin. Only two higher grade 72-CC dollars have attained CAC approval, an MS63 and an MS65 (both those coins would sell for six figures (a PCGS MS63 without CAC sold for \$192,000 in August 2021 and the MS65 has a PCGS Price Guide value of \$400,000! This coin presents a fantastic opportunity for the collector.

LOT 268

\$1 1872-S PCGS MS63 CAC

This is a blazingly lustrous and high end example of this VERY RARE date. Only 9,000 were struck, and this one is tied for second FINEST graded and is fresh to the market.

This is a bright untoned, lustrous and CHOICE 72-S. Mint fresh brilliance gives this boldly struck example an excellent look. The surfaces are clean for the grade, free of distracting marks of any kind. The eye appeal is sensational for the grade.

Ex Bel Air #2 Set; Legend Numismatics; our consignor.

PCGS 4, NGC 4, CAC 2. The current CAC CPG value is listed at \$42,000. No CAC MS63 example has ever sold in auction. EXTREMELY RARE any finer, and rarely offered, the last MS64 sold for nearly \$150,000 in 2008! We have no doubt that when this VERY CHOICE example crosses the block, our estimate will be easily surpassed! Good luck.

\$1 1873 NGC MS64

Deep, rich, original toning envelopes the surfaces of this lustrous, CHOICE Mint State 1873 silver dollar. In 1873, Congress passed a law, that among other items, ended the coinage of silver dollars and commenced the striking of Trade dollars.

The present example offers a hint of reflection in the fields, which when caught in a light, really accent the deep blue toning and sharply impressed devices. The eye appeal is quite pleasing, free of any serious marks.

PCGS 17, NGC 20. The most recent example sold in November 2021 for \$7,200 and prior tot that, none have sold since 2009! The current Collectors Universe value is listed at \$8,500. Just 10 are graded finer at NGC worthy of a strong bid and placement in another high end set of Seated Liberty dollars.

PCGS# 6971 | EST: \$6,500+

LOT 270

\$1 1873-CC SEATED. PCGS AU55 CAC

Ex Stack, Rudolf, Legend Collections, as noted on the insert.

We are proud to offer this illustrious example of the RAREST Carson City silver dollar of ANY type! Only 2,300 were struck, perhaps 200 survive in all grades, many of them low grade or damaged in some way by cleaning or other mishandling, accidental or intentional. Whether the rarity was caused by attrition due to wide spread circulation or as R.W. Julian and Q. David Bowers postulate, perhaps a small number was released into circulation, and the remainder was melted and recoinced into Trade dollars later on in the year. What cannot be disputed is the absolute rarity!

This is a Choice AU example and very attractive for the date and grade. In May 2003, Stack's offered this coin as part of the renowned L.K. Rudolf Collection, where it was described in part: "Choice About Uncirculated, with some claims to an even higher grade. Wonderfully original lavender-gray centers are framed by rings of bright red, fiery gold, and pale blue peripheral iridescence. Well balanced, evenly struck, and still retaining quite a bit of underlying mint lustre. A lovely example of the rarest of all Carson City Mint Silver Dollar dates of all three types!"

Nearly 20 years later we cannot add much to that description, though we note that the quality is very high end, as proven by the green CAC seal of approval. We have marveled at this coin from the moment that it came into the office!

Ex. James A. Stack Collection, Stack's, March 1995, lot 219; L.K. Rudolf Collection, Stack's, May 2003, lot 2142; Legend's Second Set; private sale to our consignor.

PCGS 8, NGC 2, CAC 1. This coin has not sold publicly since 2003, when it was graded by NGC. Our consignor paid a very strong price to buy it. While the current PCGS Price Guide value is \$70,000 and the CAC CPG value is \$75,000, this coin, in our opinion, offers a better visual allure than the Battle Born PCGS AU58 CAC that sold a decade ago and the NGC MS61 Goldschmidt-Clapp-Eliasberg-Gardner coin that realized \$114,000 in November 2021. This is a very RARE and HISTORIC offering that will NOT present itself again in quite some time. Worthy of another WORLD CLASS COLLECTION. Bid accordingly!

\$1 1800 WIDE DATE, LOW 8. B-10, BB-190. PCGS AU58

Ex Freedom Collection, as noted on the insert.

A Condition Census level B-10, BB-190. This was a prolific die marriage, as there are seven distinct die states listed in Dave Bowers' Encyclopedia of United States Silver Dollars, 1794-1804. The present coin is struck from a middle state, listed as Die State IV, which happens to be the most common of the known states.

Nicely preserved surfaces show no more than the lightest hint of friction on the highest points and in the fields. A wealth of retained luster enlivens the soft clear gold and pearly silver that dusts the majority of the surfaces and brings out the splashes of deeper gold and violet blue at the reverse. There are no serious flaws worthy to mention of any kind. This is a solid coin for the collector, combining high grade and pleasing aesthetics!

Ex Freedom Collection, Stack's Bowers' 2013 ANA Auction, lot 4339; Dale Friend Collection; Legend Rare Coin Auctions' Regency Auction 51, lot 38.

PCGS 7, NGC 1. The current PCGS Price Guide value is listed at \$28,500 and few finer examples have appeared in auction in the last decade, making this a very important coin for the collector of high grade early dollars. We expect the bidding to be strong on this one, don't let it get away.

\$1 1855 PCGS PR66 CAM CAC

A marvelous GEM! The SINGLE FINEST graded by PCGS and a truly amazing survivor! Everything about this coin makes your heart pound! WOW, WOW, WOW! Extremely RARE in any grade, as only 60 are estimated to have been struck in Proof and only 26,000 were struck for circulation.

This PQ GEM has a bold, watery reflective mirrored brilliance that enlivens the awe-inspiring and totally original deep patina that graces both sides. The color is deep, but not dark; the toning does not obscure the brilliant mirrored fields. Amber-rose and mauve-gray toning dominate, with accents of lilac, blue, and gold. The design elements are frosty and razor sharp, standing out in a bold contrast to the mirrored fields. Essentially without flaw, as would be expected for this lofty grade, the eye appeal is STUNNING!

Only 60 Proofs were struck. PCGS 1, NGC 1. This coin has never sold in auction. The NGC-graded coin last sold 14 years ago, realizing nearly \$75,000 a generation ago! WOW. We believe the \$92,500 listed by PCGS is pure conjecture, only time will tell what this stupendous GEM is worth. Do not let this important opportunity pass you by! Good luck.

PCGS# 86998 | EST: \$90,000+

LOT 273

\$1 1857 PCGS PR65 CAC

This is a GORGEOUS GEM example of this VERY RARE No Motto silver dollar Proof date. An estimated 50-100 Proofs were struck, and precious few are known in GEM or finer grade, and these are highly coveted by advanced collectors.

Incredibly reflective, glassy mirrored fields gleam in the light from below a rich layer of multicolored toning. Deep blue, violet, and silver-gray toning dominates with orange-gold toning toward the centers, surrounding the sharply struck up devices. The surfaces are exceptionally clean, even for the assigned GEM grade. While the toning is deep and rich, it is not dark, nor does it obscure the amazing reflection. The eye appeal is AMAZING!

Only 50-100 Proofs were struck. PCGS 3, NGC 3, CAC 3. The current PCGS price Guide value is listed at \$47,500 and only two are graded finer at PCGS and neither have ever sold in auction. This coin sold in our October 2021 Regency Auction for \$41,125 and today we expect it will bring close to the PCGS value. This GEM belongs in a fantastic collection of Proof type coins, Proof Seated dollars, or just a box of 20 special gems.

LOT 274**\$1 1873 TRADE. PCGS MS65 CAC**

Technically, we feel this coin grades higher than an MS65 (we make no promises). The quality is beyond what you normally see for an MS65!

Perfect surfaces dominate everywhere, even using a strong glass and looking over the surfaces for a long time will only make you happier. This is as clean as clean can be. The only thing holding back a higher grade-this coin has moderate even toning. The colors are a dove gray/pale purple/deep pewter/some blue. Some luster does come through. Miss Liberty and the details are perfectly stuck and standout. The eye appeal is pleasing! Housed in an older generation blue tag holder.

PCGS 13, NGC 7, CAC 3. The last PCGS CAC piece to sell via auction brought \$16,800 in the 2022 FUN auction. The current PCGS Price Guide value is listed at \$17,500 and a PCGS MS66 CAC sold in the recent Central States auction for \$60,000. We feel this GEM presents a great opportunity to start your set!

PCGS# 7031 | EST: \$16,000+

LOT 275**\$1 1873-CC TRADE. PCGS MS63**

This is a wonderfully CHOICE and ORIGINAL 73-CC Trade dollar. This date is quite RARE in any Mint State grade and excessively so any finer than the presently offered MS63.

Warm, varied shades of pewter, dove, slate, and battleship all meld with hints of lilac, olive, tan-russet, and gold that come out when rotated in a light source. The surfaces show some minor traces of contact, nothing that would interfere with the assigned grade. The eye appeal is excellent.

PCGS 21, NGC 7. The current PCGS Price Guide value is listed at \$27,500 and while the most recent example sold for \$16,200, we think this one is much more attractive and worthy of a stronger bid. VERY RARE finer, the PCGS Population lists just 10 finer. What a great coin for a carefully assembled set of Trade dollars. Good luck.

This near-GEM is an old friend, having been offered by us twice before, most recently as lot 243 in our Regency Auction 40. Before that, we sold it as part of the David Hall Collection of Toned Dollars!

This is a magnificent toned 78-CC that rivals those from a famed group from Bryan Sonnier, one of the original specialists in toned Morgans. Boasting swirling bands of iridescent color which rate a 9+ on our color scale; shades of magenta, emerald, clover, tangerine, gold, and violet tones boldly come to life as you rotate the lustrous surfaces in a light. Sharply struck throughout the design types. Were it not for some trivial contact on the cheek, this coin would have easily graded higher.

This coin sold in 2015 for \$5,758 and more recently for \$3,290. We believe the market today is stronger for toned dollars than it was in August 2020 and will bring a stronger bid today. This is clearly a coin that would have fit nicely in any amazing collection of Toned Dollars: Sunnywood, Northern Lights, or Roadrunner. Bid accordingly.

 VERY RARE in Prooflike (PCGS CoinFacts estimates that there are 10 in all PL grades), this is one of only TWO so graded by PCGS, the other is a 64 PL. Fully reflective, vibrant luster beams with a bold flash in the fields. A delicate kiss of iridescent toning and thick frost on the devices add to the outstanding visual allure. Very pleasing and high end, housed in an older PCGS blue tag encapsulation.

PCGS 1, NGC 0, CAC 1. There are no auction records in our database, and the only pricing data is the PCGS Price Guide value of \$3,000. It would not be a surprise if this CHOICE PL piece brought a record price.

\$1 1879-S PCGS MS64

A borderline GEM and beautifully toned example. Both sides of this lustrous 79-S are richly toned, clearly this coin was able to sit in an old envelope. Glorious blues, golds, oranges, and purples really pop out in a light. Overall the colors rate a 9 out of 10 on our 10-point scale. The eye appeal is amazing, and if it were not for a minor scuff on the cheek, it would have graded GEM.

This older blue tag holdered MS64 is fresh to the market and worthy of a strong bid from the toning specialist.

This is a MONSTER toner, on the reverse! The color is otherworldly and truly AMAZING! Full rainbow spectrum of color, from yellow-gold, tangerine, magenta, hot pink, emerald green, violet, and blue tones. We rate the color a full 10 on our 10-point scale. Aside from the AMAZING color, this coin is, in our opinion, conservatively graded and housed in an old green tag holder.

We generally do not sell reverse toners, so if you see one in our sale, you know it is all there, then some, and a MONSTER! We expect very strong bidding on this BEAUTIFULLY TONED Morgan!

PCGS 279, NGC 371. There is a wide range of APRs, from \$3,240 to \$3,960 and the current PCGS Price guide value is listed at \$5,250. RARE finer, this SUPERB GEM makes for a great type coin or superb specimen for any Morgan dollar collection.

\$1 1881-S NGC MS65 CAC

A gorgeous multicolored toned GEM! This 81-S has a great look, in our opinion undergraded, and housed in an old NGC fatty holder. The obverse boasts bold, gold and vivid tangerine, magenta, and hints of blue and teal. We rate the color an 8.5++ on our 10-point color scale. A vibrant cartwheel luster with flashes of Prooflike brilliance brings the splashes of color to life. The strike is razor sharp and frosty, and the surfaces are very clean and high end for the MS65 grade assigned.

We love the look of this GEM and any picky toned dollar collector will too. Worthy of a strong bid, we expect our estimate will easily be exceeded when the hammer drops.

\$1 1881-S PCGS MS65 CAC

We love the look of this GEM 81-S! Multiple bands of color cover the obverse and we are in love with the bold emerald green that dominates the center, surrounded by blues, golds, magenta and pinks. The color rates a 9++ on our 10-point scale and this beauty would have found itself at home in the Roadrunner Collection.

\$1 1882-S PCGS MS65 CAC

A deeply toned GEM! Dark purple (like that of an eggplant) mingles with gold, dark red, teal blue, and olive russet. Across Liberty's hair and headband there is a distinct brighter band of rainbow color that gives this lustrous 82-S a very distinctive look. The underlying brilliance is vibrant, thus the toning does NOT impede the impressive cartwheels. We rate the color an 8 on our 10-point scale.

This coin's deeper purple tones are about as rich as you can get before the color becomes "terminal" and those who know toned dollars will appreciate this coin's palette!

This is a truly beautiful TONED GEM 83-CC, clearly this lovely coin was part of the GSA holdings (not listed on the holder). We have seen GSA dollars with this kind of color and we truly believe this was part of that historic offering.

A full rainbow blankets 95% of the obverse. As you rotate the lustrous surfaces the colors really pop, from violets, blues, oranges, and reds. The color rates a 9 on our 10-point scale. The eye appeal is fantastic! We really love it. Housed in an older blue tag holder.

PCGS 9693, NGC 4542, CAC 714. A similar looking coin in the original GSA holder sold for \$2,174 in our May 2022 Regency Auction Online Only Session. We think this one will bring a similar price. Good luck.

\$1 1883-CC PCGS MS65 DMPL

This is a truly UNIQUE double sided toned DMPL! Every thing stands out in stark contrast to what you normally encounter on an 1883-CC dollar!

Wonderfully brilliant mirrors belie the dappled multicolored toning that was imparted by long term storage in an old collector envelope or album. We love the way the colors play off each other; the blues, greens, yellows, oranges, golds, pinks, and purples flow and melt into each other in a gorgeous way. The eye appeal is exceptional!

PCGS 847, NGC 201. We think this coin is worth a very strong premium, as toned DMPLs are much rarer than the blast white, and the toned dollar collectors rarely get to bid on attractively toned examples. Good luck.

\$1 1883-CC PCGS MS66 CAC

A brilliant, untuned PQ GEM! Very sharply struck and smooth, clean, high end quality with a sensationally vibrant luster. The eye appeal is excellent.

PCGS 2598, NGC 1042, CAC 753. The most recent example brought \$2,585 in our May 2022 Regency Auction, as part of the Dale Friend Collection. Prior to that, one sold for \$1,440. Worthy of a bid in excess of the published levels of \$1,300.

\$1 1883-CC PCGS MS66 DMPL

Exceptionally brilliant and nearly blinding mirrors beam all over with exceptionally bold reflective fields and thickly frosted devices, which stand out with a near cameo contrast. The fields are clean and generally smooth with only some trivial, microscopic ticks and a hint of transparent, silvery white iridescent toning. The eye appeal is tremendous!

PCGS 165, NGC 46. The most recent one to sell realized \$3,150 in February 2022, and the current PCGS Price Guide value is listed at \$3,050. Just twenty coins have been graded higher in the DMPL designation. This one is bound for a great set. Good luck.

LOT 288

\$1 1883-CC PCGS MS66+ CAC

A lustrous, PQ GEM example of this very popular Carson City date. Bold and brilliant, the surfaces gleam from below a dusting of pastel blue, gold, and green toning on the obverse. The reverse is mostly untoned, but shows a hint of color at the peripheries. The details are frosty and nicely, though not fully struck. There are some minor ticks and marks that keep it from a 67 grade, but the eye appeal is unimpeded.

PCGS 3084, NGC 1141, CAC 753. There are 486 graded MS66+ and the most recent PCGS/CAC examples have sold for \$2,280 and \$2,760 in April and May 2022 respectively. Worthy of a strong bid in today's market, good luck.

\$1 1883-O PCGS MS63 CAC

First of all this coin's colors are awesome--deep but vivid, bold and beautiful! Stunning deep blue mixes with some emerald before fading into magenta, then into a rainbow that covers about 25% of the obverse. The color is really impressive, we rate it a 9.5 on our color scale and the eye appeal is off the charts. Worthy of any fabulous collection of toned dollars, do not let the modest grade fool you, it has a really high end look.

PCGS# 7146 | EST: \$1,000+

LOT 290

\$1 1883-O PCGS MS64

We very much like the look of this 83-O. A bold luster radiates from below a sensational blend of darker violet-teal and vibrant magenta, neon-orange, and soft emerald accents that cover the entire obverse surface. We rate the color an 8.5+. The reverse has a pale golden-peach hue. A couple of tiny ticks under the toning on the obverse define the assigned grade, but they do not detract from the stunning visual allure of this VERY CHOICE and beautifully toned Morgan dollar.

This coin is worthy of a strong bid from the toner aficionado!

LOT 291

\$1 1883-O PCGS MS66

What a great looking toned Morgan! Stunning golds, oranges, and pinks blend with soft blues, violets, greens that really stand out on this beautiful GEM 83-O dollar. The color is the defining factor, which we rate a 9 on our 10-point color scale. The bold luster intensifies the visual effect of the near monster quality of this uniquely toned beauty. Below the color, there are a few tiny contact marks which account for the assigned grade, and noted here only for accuracy. The reverse has a soft, pale gold iridescent tone that is dusted over the sharply struck devices. The eye appeal is truly wonderful!

\$1 1884 PCGS MS64

Oh beautiful, amber waves, purple majesty. No we are not trying to remember the lyrics to "America the Beautiful," we are describing this wonderfully toned 1884 Morgan dollar!

Splashes of vivid lemon-yellow, amber-gold, magenta, rose, violet and blue are captured by the light and brought to life. Accents of textile bag toning "dots" are seen in places. We rate the color a 9 on our 10-point scale and this eye appeal is truly unique! The devices are sharply struck and the eye appeal is amazing! WOW!

We think this GEM is worthy of a very strong bid. After all the great toned dollars to cross this desk, this one is quite memorable.

This is a beautiful borderline GEM! A wonderful mix of pastel and more vibrant iridescent shades of pink, blue, green, orange, and gold meld together in a very unique pattern on the obverse. We rate the color an 8.5+ on our 10-point color scale, but the uniqueness of the waves and angles of the color make it really special. Sharply struck, and devoid of any serious marks in the prime focal areas. The luster is bold and brings the toning to life in a bold way. We are not really sure why CAC did not bean this coin!

Toning collectors take note, this near-GEM is a really neat coin that belongs in any great collection of toners.

Tied for FINEST known. A coin well deserving of that classification!

Remarkably clean and sleek surfaces offer traces of semi prooflike mirrors. When you twirl the coin, you can see them clearly. A full beaming luster adorns both sides. There is a touch of gold by parts of the rims on both sides. The remainder of the coin is a silvery white. This is a GEM ORIGINAL coin. Miss Liberty and the details are exceptionally struck and stand out. You can see the traces of the 6 without a glass. The eye appeal is terrific!

PCGS 18, NGC 7, CAC 13 (obviously a coin has come through multiple times). The last auction sale for a PCGS MS66+ CAC was in October 2020 where a coin brought \$14,100. The current Collectors Universe value is \$16,500. We can see this bringing really strong money due to its great quality and the fact these hardly ever appear. Good luck!

\$1 1890-CC TAIL BAR. PCGS MS65+

Legend Rare Coin Auctions is honored and proud to offer one of the **FINEST KNOWN** 1890-CC Tail Bar Morgan dollars. Not only is this GEM all there from a technical standpoint, but the eye appeal is exceptional! The variety gets its name from the die gouge that connects the eagle's tail feathers to the wreath on the reverse.

This is a beautifully toned GEM! Blazing, swirling cartwheel luster glows boldly and brilliantly from under a multicolored, dappled old envelope toning. Splashes of blue, amber, olive, and russet come together with accents of the underlying original silver surfaces. Sharply struck and very pleasing.

PCGS 2, NGC 0. Neither has ever sold in auction. The last MS65 sold five years ago, and the record is meaningless today. The current PCGS Price Guide value is \$45,000, and it would not shock us if this GEM brought that or more. Bound for a **WORLD CLASS** collection of Morgan dollars. Good luck.

LOT 311**\$1 1890-S PCGS MS64+**

Now for something a little bit different. There are some dates that are known in to come toned: 80-S, 83-O, 84-O, 86, and the like, the 1890-S is not one of those dates. The present near-GEM has a dual band of rainbow toning across 2/3 of the obverse/ We like the look of this one, which rates an 8 out of 10 on our color scale. On top of that, this is a slightly better date in this grade. The strike is crisp and full, and the luster is radiant!

PCGS 144, NGC 59. We anticipate this coin will bring well above published levels. If you are working on a toned Morgan dollar set, this is a date that rarely comes with color like this, so bid accordingly.

LOT 312**\$1 1894-S PCGS MS65+ CAC**

WOW what a totally original album toned GEM! This superior quality 94-S is bested by just twenty coins graded higher, and few could hold a candle to this lovely MS65+, endorsed by PCGS.

A stone bold and brilliantly lustrous example Both sides have iridescent antique clear gold centers and dappled multicolored toning at the periphery, evidence of storage in an old album. The devices are crisp and full. Were it not for a tiny tick this coin likely would have graded higher, but the overall eye appeal is excellent.

PCGS 189, NGC 41, CAC 38. There are 23 in MS65+ at PCGS and just 20 finer. The last two sold in January 2022 for \$9,600 and \$9,905. The PCGS value for an MS65+ is \$8,400. We think that today, if a PCGS MS66 CAC was so come up for sale, it would bring \$15,000-\$20,000! Do not let this ORIGINAL GEM get away! Good luck.

LOT 314**\$1 1899-O PCGS MS67 CAC**

VERY HIGH END! Extraordinary quality for the issue! Bold, rolling cartwheels flow over impressively lustrous surfaces. The devices are well struck with frosty accents that blend with satiny brilliance. Aside from the tiniest, most insignificant trace of contact, the surfaces are ultra smooth and uber-clean. While over 12 million silver dollars fell from the presses at the New Orleans mint in 1899, most either disappeared into circulation or were melted down en masse under the auspices of the Pittman Act. While considered a "generic" date even in grades up to MS66, the population at PCGS and NGC is very much dwarfed by the populations of similarly "generic" dates.

PCGS 220, NGC 125, CAC 99. There are just 47 graded higher. The current CAC CPG value is \$4,060 and the most recent example sold in our April 2022 Regency Auction 51 for \$3,408. This pleasing SUPERB GEM will fit nicely in any set.

LOT 315**\$1 1880 PCGS PR67+ CAC**

We absolutely ADORE this SUPERB GEM! Clearly this gorgeously toned 1880 Proof dollar is among the VERY FINEST KNOWN of the date. One casual glance and you will be in love too!

A gorgeous mix of deeply variegated blue, teal, and violet tones mingles with a sensation blend of rose and orange-salmon, before yielding to a brilliant center on the obverse. The colors really knock you out. On closer inspection, the depth, vibrance, smoothness, and brilliance of the underlying mirrored fields really pops, especially when rotated in a light. The surfaces are ultra clean, free of any distractions from the outstanding visual allure. This coin is TOTALLY original and very high end for the grade, everything about this coin is appropriate for the lofty designation.

PCGS 23, NGC 29, CAC 7. There are just five in PR67+ at PCGS. This is an old friend, a coin we named "Blue Velvet" when we first saw it back in November 2018; back then it sold for \$18,213. The current Collectors Universe value is listed at \$21,500. There are a mere four coins graded higher in the designation, and a PCGS PR68 CAC sold for \$38,168 back in the 2015 ANA auction--that was nearly seven years ago! Do not let this MONSTER SUPERB GEM pass you by! Good luck.

LOT 316**\$1 1883 PCGS PR64+ CAC**

Totally original! Extremely handsome! Neat! These are just some ways to describe this borderline GEM 1883 Proof Morgan dollar. Watery reflective mirrored fields catch the light just right and when they do, they flash nicely, bringing out the rainbow toning at the upper obverse periphery. Deep pewter, slate-blue, and rose dominate both sides, attesting to long term unmolested storage in an old paper envelope or some similar holder. The fields and devices are smooth and free of distracting lines or discolorations of any kind.

Only 1,039 Proofs were struck. PCGS 69, NGC 65, CAC 10. This is the ONLY PR64+ graded at either service and has not been sold in auction since March 2011! The current PCGS Price Guide value of \$5,000 seems low, and only time will tell when the hammer falls by how much. Good luck!

NOTES

LOT 318

\$1 1902 PCGS PR65 CAM CAC

This is a VERY HIGH END GEM 1902 dollar. After 1900, the mint changed the way Proofs were made, and the heavy polishing over the die face left the devices polished as well as the fields. Cameos, unlike on earlier issues are ultra rare. Indeed, all 1902 Proofs are exceedingly RARE in GEM CAMEO!

Superior mirrors are deep and powerful. When you twirl the coin, the mirrors have a full "watery" roll. There are NO problems anywhere. There is some light golden toning on most of the reverse and the rims on the obverse. The contrast is bold. Miss Liberty and the details are well struck and are totally covered by a silvery frost. The eye appeal is totally jaw dropping!

Only 777 were minted. PCGS 1, NGC 3, CAC 2. This coin sold for \$21,600 in May 2022 and prior to that we sold one for \$25,850. The current PCGS Price Guide value is listed at \$30,500. PCGS has graded just two finer, bid accordingly.

\$1 1903 PCGS PR62 CAC

Glossy watery mirrored surfaces have an icy, glass-like smoothness. A few old lines are noted and taken into account for the assigned grade, but they fail to produce an impact on the visual allure. Pleasing iridescent toning graces the surfaces. The reverse especially is razor sharp in strike and has a bold frost that creates a semi-CAMEO like look. The eye appeal is decent for this more modest grade Proof Morgan.

Only 755 Proofs were struck. PCGS 57, NGC 20, CAC 2. The last PCGS-graded example to sell in auction was NOT CAC and sold for \$3,000. The current CAC CPG value is listed at \$4,580. This is a very rare opportunity to acquire an affordable CAC-approved 1903 Proof Morgan.

\$1 1921 PEACE, HIGH RELIEF. PCGS MS64

A visually appealing High Relief Peace dollar. Slightly more than a million examples were struck late in the year, as the mint transitioned from the Morgan to Peace series; 1921 is the only year where the High Relief type was struck for circulation. A satiny mint frost glows boldly on both sides, accenting a decent strike. There are some minor traces of contact but nothing too serious, certainly OK for the assigned MS64 grade. The eye appeal is nice overall.

PCGS 4820, NGC 3789. The most recent example realized \$1,800 in June 2022 and the current PCGS Price Guide value is listed at \$2,250. Keep in mind the value essentially doubles in MS65.

\$1 1922 PCGS MS66

A lovely toned GEM. Clearly this coin sat undisturbed for ages with the reverse against some sort of paper (roll or collector ticket in a tray), which imparts the deep, rich patina on that side. Bands of orange, green, violet, and rose blend together in a more earthen-hued type patina. The strike is bold, and the obverse shows two very distinct die cracks adding to the charm and allure.

PCGS 991, NGC 1544. As toned Peace dollars are much rarer than Morgan dollars, this coin is worthy of a significant premium. Take a look and bid accordingly.

What a blazing, brilliant, luster bomb! WOW. This coin is **BLINDING!**

Sensational cartwheels roll smoothly across the surfaces. Even with the aid of a strong glass you will be unable to locate any marks that have any kind of impact on the outstandingly brilliant surfaces. The eye appeal is exceptional in every way.

PCGS 185, NGC 124, CAC 56. The most recent sold in our Regency Auction 51, realizing \$7,344. Prior to that, the APRs ranged from \$4,700 to \$8,400. Clearly the published levels are incorrect and this beautifully lustrous **SUPERB GEM** will bring a strong bid. \$1 1935-S VAM-4, DOUBLED DIE REV. PCGS MS65 CAC

One of the **FINEST** examples of the TOP 50 Peace dollar VAM varieties. The doubling is mostly noted on the olive branch. What makes this GEM 35-S is not just the variety, but the intriguing and **UNIQUE** toning pattern that developed on the obverse. Words will fail to adequately describe the ring of deep color that forms a collar around Liberty's portrait. The central obverse is untoned, highlighted by the surrounding aubergine and gold tones. The eye appeal is spectacular.

PCGS 786, NGC 402, CAC 158. PCGS has graded just four examples of this VAM-4 in MS65 with just two finer in MS66. The current PCGS Price Guide value for the variety is \$2,050 and we think this coin will bring well in excess, due to its **UNIQUE** toning pattern. Good luck.

PCGS 203, NGC 70, CAC 70. There is a wide range of APRs for PCGS MS66 CAC examples, but the two most recent ones to sell were in our April and May 2022 Regency Auctions, realizing \$5,288 and \$6,169 respectively, the published levels are just wrong! **Rare finer**, we think this one will see very strong bidding. DUPLICATE PATTERNS FROM THE **BLACK CAT** COLLECTION

Four years ago, when we auctioned the Bob Simpson Standard Patterns a new name to us appeared and bought many of them. Our sister company Legend Numismatics then reached out to him and like a kitty out of the woods, they bonded to build one of the greatest coins collections ever. We were surprised to learn this collector had a deep affection for Black Cats. hence his nickname.

"Blackcat." Starting with an intense focus on Patterns, he moved to building a number of sets including the FINEST MS Trade Dollar and MS+PR 20C sets to name a few. Every coin he buys MUST be the best in terms both quality, eye appeal, and rarity. With Legends assistance, Blackcat curates his collection, upgrading and culling duplicates as he goes. In the last couple of years, with the hundreds of patterns coming on the market from the E. Horatio Morgan, Pogue,

and Simpson Collections, and coins that have appeared privately through Legend, Blackcat has accumulated a number of duplicates. With the huge success of our Glorious Patterns Collection, Parts 1 and 2 (sold April and May), Blackcat consigned 18 duplicates from his world class pattern collection! These coins were among the best examples available when they were purchased, either in our auctions, or via Legend Numismatics' representation, both in auction or via private treaty. The coins included are popular types, high grade, and highly attractive examples.

Currently Black Cat has over 500 of the finest Patterns that exist. Any duplicate from his amazing collection is just that-amazing. We can tell you the kitty hopes these patterns end up in good homes where they are appreciated like he did to them. Good luck and a big MEOW!

LOT 327**\$1 1852 J-147. PCGS PR64 RB CAC**

A very challenging pattern gold dollar, in the interesting annular or ring form. Struck in copper with a plain edge, this is a Rarity-7- issue, with about a dozen thought to exist.

What fields exist on this design type feature flashy reflection. The devices are crisply rendered and there is ample original red on both sides. A few minor marks account for the assigned grade but the eye appeal is great.

PCGS 2, NGC 0, CAC 1. It has been nearly five years since this coin appeared in auction, and the market today is much stronger. The current PCGS Price Guide value is listed at \$6,000. Worthy of a fabulous collection of patterns, or advanced collection of gold dollars.

LOT 328**1C 1854 J-161 ORIGINAL. PCGS PR63 BN GOLD CAC**

As the price of copper rose in the 1850s, the large cumbersome cents were becoming outmoded and the mint began experimenting with smaller sizes, different alloys, etc in an effort to bring down production costs. These efforts began in 1850, and would continue into 1856, when the small sized copper-nickel Flying Eagle cent was adopted.

The copper J-160 and the bronze J-161 are virtually indistinguishable from each other save for elemental analysis. These were also struck at two different eras, the originals are thought to weight around 100 grains, while the restrikes were heavier, around 113 grains.

A cornet bust of Liberty similar to the current large cents graces the obverse without stars surrounding. J-161 is struck in bronze with a plain edge, and is considered to be Rarity-4.

Nicely struck and generally smooth, even brown coloration with steely accents that pop when rotated in a light. Nicely reflective and the eye appeal is high end for the assigned grade, thus the coveted GOLD CAC bean.

PCGS 36, NGC 19, CAC GOLD 2. In PR64 BN the PCGS Price Guide value is listed at \$2,250, and it would shock us if this very CHOICE and pleasing example sold for less. This coin will appeal to the burgeoning pattern collector, or the advanced large cent collector.

LOT 329**1C 1854 J-164 ORIGINAL. PCGS PR64 BN CAC**

Like the J-161 above, this popular pattern issue was struck as part of an effort to make the cent more efficient. This die pair was used to strike coins in both copper (J-163) and bronze (J-164). Also, like the J-161, lighter weight planchets are thought to be "originals" and heavier ones "restrikes." Presumably PCGS weighed this coin to ascertain the Original designation it placed on the old green tag.

An eagle flies level on this popular pattern, 13 stars around, date below; the reverse has the denomination within a wreath, UNITED STATES OF AMERICA around. Struck in bronze with a plain edge, this is a Rarity-5 pattern. It is thought 100 were struck in total, between the J-163 and J-164.

Pleasing and near GEM, this coin has sleek, reflective surfaces. Light to medium brown with hints of deep red and gold that pop in a light. Well struck, the eye appeal is bold, worthy of the CAC bean and the Eagle Eye Photo Seal.

PCGS 6, NGC 2, CAC 2. This coin is ex Kagin's March 2017, at \$6,022. The current PCGS Price Guide value is \$5,500. What a great example worthy of placement in a great set of patterns or advanced set of large cents, or Flying Eagle cents. The collectible context for this near-GEM are nearly endless.

LOT 330**1C 1858 J-192. PCGS PR65 CAC**

A fabulous GEM Pattern Flying Eagle cent. Everything about it is high end and totally original. The obverse was struck using the regular issue Small Letters die, while the reverse is struck with a plain oak wreath. This popular transitional pattern was struck on a copper-nickel planchet with a plain edge. Considered to be Rarity-5, there are about 70 graded in all grades between PCGS and NGC, including, no doubt, much duplication.

This GEM has the look! Deeply reflective and flashy fields beam with a golden-tan and iridescent brilliance. The surfaces are nearly pristine, indeed there are more lines and marks on the holder than there are on the coin. The devices are sharply struck up and have precision definition that rendered each detail to its finest, chiseled relief. The eye appeal is superb, and worthy of its lofty grade, CAC approval, and Eagle Eye Photo Seal.

PCGS 10, NGC 3, CAC 4. This coin sold in the 2019 FUN auction for \$5,040. The current PCGS Price Guide value is listed at \$6,500. At this grade level, this coin is of similar rarity to the regular issue Proof 1858 Small Letters Flying Eagle cent, and we sold the most recent of those for \$27,025 in April 2021! In comparison, this rarity seems to be quite reasonable! WOW. Good luck.

Longacre's "Skinny" flying eagle type, is a Rarity-5, 31-75 minted. No question this coin is HIGH END in quality for the modest PR62 grade. Indeed, if this coin was graded PR63 or even PR64 we probably would not have flinched (no guarantees). The golden tan surfaces have apricot accents. Sharply struck, the pressure used to strike this coin was intense, as can be seen by the high wire fin along the rim on the obverse. The eye appeal is great.

PCGS 7, NGC 2, CAC 2. The most recent example to sell was NGC-graded and not CAC, over five years ago. This lovely coin will bring a bid over the PCGS Price Guide value and most APRs; be prepared.

A truly GORGEOUS "Skinny Eagle" pattern cent that pairs this popular obverse with the regular issue reverse. Struck in copper-nickel with a plain edge, this is a Rarity-5 pattern with 30-76 estimated to have been struck.

Exceptional quality everything and one of the FINEST KNOWN. Wonderful original skin is enlivened by a lovely underlying reflection. There are no lines, spots, discolorations, or marks of any kind visible to the naked eye or even under the close inspection with a strong glass. A wonderful GEM.

PCGS 9, NGC 3, CAC 6. The most recent example sold in our Regency Auction 51 for \$7,344. Two other examples sold for \$9,000, which is the current PCGS Price Guide value. There are NONE graded finer making this a PERFECT coin for any advanced collector. Good luck.

A fabulously toned GEM example of Longacre's "French" Liberty head on the obverse with a large 1/2 DOLLAR within a wreath on the reverse. Struck in copper with a reeded edge, this is a Rarity-5 pattern issue, with 31-75 known in all grades. Housed in a first generation "rattler" holder.

Ample original RED coloration blends with a sensationally vivid blue/violet overtone on both sides,

imparting a fabulous look. A few ancient lines are seen on the obverse, hidden below the toning and account for the assigned grade, as the eye appeal is that of an even higher grade.

NOTE: the scuffs and scratches are on the holder, not the coin

PCGS 4, NGC 1. This is as fresh as you can get, the last time a PR65 RB J-240 sold in auction was in Superior's September 2006 auction! The current PCGS Price Guide value is listed at \$4,500 and PCGS has graded just two finer in the designation. Good luck.

This cataloger LOVES this design, it is a favorite of the entire Pattern series! James Longacre's Indian Princess head facing left. Reverse shows an ornately framed Union shield with a large Roman numeral V in the center, IN GOD WE TRUST above. Struck in aluminum with a plain edge. A Rarity-5 Pattern, which suggests 31-75 minted.

Cameo examples of this type are RARE! For an example in aluminum,

this coin has a wonderful, deep reflection that contrasts against the frosty and crisply struck devices. Longacre's design is elegant and simple, yet offers great detail. Vibrant silvery surfaces are devoid of any haze or corrosion that usually plague aluminum planchets, and we note only a few tiny ticks for accuracy, none that detract from the eye appeal.

Ex Harry W. Bass, Jr. Collection, as noted on the insert.

WOW, WOW, WOW! We adore this coin! What a magnificent tiny jewel! Longacre's famed Indian Princess Seated Liberty design on the obverse with the Standard Silver reverse. This is an interesting coin without a country design type, as neither the obverse nor reverse say UNITED STATES OF AMERICA. A Rarity-7-pattern, (7-12 struck) in copper with a reeded edge.

This is an interesting design, as it is Longacre's, but struck two years after his death. Apparently William Barber struck these and were sold in complete Proof Sets from half dime to dollar.

Bright and flashy mirrored brilliance beam and gleam from below a delicate layer of multihued iridescent toning. Shades of blue and orange pop in a light. The devices are razor sharp in strike with complete definition to the design elements. What this coin might lack in size, being only a half dime, it makes up for in HUGE quality!

NOTES

LOT 336**\$10 1874 J-1377. PCGS PR63 CAC**

This is a very important and VERY RARE Pattern issue, the Bickford \$10, named after American businessman Dana Bickford, who, while extensively traveling throughout Europe noted the inconvenience and cost of exchanging coins of one nation for another. His proposal went no where, but officials saw enough merit to produce prototypes. These EXTREMELY RARE Patterns were struck in gold, copper, aluminum, and nickel (as here).

The obverse shows Liberty facing left with a starred crown inscribed LIBERTY and an olive branch tied around her neck. The reverse has the exchange rate value in DOLLARS (10), STERLING (2 Pounds, 1 shilling, 1 penny), MARKEN (41.99), KRONEN (37.31), GULDEN (20.73), and FRANCS (51.81) around, with the weight and standard (16.72 grams, 900 FINE) and the word UBIQUE (which is Latin for ubiquitous). Struck in nickel with a reeded edge, this is a HIGH RARITY-7, with only two or three known in all grades. Typical of the metal, the fields are watery reflective with a delicate dusting of frosty iridescent toning. The hardness of the nickel alloy prevented some minor softness in the reverse center and perhaps caused the obverse die to dramatically crack at 5:00 (all known examples in this alloy display this break). Some minor mint made planchet flakes are noted under a glass and three toning dots (2 on the obverse and on on the reverse) serve as pedigree markers. Housed in an older blue tag PCGS holder.

The Bickford \$10 is part of a very special subset of patterns that were proposals for an international circulating gold coinage. After the Civil War, and the American economy steamed ahead strongly in many different industries and international trade, the desire among businessmen for coins that could be utilized in Europe grew. The earliest was struck in 1868. Other patterns in this series include the 1868 \$5/25 Francs, J-656-659; the Bickford \$10, J-1373-1378; the Stella \$4 patterns of 1879-80, J-1635-1641, J-1657-1662; the 1879 \$20 Quintuple Stella, J-1643-1644; and the Goloid Metric Dollars of 1879-1880, J-1622-1634; J-1645-1656.

This is truly spectacular and high end for the assigned grade 20C pattern. Obverse similar to regular design, but LIBERTY incuse rather than raised. Reverse 1/5 of a dollar in open wreath. Struck in silver with a plain edge, it is a low Rarity-6 with perhaps as many as 30 having been originally struck.

This is a BLAZING and brilliant example that has an amazing CAMEO-like contrast. The fields are incredibly clean for the assigned grade, with just a few minor hairlines on the reverse, nothing that is too distracting from the outstanding visual allure, indeed, we think this coin could end up in a CAM holder one day (no guarantees). The eye appeal cannot be beat! Housed in a first generation PCGS "rattler" holder.

PCGS 2. NGC 0, CAC 2. This coin brought \$11,400 in the 2019 ANA auction, as part of the E. Horatio Morgan Collection, clearly a result of its stunning CAMEO contrast and high end visual allure. We expect it to bring a similar strong price today. As evidenced by our April 2022 offering of the Glorious Patterns Collection, 20C Patterns are in very high demand from advanced specialist collectors. Good luck.

\$1 1876 J-1464. PCGS PR61 CAC

This is an EXCESSIVELY RARE, very desirable Pattern silver dollar! While no silver dollars were coined for domestic circulation between the time the Seated dollar ceased production in 1873 and the start of the Morgan dollar series thanks to the passage of the Bland-Allison Act in 1878, an extensive series of patterns were produced in 1876. These were struck on the heavier 420 grain Trade dollar planchets, making the experts at uspatterns.com to opine that these may have been trade dollar patterns.

William Barber's coveted "Sailor Head" obverse type with small stars and IN GOD WE TRUST. and beaded crown. The reverse shows a simple wreath with ONE DOLLAR inside UNITED STATES OF AMERICA and E PLURIBUS UNUM around. Struck on a silver trade dollar planchet, this is an EXCESSIVELY RARE issue! J-1464 is a Rarity-8 issue, with only TWO KNOWN in all grades!

The design is simple and elegant. Mint Superintendent Pollock sent an example to Mint Director Linderman on August 11, 1876 and Linderman responded that the Liberty head "may be regarded as equal if not superior to any hertofore prepared at the Mint." (see Pollock, page 286).

The present example has a glossy finish, over highly reflective surfaces. Being ex Farouk (see full pedigree below), it is possible that the Egyptian ruler wiped this coin at some point while it was in his possession. We note that it has not impacted the extreme brilliance of the mirrored fields. Well struck, this coin has overall a great look for the grade with distinct claims to CHOICE!

What a glorious design! Really what a marked improvement this design would have been to replace the Seated Liberty type! Charles Barber's famed so-called "Society" or "Wash Lady" design, one of the most popular and avidly sought pattern designs in the whole expanse of the Judd reference, one that gained its nickname back in New York Coin & Stamp's April 1891 auction. Struck in silver with a reeded edge, this is a Rarity-6- pattern, with just 21-30 known in all grades.

The near-GEM surfaces are watery and highly reflective under the rich, dappled multicolored toning. Shades of amber, gold, rose, teal, and violet pop as the surfaces are rotated in a light. The devices are generally well struck and boast thick frost that contrasts nicely against the surrounding fields. Just a light line on Liberty's cheek, which will forever be a pedigree marker, keeps this coin from a GEM grade.

PCGS 1, NGC 0, CAC 1. The current PCGS Price Guide value is listed at \$12,000. Just three are graded higher in the CAM designation. Worthy of a fantastic Pattern type set. A popular type with lots of demand from collectors.

What a great opportunity to be able to acquire a SUPERB example of this very RARE silver dollar pattern, the J-1611 is very rarely offered! Do not let the fact we have offered two distinct SUPERB GEM examples in the past fool you!

Regular issue Morgan dollar obverse paired with Morgan's large eagle perched holding olive branch and arrows. Struck in silver with a reeded edge, this is a challenging Rarity-7-pattern, with perhaps as many as a dozen known in all grades and this one is among the VERY FINEST KNOWN.

Deep, beaming, reflective mirrors are the ultimate in cleanliness and clarity! George Morgan's design elements are crisply embossed on both sides and are fully frosted, combining with the mirrors for a full CAMEO contrast. Flawless icy surfaces are smooth and totally problem free. We expect this SUPERB GEM to be a centerpiece in a world class collection of Morgan dollars or major pattern rarities!

This coin sold in the 2021 ANA auction for \$4,320 and the current Collectors Universe value is listed at \$6,500. The only other RB to ever sell was an NGC PR64 RB that sold back in February 1992! This is a **VERY RARE** and undervalued Pattern half dollar worthy of a very strong bid!

PCGS# 70991 | EST: \$4,000+**LOT 350****5C 1870 J-807. PCGS PR67 CAC**

Ex Simpson Collection, as noted on the insert.

A **VERY RARE** low Rarity-7 Shield nickel pattern, struck from regular issue dies on a thin planchet. It is speculated by pattern expert, Saul Teichman that these were struck on three cent nickel planchets. If all known examples were weighed, we would know for sure. This is the **SINGLE FINEST** example of exactly 7 that have been certified by PCGS and NGC combined.

Deep, ultra reflective mirrors beam boldly all over and are in a stunning state of preservation, devoid of any issues. The details are bold and fully struck from an exacting blow from the dies. Both sides are a blazing nickel-silver with bold cameo contrast. The eye appeal is amazing!

PCGS 1, NGC 0, CAC 1. This coin brought \$9,600 in January 2021 and the current Collectors Universe value is listed at \$12,000. There are **NONE FINER**, and this is a very **RARE** pattern Shield nickel that will fit into any world class Shield nickel set or in a specialized pattern cabinet. Good luck.

LOT 351**25C 1870 J-879. PCGS PR67+ BN CAC**

Ex Simpson Collection, as noted on the insert.

William Barber's Seated Liberty/Standard Silver type, struck in copper with a plain edge, this is the **FINEST KNOWN** of this Rarity-6+ (13-20 known).

Mega watt mirrors are as deep as you will ever see. The mirrors are clean and crystal clear. When you twirl the coin, the mirrors look like a freshly made sheet of glass. **MONSTER** colors of original brown/blue/gold swirl all over. Picasso could not do a painting as wild! Miss Liberty and the details are frosty and pinpoint sharp in strike. The eye appeal is totally jaw dropping!

PCGS 1, NGC 0, CAC 1. This coin realized \$13,800 in August 2021. The current PCGS Price Guide value is listed at \$15,000. but in light of the quality and eye appeal this is an important coin that would seem reasonable at virtually any level. Once this one disappears into the vast black hole of collections, who knows when it will be available again, don't let it get away!

PCGS# 61123 | EST: \$15,000+

LOT 352**\$1 1873 J-1281. PCGS PR64 CAC**

A high end PR64 Bailly Head Trade dollar pattern that has distinct claims to a full GEM classification. Liberty's head faces left with stars around. Her hair is tied in an intricate bun and wears a crown of leaves. The reverse is William Barber's Standing Eagle, holding a shield. The motto *E PLURIBUS UNUM* above. Struck in silver, with a reeded edge. Considered to be Rarity-4.

Deeply and richly toned with shades of pale blue, lilac, and pewter with accents of amber on the reverse. The fields have a watery reflective brilliance that contrasts against the devices. The reverse shows some weakness on the reverse, which is typical of the type, rarely are they fully struck in the centers. The eye appeal is excellent in every way.

PCGS 10, NGC 8, CAC 1. No CAC-approved example sold in auction, but a PCGS PR64 sold in April 2020 for \$5,640 and a PCGS PR65 CAC sold for \$14,400 in April 2018. We know this coin will bring close to the Collectors Universe value of \$7,000. RARE any finer, this near-GEM will delight any collector.

PCGS# 61566 | EST: \$5,500+

LOT 353**T\$1 1873 J-1310. PCGS PR64+ CAC**

A fabulous and totally original, awesomely pedigreed GEM example of this popular Trade Dollar pattern.

Barber's Indian Princess design on the obverse, adopted from the earlier Longacre design, shows a seated Liberty figure with an Indian headdress seated, holding a pole with Liberty cap, and supporting a globe with the word LIBERTY and flags behind. The reverse is a small perched eagle with olive branch and arrows in the talons. E PLURIBUS UNUM in a scroll above, IN GOD WE TRUST in a scroll below. Struck in silver with a reeded edge, this is a Rarity-4 type.

Exceptional quality, and one of the finer examples extant, PCGS has graded just five finer. Classic, old time blue, rose, and gold toning bathes the surfaces in totally original patina. The devices are sharply struck and they stand out against the watery mirrored reflective fields. The eye appeal is outstanding in every way!

Ex Stack's March 1976 sale of the John Work Garrett Collection for The Johns Hopkins University, lot 666; Blue Moon Collection, Stack's Bowers March 2017, lot 2645.

PCGS 13, NGC 8, CAC 6. There are just two in PR64+ at PCGS. This coin sold back in March 2017 for a record \$16,450. The current PCGS Price Guide value is listed at \$9,250 and in our opinion, this coin has an overall better look than the vast majority of known specimens, including those graded higher. A wonderful opportunity not to be missed!

LOT 354**\$1 1879 J-1622. PCGS PR63**

A CHOICE Goloid Metric Dollar Pattern featuring George Morgan's rarely used head of Liberty with her hair tied up in a bun with a ribbon inscribed LIBERTY. The reverse is the standard Goloid reverse with the composition in a beaded ring in the center, surrounded by an agricultural wreath, GLORIA EST DEO in a cartouche above. This is a Low Rarity-7 pattern with 7-12 estimated in all grades. The Goloid Metric Dollar type was part of the proposal for an international coinage that could easily exchange in Europe, and is directly related to the ever popular \$4 Stellas and ultra rare \$20 Quintuple Stellas.

The present coin is delicately toned with iridescent pastel hues over watery mirrored fields. Sharply struck up and crisply rendered devices stand out nicely. The eye appeal is decent for the type and grade.

PCGS 3, NGC 1. No PCGS-graded PR63 has ever sold in auction. The PCGS Price Guide value is listed at \$9,000 and back in August 2011 a PCGS PR64 sold for \$14,950. We think this coin will attract very strong bidding from the pattern specialist. Good luck.

LOT 355**\$1 1849-O PCGS MS64 CAC**

A sparkling lustrous near-GEM example from the first year of the gold dollar denomination.

Ultra brilliant mint lustrous yellow-gold surfaces gleam and glow boldly across both sides. A sharply struck jewel with great visual allure. Only with the aid of a strong glass can you find the tiny mark or two that keep it out of a GEM holder. Needless to say the eye appeal is great.

PCGS 22, NGC 28, CAC 11. The current PCGS Price Guide value is listed at \$6,000 and the CAC CPG value is \$6,470. It has been almost two years since the last one sold. Bound for a great set of gold dollars.

LOT 356**\$1 1851-O PCGS MS65+ CAC**

This is a stunning GEM example of this popular New Orleans mint Type 1 gold dollar.

Vibrantly lustrous surfaces gleam boldly with a frosty, satin like brilliance. Both sides are indeed crisply struck up with very little weakness seen anywhere. The surfaces are clean and free of any marks, lines, or discolorations. The color is gorgeous, a warm medium yellow-gold. We have not been able to stop admiring the sensational eye appeal of this GEM. To look at it is to really appreciate its high end quality.

PCGS 26, NGC 17, CAC 8. PCGS has graded 4 in MS65+ with just four finer. The ONLY PCGS MS65+ to ever sell sold in February 2016--that was over six years ago. The current Collectors Universe value is \$12,500 and it jumps to \$27,500 in MS66. This is a real prize of a gold dollar, do not let this opportunity pass you by!

PCGS# 7516 | EST: \$12,000+

LOT 357

\$1 1852-C PCGS MS64 CAC

Only 9,434 were struck, making this a scarce date in any grade, usually seen in VF or XF grades. No question this is one of the **FINEST KNOWN** 1852-C's that still exist. In our humble opinion, it is a crime that it is not a "+" and had it been an MS65 we would not have flinched.

This really is a **KILLER** quality near-GEM! Remarkable surfaces are extraordinarily clean and sleek. They have bold semi Prooflike mirrors, in fact, we grade the reverse a full MS65 PL and there is some slight contrast. Of course the luster is strong and ultra brilliant. Both sides are a totally original GEM Yellow gold color. There are **NO** spots or discolorations. Miss Liberty and the details are fully struck and stand out. The eye appeal is great!

PCGS 8, NGC 9, CAC 4. There is a complete dearth of auction data. A non-CAC example sold in an August 2020 internet only auction, but the last one to sell in a major auction was the BassII:61 coin sold in October 1999! That coin realized \$20,700, way back in 1999! The lone MS65 last sold in 1992. WOW does that say a ton about the rarity of this coin! The current Collectors Universe value is listed at \$27,500. We strongly feel the potential of this coin is unlimited! This coin belongs in a GEM C Mint, Gold Dollar set, or a Superb box of 20. We can't say enough about the great value offered here!

\$1 1887 PCGS PR67+

We do very much consider this coin a borderline PR68. The quality is remarkable!

Deep and glittering mirrors adorn both sides. There is one tiny well-hidden tick that is all we think that keeps this coin from a PR68. The mirrors also offer strong clarity. When you twirl the coin, the mirrors look like a freshly formed sheet of ice. The contrast is strong and borders full cameo status. Miss Liberty and every detail look razor sharp and standout with thick frost. The eye appeal is exceptional!

PCGS 1, NGC 0. This is the ONLY PR67+ graded by PCGS. There are no auction records for either a 67 or 67+ ever selling. The current Collectors Universe value for a 67 is \$22,500. Remember, this is a + and is worth much more! Good luck!

LOT 361

\$2.50 1846 PCGS MS63 CAC

One of the, if not the **FINEST** graded 1846 quarter eagles! This coin is **VERY HIGH END!** There were only 21,598 struck for circulation, and they did just that, circulate. Mint State examples are quite challenging and PCGS has never graded any finer than MS63! David Akers noted that the 1846 was a "very scarce and generally under appreciated date....As the auction records show, specimens better than EF are extremely rare."

An intense luster shows off slightly Prooflike surfaces. Only when using a strong glass can you see a few ticks and lines (some of these are die polish lines). Nothing is serious. Both sides are a brilliant, even gold color, and there is no "dirt" or "crust" just fabulous as struck surfaces! Miss Liberty and the details are frosted and fully struck. There is light contrast. The eye appeal is **AMAZING!**

PCGS 3, NGC 2, CAC 2. The other CAC coin is NGC-graded and sold for \$26,400 in January 2022. The PCGS Price Guide and CAC CPG are not up to speed and this coin, with its better visual allure than the NGC-graded coin, will sell for way more--our consignor paid \$36,500 for it!

LOT 362

\$2.50 1850-O PCGS MS62 CAC

This is a wonderful CHOICE Mint State example of a very rare New Orleans date. While 84,000 were struck, PCGS CoinFacts estimates that only 225 survive in all grades.

Just a few small and light traces of contact are scattered about, but it is not even close to being "chewy." A full booming luster beams boldly from all over on both sides accenting a gorgeous, brilliant yellow gold color. There are no discolorations or spots anywhere. Miss Liberty and the details are "as struck" and exhibit some softness. The details do look good though. The eye appeal is super lively and terrific!

PCGS 11, NGC 2, CAC 2. PCGS has graded possibly 4 coins finer, while CAC has approved 3. The published price guides are behind for ALL Mint State examples of this date. This coin has been off the market for many years. Just a handful have been graded finer at PCGS. We can't stress enough the rarity and opportunity here!

\$2.50 1851 PCGS MS65 CAC

A VERY HIGH END GEM specimen! Truly an ideal coin for the type or date collector who demands the **FINEST** quality! It is hard to put down, the eye appeal is that amazing!

Exceptionally clean, only with a strong glass can you see some scattered microscopic ticks/frost breaks, really not even worth mentioning, cited here for the sake of full disclosure. A serious glowing luster beams from all over, enlivening the brilliant yellow gold color. You can actually detect light contrast. There are **NO** spots or discolorations anywhere. Miss Liberty and the details are fully struck and have delicate frost. The eye appeal is wonderful!

PCGS 5, NGC 9, CAC 2. No PCGS CAC MS65 has ever been sold via auction, and the last non-CAC PCGS coin sold back in 2016. Coins like this are rarely offered and the published levels are just wrong! PCGS has graded just two finer, a single MS66 and a MS67. This will be a more than welcome addition to any great Liberty \$2.5 set!

PCGS# 7759 | EST: \$10,000+

LOT 364**\$2.50 1857 PCGS MS63+ CAC**

How can PCGS only grade this coin an MS63+? It is so high end, we wouldn't flinch if it were MS64 (we make NO promises).

Overall, the surfaces are super clean and smooth, only when using a strong glass can you find some scattered pinpoint ticks mostly on the reverse (and we mean tiny). A bold glowing luster beams from all over. Both sides are a brilliant yellow gold color. There actually is some slight contrast. Miss Liberty and the details are frosty and are fully struck. The appeal is fabulous!

PCGS 30, NGC 42, CAC 7. PCGS has graded only this coin in MS63+. Published prices are not up to snuff on most gold like this. This coin is a little monster!

LOT 365**\$2.50 1869 PCGS MS63+ CAC**

This is an AMAZING 1869 quarter eagle A RARE date, one of only 4,320 struck, and this one is the SECOND FINEST GRADED at either service.

Immaculate quality! Truly high end and visually stunning! Razor sharp devices stand out boldly against highly reflective, semi-Prooflike lustrous fields. Brilliant yellow-gold surfaces sparkle in the light! The surfaces have some minor ticks none of which impact the visual allure in any way, and we would not be shocked if one day, this coin ends up in a higher grade holder (no guarantees).

PCGS 5, NGC 1, CAC 3. This is the ONLY MS63+ graded, and PCGS has graded just a single MS64 finer. The only PCGS MS63 CAC brought nearly \$13,000 back in 2015 and the MS64 sold for just shy of \$20,000 back in 2014. The current Collectors Universe value is listed at \$17,500 and this marvelous condition rarity belongs in the FINEST of sets, do not let it get away! Who knows when another might make an appearance on the market? Do take this opportunity lightly.

LOT 366**\$2.50 1871 PCGS MS64****CAC****WOW, WOW, WOW!**

Among the FINEST graded and this coin is more deservedly so! Only 5,230 were struck, and this is one of about 200 estimated to survive, and this date, needless to say is VERY RARE in any Mint State grade.

Fantastic surfaces are semi-Prooflike. You don't have to imagine the mirrors. There are just a few tiny, scattered

ticks that can only be seen when using a glass. The luster is intense. Both sides are a brilliant yellow gold color and as you rotate the coin in a light you will not be able to find any spots or discolorations. You can see light contrast. Miss Liberty and the details are sharply struck and do offer pronounced frost. The eye appeal is great!

PCGS 8, NGC 3, CAC 1. PCGS has graded only two finer. No PCGS MS64 CAC has ever sold in auction, but we sold a PCGS MS65 CAC for \$43,475 in our July 2018 Regency Auction. The PCGS and CAC Price Guide values are way out of whack for a coin of this quality and importance. Those in the know, know exactly how important this opportunity is and it cannot be overlooked!

PCGS# 7813 | EST: \$15,000+**LOT 367****\$2.50 1911-D STRONG D. NGC****AU58 CAC**

The Indian Head quarter eagle series is short and completable with just 15 different date/mintmarks for the collector to acquire. While there are some dates that are conditionally rare, the only key date to the series in all grades is the 11-D. This "GEM" AU has a lot to offer. If it were not for the most minute friction on the fields (the highest surfaces on this incuse struck design), this coin would have graded in the Mint State range--it is the definition of a superslider. The eye appeal is great.

PCGS 779, NGC 1506, CAC 131. First we think there is a lot of duplication of submissions in this grade, in hopes of getting a Mint State grade. The current Collectors Universe value is listed at \$5,500 and the CAC CPG value is \$6,220. Worthy of careful consideration and placement in a nice set of \$2.50 Indians.

PCGS# 7943 | EST: \$4,000+

LOT 368

\$2.50 1914 PCGS PR65 CAC

The silent "stopper" for the series! We are pleased to offer this VERY HIGH END, GEM quality example. The original mintage was only 117, the second lowest of the Proof Indian quarter eagle series. Today it is estimated that 70-90 survive in all grades.

As expected, the surfaces are pristine. The Matte texture is clear and there are no shiny spots anywhere. The color is a totally ORIGINAL (so many were messed with because of lack of luster). This one is awesome, with a wonderful pale olive deeper gold color. Every detail is needle sharp in strike. The eye appeal is unbelievable!

Only 117 Proofs were struck. PCGS 9, NGC 19, CAC 2. Take a look at those figures: that speaks VOLUMES to how these typically come. This is the coin that sold in August 2021 as part of the Castle Pines Collection. The current Collectors Universe value is \$45,000. This is the first example we have handled since 2017! Worthy of a great set of Proof gold or a box of 20 very special coins! Good luck.

\$3 1854 PCGS AU53 CAC

Just a hint of circulation is seen on both sides of this "crusty" and CHOICE AU \$3 gold piece. Totally original with orange and olive green gold color. Soft satiny luster clings to the protected areas. A very nice, lightly circulated example from the first year of this odd denomination.

PCGS 549, NGC 483, CAC 27. It's been nearly a decade since the last PCGS/CAC AU53 sold in auction, way back in December 2013! The current PCGS Price Guide value is listed at \$1,600 and the CAC CPG value is \$1,870. A neat type coin for the collector on a budget who still wants high end eye appeal and originality.

NOTES

LOT 370

\$5 1813 PCGS MS63+

A classic early gold type! The so-called Fat Head five is a very challenging series to collect by date, chock full of rarities that routinely bring six and sometimes seven figure prices when appearing on the market. The 1813, the first year of issue happens to be the most common, with an original mintage of 95,428. The entire mintage was produced by two different die pairs, this one, BD-2 is the scarcer of the two with about 150-200 known in all grades, and listed as Rarity-4 in the Bass-Dannreuther reference.

A wonderful and original looking CHOICE Mint State example. Warm, honey gold coloration is enlivened by a satiny and bold underlying luster that glows with a strong brilliance. A few minor ticks keep it from grading even higher, but this is a very CHOICE example of this very popular type.

PCGS 3, NGC 2. The only MS63+ to sell was an NGC coin that sold over a decade ago. The current PCGS Price Guide value is listed at \$37,500 and we expect this one to bring a bid close to that. Do not let this one get away.

PCGS# 8116 | EST: \$28,000+

LOT 371

\$5 1844-O PCGS MS63+ CAC

Among the **FINEST** PCGS graded 1844-O half eagles, this is an amazing quality and eye appealing coin that has distinct claims to an even higher grade! While 364,600 were struck for circulation, making this one of the more common New Orleans mint fives, it is **EXTREMELY RARE** so fine!

This coin is tied for second finest graded at PCGS, with just a single MS65 graded higher (that coin, ex Bass Collection has not been sold in auction since October 1999!). This is the **FINEST** PCGS-graded example that will be available to collectors any time soon!

An **OUTSTANDING** example. Both sides are vividly brilliant and vibrantly lustrous, offering a glorious satiny sheen that melds to a light reflectivity in the fields. Crisply struck devices show off full, razor sharp definition throughout. The reverse die was broken when this coin was struck, you can see a number of die cracks within the legends. The surfaces are generally clean, we note a few tiny ticks and "giggles" that keep this coin from an even higher grade, but will serve as pedigree markers for the next owner. The rich golden color adds dramatically to the eye appeal, which is off the charts awesome.

PCGS 11, NGC 14, CAC 6. PCGS has graded 3 in MS63+, and we think this coin appears a few times on the Population figures. The only recent "comp" was back when this was an NGC MS63+ CAC that sold five years ago! The Bass MS65 still holds the record price for this date, but in 2022, this coin should exceed the record from 23 years ago! This is a **REAL PRIZE** for the advanced collector that cannot be missed! Good luck.

PCGS# 8222 | EST: \$35,000+

LOT 372**\$5 1854-D LARGE D. PCGS AU53 CAC**

A very attractive and high end looking CHOICE AU 54-D half eagle. One of the more common dates in lower grade, like all branch mint gold, CAC approved examples are quite RARE in all grades.

Only a hint of friction can be seen on the surfaces of this lovely toned, totally original example. Orange and greenish gold accents are brought out by a sensational surviving luster.

The strike is bold and the surfaces are generally clean and free of distracting marks from its brief time in circulation. The eye appeal is VERY HIGH END for the assigned grade.

PCGS 32, NGC 21, CAC 4. No CAC-approved AU53 has ever sold in auction. The PCGS Price Guide value is listed at \$6,000. We think this one is worthy of a strong bid, the Fairmount Hendricks coin, a similar looking AU58 CAC sold for \$11,400 in April 2022. If you are looking for a single CHOICE Dahlonega half eagle, take a good look at this beauty!

PCGS# 8258 | EST: \$5,000+

LOT 373**\$5 1857-D PCGS AU58 CAC**

According to branch mint gold experts, the 1857-D is historically an underrated and undervalued date from an original mintage of 17,046.

This is a GEM AU58! Any wear is limited to the slightest friction and is barely visible, even with the aid of a strong glass. The devices show bold definition from an exacting blow and the surfaces are unmolested, unconserved, and totally natural and original. The eye appeal is exceptional in every way!

PCGS 17, NGC 25, CAC 7. The two most recent examples to sell each realized \$19,200 (April 2022 and October 2021). The current PCGS Price Guide value is listed at \$20,000 and it needs to be noted that it has been over five years since any Mint State coin graded by PCGS has sold. The single finest is a PCGS MS63 that has not been sold in auction since the second Bass Sale back in October 1999! Do not let this important borderline Mint State example get away. Good luck.

PCGS# 8273 | EST: \$17,000+

LOT 374**\$5 1861-S PCGS XF45+ CAC**

How rare is this Civil War date? PCGS has only graded 9 coins higher while CAC has beamed only 2! That says a ton about how this coin does NOT come! From a mintage of only 18,000, the vast majority went right into circulation, and they remained there for a long time. To date, PCGS has never graded a Mint State example! PCGS CoinFacts estimates that 60 examples are known in all grades, and a number of known examples show serious issues that would

preclude grading, such as harsh cleaning, polishing, scratches, etc. In David Akers' auction survey, no example above XF was recorded! A generation or two ago, Akers said this date was grossly underrated, and we agree with him in 2022!

Smooth surfaces reveal only the most microscopic, scattered ticks when using a strong glass. There actually is some light luster left. Most important about this coin, it has NOT been cleaned or messed with. Both sides are an even gold color, with zero spots or discolorations. Miss Liberty and the details show only the lightest and most even wear. The eye appeal is really great!

PCGS 7, NGC 5, CAC 4. THIS IS THE ONLY XF45+. This coin has never sold via auction. Actually it just came back to the market after being gone for many years. A PCGS XF45 CAC from the Hendricks Set sold in April 2022 for \$16,800 and this coin is way more brilliant! The current Collectors Universe value is \$18,500. The quality and rarity of this coin are undisputable! Only nine are graded finer at PCGS, the finest being a single AU55 that has never sold in auction. The market for these rarities has truly evolved in the last two years and we expect this coin to bring a very strong bid when the hammer falls. Good luck.

PCGS# 8291 | EST: \$15,000+

LOT 375**\$5 1870-S PCGS AU58 CAC**

Ex Fairmont Collection, as noted on the insert.

Tied for FINEST GRADED and one of the stoppers in the series. Only 17,000 half eagles were struck, and these saw extensive circulation in the west. Today, after years of use, abuse, and attrition, fewer than 100 examples are estimated by the experts at PCGS CoinFacts to survive in all grades, and there are NONE in Mint State! David Akers explained that most are apt to be well circulated, mostly in the Fine-VF range.

Virtually Mint State, this impressive AU58 shows only the slightest hint of friction on the devices and in the fields. The details were crisply rendered by an exacting blow from the dies, and while there are some minor ticks, the surface are not hacked up and the eye appeal is exceptional for this unbelievably RARE half eagle date.

PCGS 4, NGC 2, CAC 2. This coin realized a record price in April 2022 as part of the Hendrick's Set. PCGS has put a value of \$25,000 on it. NONE are finer. About as close to a full Mint State piece as you could hope for. Do not let it get away!

LOT 377

\$5 1887 PCGS PR60 CAM CAC

The 1887 is a MAJOR RARITY, struck only in Proof format, and only 87 were produced! Today, John Dannreuther estimates 35-45 survive to this day. Unlike other Proof issues, the 1887 has the largest population of circulated and impaired examples, as no Philadelphia mint \$5 gold pieces were struck for circulation.

An "affordable" example of this major rarity! While this piece was clearly in the possession of a non-collector at some point in its lifetime, resulting in some minor lines and chatter, the fields are still fully reflective, with bold mirrors. With a glass you can still see traces of the original orange-peel texture. The devices, likewise retain significant frost, which produces a dramatic cameo contrast. WOW! This coin is truly special for the collector who cannot afford a GEM grade example.

Only 87 examples were struck for the entire year, all Proofs. PCGS 1, NGC 0, CAC 1. Prior to this coin selling for \$34,075 two years ago in our Regency Auction 39, the only comparable examples sold over a decade ago! A PCGS PR58 last sold in September 2007 and an NGC PR61 last sold in October 2005. The current Collectors Universe value is listed at \$40,000. What a great opportunity for the collector of \$5 gold pieces that cannot be passed up!

\$5 1903 PCGS PR64+ CAC

What a spectacular Proof Liberty Head half eagle! This coin has many distinct claims to a GEM grade, we have zero doubt in the old days, it would have been called a GEM. Only 154 Proofs were struck using a single pair of dies, and current survival estimates range from about 90-110 known.

Brilliant, highly reflective golden surfaces gleam and beam from all over. The mirrors are sleek and smooth, devoid of any lines or any kind of marks visible to the aided or unaided eye. The details show razor sharp definition and the richness of the brilliance shines off of the satiny texture of the devices. The reverse shows a near-Cameo like contrast adding to the outstanding visual allure! WOW!

Only 154 Proofs were struck. PCGS 14, NGC 9, CAC 2. This is the SOLE PR64+ graded in the designation. The current Collectors Universe value is listed at \$22,500. While this coin recently sold for \$20,400, it should be noted that no non-CAM GEM example has sold since 2016! This is a stunning Proof type coin or a perfect example for your set of 20th century Proof gold. Either way, it will see strong bidding. Good luck.

LOT 379**\$5 1909-D NGC MS63+ CAC**

A sharp and totally original CHOICE \$5 Indian. Satiny lustrous surfaces gleam all over this example, enlivening the warm honey surfaces. A few minor marks are all that keep this from a loftier grade.

PCGS 11934, NGC 8774, CAC 1161. NGC has graded 115 in 63+. The most recent sold in April 2022 for \$1,440 and the Collectors Universe value is listed at \$2,250. A lovely coin worthy of a type or date set. Good luck.

PCGS# 8514 | EST: \$1,200+

**LOT 380****\$5 1909-D NGC MS64+ CAC**

A pleasing and handsome near-GEM example of this popular type. Sharply struck and satiny lustrous, this coin has a wonderful, original coloration. We like the look very much.

PCGS 3545, NGC 3005, CAC 611. There are 100 in MS64+ at NGC. The current Collectors Universe value is \$4,500 and we expect this coin to fit nicely in a 20th century gold type set. Do not overlook this lovely coin.

PCGS# 8514 | EST: \$3,000+

**LOT 381****\$10 1847-O PCGS AU53 CAC**

While the most common New Orleans No Motto \$10 overall, this date is quite scarce with CAC approval. This is a wonderful and totally original example with rich olive-gold patina over lightly circulated surfaces. The eye appeal is bold, unmarred by any serious contact--this is not a hacked up example as sometimes seen.

PCGS 62, NGC 204, CAC 8. No CAC-approved AU58 has ever sold in auction. The current CAC CPG value is \$2,620 and the PCGS Price Guide is \$2,500. We think that this coin has a very handsome look and will delight any gold collector.

PCGS# 8598 | EST: \$2,000+

LOT 382

\$10 1854 PCGS MS62 CAC

Ex The Fairmont Collection, as noted on the insert.

This is a major condition rarity in the No Motto Liberty series, and the present example is SUPER HIGH END! If you have ever seen a No Motto \$10 in Choice Mint State, you'll know how great of a coin this is. We do not think PCGS showed this coin any mercy!

Overall, to the naked eye, the surfaces appear clean, and only when using a strong glass can you see any kind of tiny scattered ticks. A surprisingly brilliant and glowing luster beams from all over. Both sides are a 1000% totally original gold color, but it is NOT a "dirty" coin and is totally unmessed with. There are NO spots or discolorations. Miss Liberty and the details are frosty and are well struck. The eye appeal is super and looks like a 63!

There is just something about No Motto eagles from the 1850s that are very charming. They are truly conditionally scarce coins, the vast majority disappearing into circulation during the Antebellum, with very few quality pieces for collectors to pursue. The 1854 is a great example, the original mintage was modest, only 54,250 were struck. David Akers wrote that the "1854 is a rare date in any condition, and in AU or uncirculated condition it is very rare."

PCGS 7, NGC 2, CAC 6. This beauty sold in the April 2022 sale of the Hendricks Set for \$24,000. The PCGS Price Guide value is \$25,000 and the CAC CPG is \$25,900. Just five coins, no doubt including some duplication, are graded higher at PCGS, just a single coin is CAC approved and NONE of these have ever sold in auction. This is a very important opportunity for the collector. Once this CHOICE example sells, who knows when you will have another opportunity! Good luck.

LOT 383

\$10 1892-O PCGS AU58

Essentially uncirculated, this coin has minimal friction and only some minor abrasions from a brief time in circulation. A fully vibrant luster accents tangerine-rose gold toned surfaces. Only 28,688 were struck.

PGC 98, NGC 116. None have sold in the recent strong market. The current Collectors Universe value is listed at \$1,375. A lovely New Orleans mint \$10 that is scarce in Mint State.

\$10 1893 NGC MS63

A vibrant and satiny lustrous CHOICE example sold in a slightly older generation NGC holder. Sharply struck and totally original the eye appeal is very pleasing.

PCGS 5147, NGC 7557. The current Collectors Universe value is listed at \$1,750 and there have been several recent examples that sold for \$1,440. The Collectors Universe value is listed at \$2,300 in MS64. Despite the lack of CAC bean, this is a very pleasing example for a CHOICE type set or any gold holding.

LOT 385

\$10 1897 PCGS MS65+ CAC

A very glamorous coin! We agree this coin is also VERY high end!

Only a few very light and trivial frost breaks/ticks keep this coin from full MS66 status. Overall, the surfaces are super clean and super satiny smooth. A strong luster enhances a very neat display of original greenish gold that frames the rims and opens into deeper light orange gold. There are NO stains or discolorations. Miss Liberty and the details are fully struck and have light frost. The eye appeal is beautiful!

PCGS 17 NGC 20, CAC 3. PCGS has graded 2 coins in MS65+ (with 4 MS66's higher). The current Collectors Universe Value is \$10,000 (remember NONE have ever traded).

PCGS# 8737 | EST: \$9,000+

LOT 386

\$10 1899 PCGS MS66 CAC

Hey, hey, hey! What a wonderful example of a much mis-aligned date!

Superior surfaces are extra clean and smooth. With a strong glass all you can see are a few frost breaks/ticks. A strong luster shows off deep original gold colors that have a coating of light toning. This is not a "dirty" coin at all nor are there any spots. Miss Liberty and the details are fully struck and stand out. The eye appeal is fantastic!

PCGS 12, NGC 24, CAC 5. PCGS has only graded three coins higher. The last PCGS CAC piece to sell in a major auction brought \$17,625 in January 2015 (which was a weak sale). That was forever ago too. The current published prices are all wrong since NONE have been sold publicly for years. We assure you; this date and grade is not common by any stretch.

LOT 387

\$10 1901 PCGS MS64+

A lovely borderline GEM. Sharply struck and boldly lustrous the surfaces have a thick golden frost and are ultra clean. The only "flaw" is a minor curving incuse mark where something came between the die and planchet creating a "strike through" error (not noted on the holder). Very cool.

PCGS 756, NGC 437. The PCGS Price Guide value is listed at \$3,000 and this "strike through" will entice strong bidding.

PCGS# 8747 | EST: \$2,000+

LOT 388**\$10 1901-O PCGS MS64 CAC**

Among the FINEST approved by CAC, this near-GEM is bested by just five coins at PCGS. Only 74,041 pieces were struck at the New Orleans Mint this year, and while this date and Mint is obtainable up through the grade of MS62, finer pieces are tough to locate. Doug Winter believes that the top coins listed in the PCGS and NGC (MS66) data are represented by a single example which increases the stature of this piece.

A bold, delightfully lustrous and totally original example. The surfaces gleam with a sweeping cartwheel brilliance. Rich, original orange-gold toning graces both sides, and the surfaces are not hacked up like most of the examples repatriated from overseas holdings.

PCGS 21, NGC 5, CAC 8. PCGS has graded just five coins finer, four in MS64+ and a 66. The most recent comp was the PCGS MS63 CAC from the Fairmont-Hendricks Collection which brought \$9,300 in April 2022. We sold a PCGS MS64+ CAC back in 2015 for \$10,869. We think this coin will realize in excess of current published levels. Do not let this important condition rarity slip your grasp. Good luck.

PCGS# 8748 | EST: \$7,000+

**LOT 389****\$10 1901-S PCGS MS63 GOLD CAC**

WOW, WOW, WOW! This coin has it all! Do NOT look at the grade on the holder, look at the coin! This coin is a GEM! This is the SINGLE FINEST 1901-S eagle to be awarded a GOLD CAC bean. Clearly when this coin was graded over 30 years ago, PCGS's standard was very conservative. We have seen MS65s that do not have the blazing luster, sharp strike, and clean surfaces that this rattler does!

Rich two tone gold color is deeper, more orange at the rims, and brighter in the centers. The devices are razor sharp. The color, details, and surfaces are blazingly brilliant with a bold cartwheel luster. The eye appeal is AMAZING!

PCGS 5889, NGC 7771, CAC GOLD 1. In its most recent appearance, it realized \$5,760 in December 2021--that price is spread between MS65+ and MS66! We anticipate this GEM will again bring a very strong bid. Good luck.

**LOT 390****\$10 1906 PCGS MS65**

A VERY RARE and underrated date in GEM.

Warm honey gold with rose and yellow accents that come out boldly when the lustrous surfaces are rotated in a light. Sharply struck devices have a nice frost and the eye appeal is very pleasing overall with no distracting marks.

PCGS 11, NGC 5. The last one sold in 2016! That speaks volumes to the rarity! The current PCGS Price Guide value is \$10,000. If you are building a \$10 Lib Registry Set, do not overlook this GEM!

LOT 391**\$10 1906 PCGS MS65+ CAC**

One of the better 1906 \$10's you'll see!

Only when using a strong glass can you see a few scattered tiny ticks and frost breaks. Nothing stands out. There are a few light toning dots scattered around proving this coins total originality. A strong luster shows off the totally original colors of pale orange gold. Miss Liberty and the details are frosty and fully struck. The eye appeal is excellent!

PCGS 11, NGC 5, CAC 4. PCGS has graded only this coin an MS65+ with 4 higher. There is no record of this coin ever selling at auction. The current Collectors Universe value is \$15,000. This is the exact coin that is eagerly being sought in today's bullish gold market. Good luck!

**LOT 392****\$10 1907 LIBERTY. PCGS MS63**

The year 1907 was a major transition year in the U.S. gold coinage, going from the long lived Liberty Head \$10 to the Indian Head series. This is a handsome and brilliantly lustrous example from the final coinage of Liberty Head \$10s. Sharply struck and boasting a gorgeous rich golden color, this coin has a great look. Housed in an OGH.

PCGS 10077, NGC 8219. The most recent example sold for \$3,120 in April 2022. The current PCGS Price Guide value is listed at \$1,750 and it jumps to \$2,500 in MS64. Worthy of a CHOICE date or type set, or any "stack" of gold coins.

**LOT 395****\$10 1932 PCGS MS66 CAC**

Have a super nice above average piece here.

The surfaces are very clean and smooth. Only using a strong glass can you find some small hits and frost breaks. A strong luster shows off totally original gold/pale orange gold colors (and some slightly thicker gold toning). There are NO spots or stains. Miss Liberty and the details are sharply struck. There is NO question this piece was never messed with. The eye appeal is really nice!

PCGS 137, NGC 155, CAC 31. The last PCGS CAC MS66 piece to sell in auction brought \$11,456 in October 2015-a lifetime ago! Today, the current sight UNSEEN WHOLESALE BID is \$18,000-and no one can buy any at that price. These certainly are NOT as common as you might think!

This is a wonderful looking and "crusty" CHOICE example of this popular date. A brilliant luster blooms boldly with a strong cartwheel swirl on both sides. Sharply struck devices stand out. This has the look of a European bank hoard holding, and not one of the Saddle Ridge Hoard coins.

PCGS 847, NGC 443. The current PCGS Price Guide value is listed at \$5,500 and the most recent sold for \$4,800 in May 2022. This date is quite scarce finer, and should bring a strong bid. Good luck.

Pleasing color and nice quality surfaces are not hacked up or with lots of serious contact of any kind. The eye appeal is lovely.

PCGS 652, NGC 594. There is a wide range of recent APRs, from \$3,840 to \$7,200, and the current Collectors Universe value is listed at \$6,000. RARE finer, we would expect strong bidding.

All that keeps this from an even higher grade are a few of the lightest, wispy lines in the fields, none of which have an impact on the eye appeal.

PCGS 1529, NGC 871. The most recent examples sold in the \$4,200 to \$4,560 range and the current PCGS Price Guide value is listed at \$5,000. Worthy of a strong bid and placement in a fantastic set! Good luck.

The obverse die clearly struck many coins, as there are a number of die cracks that add to the visual interest. The surfaces are clean for the grade and the eye appeal is very nice.

PCGS 2662, NGC 3198. Recent APRs are in the \$2,640 to \$2,800 range and the current PCGS Price Guide value is \$3,250. Scarce in MS64 and RARE in GEM, this is a lovely example for a Mint State set or just a large gold coin to include in your gold holdings.

Bold, brilliant, flashy, and essentially Prooflike, this is a wonderful near-GEM. Silky smooth and well struck are sleek and generally clean, accented by a warm orange-gold color. There is some minor chatter on both sides, but is natural for an example of this grade. While not noted PL on the holder, this coin is highly reflective and may one day (no guarantees) end up in a PL holder, and we would not flinch if it did.

PCGS 3996, NGC 3344, CAC 384. The current CAC CPG value is \$3,580 and the PCGS Price Guide value is \$3,750. Given its PL looks, we think this coin will bring a strong premium when the hammer falls.

Lustrous and nearly of GEM quality, this brilliant golden \$20 has a fantastic look. Devoid of serious contact on either side, the obverse was struck from an extensively cracked die, and a number of small die cracks are seen throughout. A rich golden color bathes both sides in a very alluring hue!

PCGS 10982, NGC 9118. The most recent PCGS MS64 without CAC approval sold for \$2,640 in April 2022 and the current PCGS Price Guide value is \$3,500. A lovely example for the grade and worthy of bidding.

PCGS# 9173 | EST: \$2,200+

LOT 419

\$20 1922 PCGS MS64 CAC

Totally original and very pleasing for the grade, this near-GEM has a lot to offer the collector. Frosty surfaces are imbued with a warm orange-gold color. Some very minor coppery-toning dots attest to the originality and add to the eye appeal.

PCGS 10880, NGC 9116, CAC 384. The most recent sold for \$2,520 in May 2022. The current Collectors Universe value is listed at \$3,500. Comparatively scarce in GEM grade and unknown in Superb, there is strong demand for high end near-GEMS such as the presently offered example.

PCGS# 9173 | EST: \$2,500+

LOT 420

\$20 1924 PCGS MS66

A fabulous Premium GEM. Boldly lustrous and sharply struck, this is a wonderful example in MS66 grade.

PCGS 10277, NGC 5416. Recent examples have sold for \$3,480 and \$3,600 in May 2022 and the current Collectors Universe value is listed at \$4,750. A popular date and grade.

PCGS# 9177 | EST: \$3,200+

LOT 421

\$20 1924 PCGS MS66

Gold, brilliant, and original, housed in an older blue tag holder. Satiny smooth surfaces gleam in the light. Overall a very pleasing, PQ GEM.

PCGS 10277, NGC 5416. Recent examples have sold for \$3,480 and \$3,600 in May 2022 and the current Collectors Universe value is listed at \$4,750. A popular date and grade.

PCGS# 9177 | EST: \$3,200+

LOT 422

\$20 1927 NGC MS64

A vibrantly lustrous near-GEM example housed in an old NGC "fatty" holder. Sharply struck, this 1927 boasts a radial brilliance that captivates the eye.

Combined, PCGS and NGC have graded over 111,000 1927 Saints in MS64, making this the perfect coin for placement in any gold holding. The current Collectors Universe value is listed at \$2,800 and recent APRs are in the \$2,300 range.

PCGS# 9186 | EST: \$2,000+

LOT 423

\$20 1927 PCGS MS65+ CAC

A fabulous example of this late date, collectible Philly mint twenty. Ultra lustrous surfaces radiate with brilliant cartwheels. Medium yellow gold color blends to peach-rose and apricot-tangerine highlights. Well struck, this GEM has just a couple of insignificant, tiny ticks that keep it from a 66 holder.

PCGS 32876, NGC 22153, CAC 1754. There are 1278 in MS65+ at PCGS. Two sold in March 2022 realizing \$3,480 and \$3,600; the current Collectors Universe value is listed at \$3,750. A great GEM double eagle for the gold bug.

PCGS# 9186 | EST: \$3,000+

LOT 424

\$20 1928 PCGS MS65+ CAC

Totally original and very lustrous, this GEM 1928 double eagle will delight any collector. Sharply struck on both sides, and the surfaces are devoid of serious marks of any kind. A great color radiates on both sides and the originality is proven by the "dirt" clinging to the reverse legend. The eye appeal is very pleasing and really "GEMMY."

PCGS 11633, NGC 7156, CAC 523. There are 515 in MS65+. None have sold since January 2021, and the currently PCGS Price Guide value is listed at \$3,750. These have become quite pricey in PCGS MS66 CAC, so bid on this GEM if you want a great looking example at a more reasonable price point.

PCGS# 9189 | EST: \$3,000+

LOT 425**\$1 1917 MCKINLEY. PCGS MS67+ CAC**

What a great looking gold commem! Tied for FINEST GRADED at PCGS, and a MUST HAVE for anyone working on a top flight set! Not only does this coin more than merit the high grade assigned by PCGS, but its visual allure is high end as well. Hints of pink iridescence accents the frosty golden coloration and is brought out by the satiny sheen of the luster. Sharply struck and essentially PRISTINE, this beauty has it all!

PCGS 107, NGC 61, CAC 21. This is one of 16 graded MS67+ and there are NONE FINER. The most recent sold for \$4,583 and the current PCGS Price Guide value is listed at \$5,350. With NONE FINER, if you need to upgrade your set, you will not find a higher grade coin. We expect this coin to set a very strong APR when the hammer drops.

PCGS# 7455 | EST: \$4,500+

**LOT 426****\$1 1922 GRANT MEMORIAL PCGS MS67+ CAC**

With just one MS68 graded finer, this magnificent SUPERB GEM belongs in a top ranked PCGS Registry Set of Classic Gold Commemoratives!

Impeccable quality comes to the fore in every aspect, from the technical quality to the stunning visual appeal. Shimmering golden surfaces glimmer with a bold satiny glow. Every detail is rendered to their fullest, the result of an exacting blow from the dies. Totally original, there is a hidden toning spot in the details of the log cabin on the reverse. The surfaces are essentially flawless and the quality is all there and then some!

PCGS 179, NGC 129, CAC 78. The current PCGS Population in MS67+ is 17, with just a single MS68 finer. The last one sold in February 2021 for \$7,800 and the current Collectors Universe value is listed at \$8,500 and should the single MS68 come up for sale, it would likely sell in excess of \$20,000. Good luck!

LOT 427

\$2.50 1915-S PANAMA-PACIFIC. PCGS VF25 CAC

A very cool piece, one of the lower graded examples of this popular gold commemorative type, likely kept as a souvenir by an attendee of the Panama-Pacific Expo, and carried around as a pocket piece. Honest wear, problem free, attractively toned surfaces delight on this CHOICE VF gold commem.

PCGS1, NGC 1, CAC 1. Only half a dozen examples have been graded lower, only one of which, an AG3 has ever been beamed by CAC. This coin brought \$2,076 in October 2021. Disregard the published levels, this a cool piece that is truly rarer than Mint State specimens.

PCGS# 7450 | EST: \$1,500+

NOTES

LOT 428

\$50 1851 HUMBERT. REEDED, .880. PCGS AU58 CAC

WOW! If we could only use a single word for this SUPERB AU58 Humbert slug, it would be "IMPRESSIVE!" Everything about this massive, historic territorial gold piece is impressive! These octagonal "slugs" or "ingots" are perennially popular among collectors, as they are tangible connections to the hurly-burly of the Gold Rush era, and with nearly two and a half ounces of gold, they have a heft in the hand that few other numismatic items can give you!

This Kagin-5 piece is essentially MINT STATE. Any wear, imperceptible to the naked eye, is limited to the slightest hint of friction on the highest points of the eagle in the central obverse. Unlike many others whose original surfaces have been conserved, dipped and stripped in an effort to get a higher grade, this one has not been! The luster is essentially full and brilliant, accenting a seductive and totally original orange-gold coloration with hints of olive. As you rotate the surfaces in a light, your gaze is drawn in, at certain angles you get a semi-reflective flash. The details are nearly complete with only some weakness on the word GOLD on the obverse legend. While we note some minor contact marks, these are forgiven given the massive weight and size of these large gold rush era slugs. Precious few of these amazing pieces survive in such a sensational state of preservation, and rarely to they appear in auction!

These "ingots" or "slugs" were struck in the U.S. Assay office in San Francisco, under the direction of Augustus Humbert. His mint operated for several years before the Federal government took over operations and eventually in 1854 opened as the official branch mint in San Francisco. Because of his reputation for honesty, Humbert's operations put out of business many of the other assaying and minting firms that opened after the discovery of gold in California. Indeed, these "slugs" were so well received in "old west" commerce, even after the official branch mint at San Francisco poured federal issue gold coins into commercial streams, they were still widely circulated.

This coin is slightly flashier than the one that sold for \$156,000 in November 2021. The current PCGS Price Guide value is listed at \$190,000. Any Mint State K-5 is EXCESSIVELY RARE, PCGS has graded just four finer. Worthy of a fantastic territorial collection or box of 20 trophies. Regardless of your collecting interest, the addition of this piece to your cabinet will automatically make it "impressive"! Bidding will be wild!

LOT 1

1C 1900 PCGS MS65 RB CAC

WOW, was PCGS ever harsh on this GEM! Really there is no brown anywhere on this lustrous Indian Head cent. Virtually full RED luster booms on the obverse and the reverse has a gentle overtone of pale blue over the center. Sharply struck and high end, this coin is worthy of a premium bid.

PCGS 125, NGC 124, CAC 23. The last PCGS/CAC example brought \$408, and this GEM is so high end, we have no doubt it will bring more. Good luck.

PCGS# 2206 | EST: \$400+

LOT 3

1C 1893 PCGS PR65 BN

Sharply impresses with mirrored fields that are highly reflective. Although designated as brown there is considerable mint red visible in the protected areas of the design.

PCGS 13, NGC 13. Listed in the PCGS Price Guide with a value of \$475. An appealing proof for the date or type collector.

PCGS# 2366 | EST: \$450+

LOT 5

1C 1909-S LINCOLN PCGS AU58

Strong strike with sharp details and appealing medium brown tone. The coin appears to be mint state save for the faintest rub on the highest point of Lincoln's cheek.

PCGS 209, NGC 110. The PCGS Price Guide value is \$325. Most recent record of sale at auction for a PCGS coin was \$336 in April 2022.

PCGS# 2432 | EST: \$300+

LOT 2

1C 1885 PCGS PR65 BN CAC

Sensational purple, violet, blue, and magenta hues are brought to life on this stunning GEM Proof! The underlying mirrors are flashy and beaming accenting the colors in a light.

PCGS 80, NGC 100, CAC 23. The last PCGS/CAC example realized \$504 in October 2021, but this one has a much better look. The PCGS Price Guide value is listed at \$575. For the collector looking for a gorgeous example, look no further!

PCGS# 2342 | EST: \$550+

LOT 4

1C 1909 INDIAN. PCGS PR65 RB CAC

A reflective, brick RED GEM housed in an older blue tag holder. Iridescent violet overtones highlight the originality of this beautiful example.

PCGS 73, NGC 52, CAC 9. The most recent example to sell was not CAC approved and brought \$1,140 in June 2022. The current PCGS Price Guide value is listed at \$675 and the CAC CPG value is \$702. This very attractive GEM will delight any picky collector.

PCGS# 2415 | EST: \$600+

LOT 6

1C 1916-S PCGS MS64 RD

A sharply struck and choice early S-mint Lincoln. Nary a mark is to be found with the naked eye and the deep brick red color is enlivened by an underlying lustrous bloom.

PCGS 118, NGC 30. The most recent examples have sold in the \$840 to \$1,020 range and the PCGS Price Guide value is listed at \$1,100. RARE finer, with just 36 graded higher in the RD designation, and any MS65 will cost mid-four figures. Good luck.

PCGS# 2494 | EST: \$800+

LOT 7

1C 1930 PCGS MS67 RD

Blazing mint fresh surfaces are sensationally vibrant and lustrous. The strike is crisp and stands out against the virtually flawless surfaces. The eye appeal is exceptional.

PCGS 163, NGC 276. The current Collectors Universe value is listed at \$650 and it jumps \$1,700 in MS67+. This is a great looking SUPERB GEM for the collector.

PCGS# 2605 | EST: \$500+

LOT 9

1C 1931 PCGS MS66 RD

A beautifully lustrous GEM 1931 cent with incredible brilliance. Bold red and gold come together over smooth surfaces and sharply struck devices. The eye appeal is great.

PCGS 320, NGC 108. The current PCGS Price Guide value is listed at \$525 and it jumps to \$750 in MS66+ RD. A lovely example for a budget minded Registry Set.

PCGS# 2614 | EST: \$400+

LOT 11

1C 1932-D PCGS MS66 RD

A sharply struck GEM, Minty fresh! Boldly lustrous RED surfaces gleam all over. There are no spots or marks or discolorations of any kind on this PQ beauty.

PCGS 262, NGC 96. The most recent example sold for \$750 in the 2021 ANA auction and the PCGS Price Guide value is \$800. RARE any finer, this 32-D belongs in a carefully selected set.

PCGS# 2626 | EST: \$700+

LOT 8

1C 1930-S PCGS MS66 RD

Wonderful variegated RED lustrous surfaces glow brilliantly on both sides of this PQ GEM.

PCGS 297, NGC 367. The last two sold in April 2022 for \$550 and \$556. The current PCGS Price Guide value is listed at \$600. Only 71 are graded finer in the category, none finer than MS67 RD. Bidding will be fierce for this lovely GEM.

PCGS# 2611 | EST: \$500+

LOT 10

1C 1931 PCGS MS66+ RD CAC

A GORGEOUS SUPERB GEM! WOW, the reverse has the most beautiful iridescent toning over brilliant RED luster. This is a monster GEM that will delight any picky collector!

PCGS 343, NGC 111, CAC 77. There are 23 in MS66+ RD and just 44 graded higher. The most recent sale was in June 2021, bringing \$720. The current Collectors Universe value is \$750 and it jumps to \$2,600 in MS67 RD. This coin will sell for a very strong premium!

PCGS# 2614 | EST: \$650+

LOT 12

1C 1933-D PCGS MS66+ RD CAC

Truly a gorgeous GEM with claims to SUPERB grade. Blazing golden-orange red luster accents the smooth surfaces and pleasing devices.

PCGS 534, NGC 322, CAC 80. There are 54 in MS66+ RD, no doubt including duplication. The current PCGS Price Guide value is \$600 and it jumps to \$1,750 in MS67 RD. Bound for a nice set!

PCGS# 2632 | EST: \$450+

LOT 13

1C 1935 PCGS MS67 RD

An intensely brilliant SUPERB GEM with a bold strike and nearly flawless surfaces.

PCGS 611, NGC 597. The current PCGS Price Guide value is \$260. Scarce finer, we sold the FINEST KNOWN for \$34,075 (a PCGS MS68+ RD CAC back in 2018). This MS67 RD will delight any collector.

PCGS# 2641 | EST: \$220+

LOT 14

1C 1936 PCGS MS67 RD

Variegated red and gold luster glow boldly on both sides of this well struck and SUPERB 1936 cent.

PCGS 332, NGC 718. The current PGS Price Guide value is listed at \$235. There are 52 graded higher and a 67+ RD will approach a four figure price. Good luck.

PCGS# 3938 | EST: \$200+

LOT 15

1C 1936-S PCGS MS66 RD

Lustrous, red surfaces have a glimmer of golden iridescence on them. Sharply struck and of GEM quality.

PCGS 772, NGC 892. This lovely coin is housed in an older blue tag holder and should bring more than the Collectors Universe value of \$135. Scarce finer.

PCGS# 2656 | EST: \$125+

LOT 16

1C 1936-S PCGS MS66+ RD

True Premium Quality surfaces gleam with a strong mint brilliance. Well struck, the color is magnificent and the eye appeal is great.

PCGS 41, NGC 12. The last one sold two years ago for \$250 and the current Collectors Universe value is \$260. The most recent MS67 RD sold for \$1,020. Good luck.

PCGS# 2656 | EST: \$250+

LOT 17

1C 1937 PCGS MS67 RD

A blazing, fiery RED with sensationally bold luster and equally bold strike. As nice today as the day it left the bank!

LOT 21
1C 1942-D PCGS MS67+ RD CAC

This SUPERB GEM is the epitome of perfection! An original bankroll fresh 42-D! Blazing red lustrous surfaces are flawless and brilliant, with sharply struck up devices.

PCGS 551, NGC 924, CAC 79. There are 71 in MS67+ RD at PCGS, and just 4 finer. With MS68 RD examples unobtainable except for a select few, this GORGEOUS MS67+ RD CAC belongs in a top flight set. Good luck.

PCGS# 2707 | EST: \$600+

LOT 23
1C 1944 PCGS MS67+ RD

Another flaming red SUPERB GEM Lincoln cent. The huge mintage made for a common date in an absolute sense, but in this lofty state of preservation, these are RARE, excessively so any finer.

PCGS 86, NGC 20. The last one sold in August 2021 for \$550, and the PCGS Price Guide value is listed at \$550. Just a single MS68 RD ever sold in auction, realizing \$11,400. This SUPERB GEM is worthy of a strong bid and placement in a great set.

PCGS# 2722 | EST: \$475+

LOT 20
1C 1941-S PCGS MS67 RD

Stunning satiny luster radiates from this SUPERB GEM. A tiny diagonal planchet mark (as made) above the "O" in "ONE", surfaces are otherwise immaculate.

PCGS 317, NGC 1,008. Only 69 finer. The value listed in the PCGS Price Guide is \$225.

PCGS# 2701 | EST: \$200+

LOT 22
1C 1943-S STEEL. PCGS MS67+ CAC

Intensely brilliant steely-silver surfaces are blazing with nearly full Prooflike reflective flash in the fields. This SUPERB GEM has sharply struck devices and essentially flawless surfaces.

PCGS 2548, NGC 3251, CAC 424. PCGS has graded 289 in MS67+. The current Collectors Universe value is listed at \$600. Keep in mind a PCGS MS68 CAC will cost around \$3,000. Bound for a wonderful set of SUPERB Lincoln cents.

PCGS# 2717 | EST: \$450+

LOT 24
1C 1949-D PCGS MS66+ RD CAC

GORGEOUS! Brilliant and lustrous RED surfaces are smooth and surround a well struck design. Flashy and bold, we really like the look of this coin.

PCGS 968, NGC 1518, CAC 39. There are just 45 in MS66+ RD at PCGS. It has been nearly five years since one sold in major auction, thus those APRs are out of date. The PCGS Price Guide value is \$150 and we certainly would not be surprised if this CAC endorsed borderline superb example brought more.

PCGS# 2773 | EST: \$125+

**LOT 25****1C 1949-S PCGS MS67 RD**

Eye-catching red to deep red toning and flashy luster highlight this GEM Lincoln.

PCGS 333, NGC 604. The PCGS Price Guide value is listed at \$235.

PCGS# 2776 | EST: \$200+

**LOT 26****1C 1951-D PCGS MS67 RD**

Iridescent violet hues cling to the amazingly lustrous RED surfaces. Virtually pristine to the naked eye, it takes a very strong glass to find any tiny mark.

PCGS 183, NGC 218. The current PCGS Price Guide value is listed at \$260. Only 30 are graded higher.

PCGS# 2791 | EST: \$200+

**LOT 27****1C 1954 PCGS MS66+ RD CAC**

The 1954 is a surprising later date condition rarity. This borderline SUPERB GEM is certainly closer to MS67 than MS66. Brilliant and pleasing, this is a PQ coin for the grade and eye appeal.

PCGS 818, NGC 1141, CAC 94. PCGS has graded 112 in MS66+ RD and just 13 finer, in MS67 RD. The current PCGS Price Guide value is listed at \$600 and it jumps to \$17,500 in MS67! Certainly a coin worthy of a premium bid.

PCGS# 2815 | EST: \$500+

**LOT 28****1C 1954-D PCGS MS66 RD**

Full mint red with satiny luster ñ a no question original GEM.

PCGS 1,404, NGC 3,053. The PCGS Price Guide value is \$36, which seems ridiculous for a coin this nice.

PCGS# 2818 | EST: \$50+

**LOT 29****1C 1954-D PCGS MS67 RD**

Radiant full RED SUPERB GEM, among the finer known examples of the date. The iconic reverse wheat ears exhibit needle sharp details.

PCGS 104, NGC 461. Only 22 finer (MS67+). Listed in the PCGS Price Guide at \$435. Likely to find a home in a top registry set.

PCGS# 2818 | EST: \$325+

**LOT 30****1C 1954-S PCGS MS67 RD**

Bold brilliant and flashy! This coin is mint fresh, blazing red, and essentially PRISTINE. The eye appeal is amazing.

PCGS 437, NGC 1028. The current PCGS Price Guide value is listed at \$150 and we think this SUPERB coin should bring more.

PCGS# 2821 | EST: \$125+

LOT 31

1C 1995 DOUBLED DIE OBVERSE. NGC MS68+ RD CAC

VIRTUAL PERFECTION! Sharply struck and with an absolutely vivacious luster, this high end SUPERB GEM is the epitome of perfection! Pristine surfaces are flawless and truly gorgeous. On this popular modern variety, the doubling is boldest at LIBERTY and IN GOD WE TRUST. Everything about this fiery RED coin is outstanding!

PCGS 2838, NGC 6919, CAC 140. NGC has graded 101 in MS68+ RD and the most recent example sold for \$750 in April 2022. The current Collectors Universe value is \$1,350. This gorgeous coin is worthy of a very strong bid. Good luck.

PCGS# 3127 | EST: \$700+

LOT 33

3CS 1852 PCGS MS64 CAC

Steel gray with olive highlights. Variety 1 issued only from 1851-1853. Die break through the date indicative of a worn or broken die, not surprising as the highest mintage date in the series.

PCGS 446, NGC 498, CAC 67. The value listed in the PCGS Price Guide is \$550, and the CAC price report value is \$538.

PCGS# 3666 | EST: \$400+

LOT 35

3CN 1873 CLOSED 3. NGC PR66

A flashy GEM with bold mirrors and nice surfaces. Only 1,100 were struck.

PCGS 26, NGC 38. There has not been an NGC-graded example sold since May 2019. The current Collectors Universe value is \$1,050. RARE finer. Good luck

PCGS# 3769 | EST: \$700+

LOT 32

3CS 1851 PCGS MS65 CAC

Satiny, totally original, GEM surfaces have a warm antique silver patina and well struck devices.

PCGS 228, NGC 181, CAC 45. The most recent PCGS MS65 CAC sold in our March 2020 Regency Auction for \$1,028. The current CAC CPG value is \$748 and the PCGS Price Guide is \$850. A great type coin.

PCGS# 3664 | EST: \$700+

LOT 34

3CN 1867 PCGS MS65+ CAC

A BLAZING GEM! Sharply struck from clashed dies and very visually alluring this coin has bold nickel-silver luster and barely any marks or lines, even with the aid of a strong glass we cannot find any kind of flaw.

PCGS 62, NGC 39, CAC 11. PCGS has graded just two in MS65+ and neither has ever sold via auction. The current PCGS Price Guide value is \$750 and we think that level will be easily surpassed. Only 20 are graded higher, making this a remarkably affordable coin for a superb set.

PCGS# 3733 | EST: \$700+

LOT 36

5C 1911 NGC MS64

Steel gray and frosty with a hint of golden toning.

PCGS 681, NGC 483. The Collectors Universe Price Guide value is \$250. Nice addition to a date set.

PCGS# 3872 | EST: \$220+

LOT 37

5C 1916 PCGS MS65

Well struck with the major design elements full and clear. Mostly steel gray with a hint of rose and lilac toning.

PCGS 659, NGC 318. The value listed in the PCGS Price Guide is \$350. Buffalo Head nickels circulated widely, so much so that even high mintage dates are relatively scarce in GEM Mint State. This lovely coin is well suited for a better date or type set.

PCGS# 3930 | EST: \$300+

LOT 39

5C 1925 PCGS MS65

Noteworthy satiny luster and pale golden toning are highlights of this full GEM example that is surprisingly tough in high mint state grades.

PCGS 590, NGC 240. Listed in the PCGS Price Guide with a value of \$425. A pleasing candidate for a better date set.

PCGS# 3594 | EST: \$300+

LOT 41

5C 1928 PCGS MS65

A well struck and appealing example of the Buffalo Head Nickel design. Surfaces are satiny with a minimum of contact marks.

Satiny surfaces with pale golden highlights and excellent detail. It's nice to see a Buffalo Nickel with a date that is bold and clear.

PCGS 510, NGC 200, CAC 48. The PCGS Price Guide value is \$550. Likely to find a home in a better set.

PCGS# 3941 | EST: \$500+

LOT 40

5C 1926 PCGS MS66 CAC

A highly frosty, satin-lustrous PQ GEM with distinct claims to a SUPERB grade. Well struck, crisply defined devices are enhanced by generally high end, original surfaces.

PCGS 487, NGC 177, CAC 140. The most recent sold for \$660 in June 2022 and we sold one in May 2022 for \$705. The current published levels, especially the CAC CPG are not updated with the recent APRs. Scarce in SUPERB GEM, this is a great looking coin for the collector.

PCGS# 3957 | EST: \$550+

LOT 42

5C 1929-S PCGS MS65

Sharply impressed satiny surfaces with superior details combines with a delicate patina of blue-red- gold to offer outstanding eye appeal.

PCGS 650, NGC 250. The value in the PCGS Price Guide is \$500. Although common in the lower mint state grades, availability drops sharply in GEM or better.

PCGS# 3968 | EST: \$500+

LOT 43

5C 1930-S PCGS MS65+

Satiny and brilliant, this is a generally well struck example of the date that has a fantastic original eye appeal.

PCGS 17, NGC 8. The PCGS Price Guide value is \$550 and the last APR is from three years ago, more recently we sold a PCGS MS65 for \$499. Clearly this coin is better. Good luck.

PCGS# 3970 | EST: \$500+

LOT 44

5C 1931-S PCGS MS66 CAC

Bold, flashy, intensely brilliant luster beams boldly all over this PQ GEM. Typically struck with some minor softness in the centers, the eye appeal, nonetheless is fantastic for the assigned grade.

PCGS 643, NGC 110, CAC 157. The most recent sold in January 2022 for \$670. The current PCGS Price Guide value is listed at \$650 and the CAC CPG value is listed at \$702. RARE any finer, this is a fabulously lustrous coin that will delight any collector!

PCGS# 3971 | EST: \$600+

LOT 45

5C 1934 PCGS MS65

Silvery satin surfaces combine with light blue-gray overtones for exceptional eye appeal.

PCGS 747, NGC 358. The PCGS Price Guide value is \$280. A high-grade candidate for a better set.

PCGS# 3972 | EST: \$250+

LOT 46

5C 1934 PCGS MS66

An exceptionally satiny GEM with waves of russet, gold and blue toning. A couple of miniscule tics separate this from perfection, and it will be tough to match this coin's eye appeal.

PCGS 252, NGC 97. Valued in the PCGS Price Guide at \$600. The most recent examples sold in January and March 2022 for \$504 and \$552 respectively.

PCGS# 3972 | EST: \$500+

LOT 47

5C 1934-D PCGS MS65 CAC

Bright satiny fields reflect the light providing a neat cameo contrast with mostly frosted devices. Remarkable eye-appeal.

PCGS 504, NGC 117, 52. The value listed in the PCGS Price Guide is \$600. The PCGS value may well be conservative considering that an MS66 is valued at \$2,400. Bid accordingly.

PCGS# 3973 | EST: \$500+

LOT 48

5C 1935-S PCGS MS66

Sharply struck and boldly lustrous, this is a real PQ GEM, a delight for the collector. Housed in an older blue tag PCGS holder.

PCGS 594, NGC 206. The last one brought \$353 in our Regency Auction 52 Online Only Session, and the PCGS Price Guide value is \$450. Challenging any finer.

PCGS# 3976 | EST: \$350+

**LOT 49****5C 1935-S PCGS MS66**

Sharply struck and supremely lustrous with eye-catching red-gold highlights.

PCGS 594, NGC 207. The PCGS Price Guide value is \$450.

PCGS# 3976 | EST: \$350+**LOT 50****5C 1936-D PCGS MS66+**

Frosty and brilliant, we are not sure why CAC did not bean this PQ GEM. The eye appeal is quite pleasing and a delight to behold, with clean surfaces and sharply struck devices.

PCGS 36, NGC 16. None have sold since 2019, the current PCGS Price Guide value is \$350 in MS66+ and the MS67 level is listed at \$1,600. This pleasing coin should see spirited bidding when it crosses the block.

PCGS# 3978 | EST: \$300+**LOT 51****5C 1937 PCGS MS67**

Exceptionally well struck with superb detail and a hint of blue gold iridescence. Housed in an older blue label PCGS holder.

PCGS 596, NGC 610. The PCGS Price Guide lists the value as \$300. MS67+ coins sell for 3 times as much, a great value at this grade level.

PCGS# 3980 | EST: \$280+**LOT 52****5C 1937-S PCGS MS67**

Smooth mark free surfaces are super satiny and lustrous. In an older PCGS blue label holder.

PCGS 175, NGC 113, Only 57 finer. Listed in the PCGS Price Guide at \$850; the guide price jumps to \$6,750 for MS67+. Good value at this grade level.

PCGS# 3983 | EST: \$650+**LOT 53****5C 1938-D BUFFALO PCGS MS67**

Boldly impressed, satiny and lustrous with a radiant red-gold patina. One might think this coin could compare favorably with the modest number of those assigned the next grade up. In a green label PCGS holder.

PCGS 2,478, NGC 3,482. An outstanding value anywhere the PCGS Price Guide value of \$240, however unlikely that may be.

PCGS# 3984 | EST: \$220+**LOT 54****5C 1938-D BUFFALO PCGS MS67**

The final year of issue of this iconic design, this coin has it all: striking detail, luster and eye appeal.

PCGS 2,479, NGC 3,482. The PCGS Price Guide value listed by PCGS is \$240. The date may be common, but the price seems modest for a coin of such impressive quality.

PCGS# 3984 | EST: \$220+

LOT 55
5C 1938-D/S BUFFALO. PCGS MS66

Final year of the Buffalo Nickel design. Satiny and well struck with the top serif of the "S" mintmark clearly visible beneath the "D".

PCGS 2,108, NGC 994, CAC 203. The value listed in the PCGS Price Guide is \$250 and the CAC price report is \$292. Popular variety for the collector.

PCGS# 3985 | EST: \$200+

LOT 56
5C 1939-D REVERSE OF 1938. PCGS MS66

A gorgeous GEM. Well struck and very pretty, this is a high end example of this early date.

PCGS 735, NGC 219. The current PCGS Price Guide value is listed at \$110 and with its impressive looks, we would not be surprised if this one brought way more.

PCGS# 4005 | EST: \$100+

LOT 57
5C 1939-D REVERSE OF 1940. PCGS MS66

Premium Quality and high end, this GEM has a great look. Sharply struck and draped in a soft pastel iridescent hue. The eye appeal is great!

PCGS 591, NGC 235. The current PCGS Price Guide value is listed at \$120, but with its great looks, this GEM will sell for more. Good luck.

PCGS# 94005 | EST: \$100+

LOT 58
5C 1940-S PCGS MS66 FS

Strong mint brilliance beams boldly on both sides. Well struck and visually appealing, were it not for a couple of ticks in the central reverse, this coin would have graded even higher.

PCGS 263, NGC 44. The current PCGS Price Guide value is \$135, and recent comps range from \$120-\$186. Quite scarce finer.

PCGS# 84009 | EST: \$100+

LOT 59
5C 1959 PCGS MS66 FS

Intensely lustrous and brilliant surfaces gleam on both sides of this well struck GEM.

PCGS 99, NGC 2. These have sold in the \$192-\$432 range and the current PCGS Price Guide value is listed at \$350. RARE any finer. Bound for a nice Registry Set.

PCGS# 84065 | EST: \$225+

LOT 60
5C 1962 NGC MS66 5FS

Fully struck and GEMMY, this lustrous example shows essentially full steps and all the other details are crisply rendered as well. The eye appeal is really pleasing.

PCGS 69, NGC 69. The current Collectors Universe value is listed at \$190 and the most recent sold in April 2022 for \$125.

PCGS# 84071 | EST: \$150+

LOT 61

5C 1976-D NGC MS66 5FS

A high end and frosty GEM with boldly struck devices.

PCGS 50, NGC 60. The most recent example to sell realized \$89 in an April 2022 online only auction. The current Collectors Universe value is listed at \$340. VERY RARE finer.

PCGS# 84097 | EST: \$80+

LOT 62

10C 1885 NGC MS63 CAC

Rich gray gold is complemented at the left and lower obverse by a half moon of indigo-red-gold toning no doubt accounting for the CAC sticker.

PCGS 76, NGC 54, CAC 5. Listed in the Collectors Universe Price Guide as \$275; the CAC price report lists the value at \$312.

PCGS# 4694 | EST: \$250+

LOT 63

10C 1934 PCGS MS65 FB CAC

Frosted surfaces are mostly white with an area of light golden reverse toning. Lustrous and attractive.

PCGS 677, NGC 244, CAC 34. The value listed in the PCGS Price Guide is \$150 and the CAC price report value is \$172.

PCGS# 4989 | EST: \$150+

LOT 64

10C 1935 PCGS MS65 FB CAC

Satiny luster, smooth surfaces, excellent detail, and fully rounded and split bands are highlights of this conservatively graded SUPERB GEM.

PCGS 1,012, NGC 288, CAC 32. The PCGS Price Guide value is only \$100, but as noted this coin in our opinion can be considered higher in grade and thus value. No guarantees.

PCGS# 4993 | EST: \$100+

LOT 65

10C 1935 PCGS MS67 CAC

Exquisite multi-colored iridescent toning combined with an outstanding strike make this a memorable GEM.

PCGS 88, NGC 121, CAC 13. The PCGS Price Guide value is \$125; however, the eye appeal of this toner will likely generate competitive bidding.

PCGS# 4992 | EST: \$120+

LOT 66

10C 1936 PCGS MS65 FB CAC

Satiny and well struck with full split bands; this untuned GEM is completely deserving of CAC approval. In a PCGS green label holder.

PCGS 921, NGC 297, CAC 25. THE PCGS Price Guide value of \$100 is likely to be as conservative and the assigned grade. No guarantees though.

PCGS# 4999 | EST: \$100+

LOT 67

10C 1936 PCGS MS66 FB CAC

Well struck and frosty with fully rounded and split bands. The luster and appeal of this untuned SUPERB GEM might be difficult to improve upon.

PCGS 848, NGC 355, CAC 53. The PCGS Price Guide value is \$150, and the CAC price report is \$172.

PCGS# 4999 | EST: \$150+

LOT 68

10C 1939 PCGS MS67

Although the bands are not split, this coin is otherwise near perfection. Satiny surfaces are suffused with waves of golden toning. In an older PCGs blue label holder.

PCGS 854, NGC 1,153. Super attractive and worthy of a better date set.

PCGS# 5016 | EST: \$120+

LOT 69

10C 1940-S PCGS MS67

Surfaces are untuned smooth and frosted, except for a curiously reflective area surrounding Mercury's head, a possible result of overly zealous die polishing.

PCGS 302, NGC 441. Only 67 finer. The PCGS Price Guide value of \$100 seems conservative.

PCGS# 5026 | EST: \$100+

LOT 70

10C 1941-P,D,S SET PCGS MS65 FB

A well matched set of satiny/frosty well struck GEMS housed in older blue tag PCGS holders.

The combined PCGS Price Guide for the three coins is \$175. A lovely set worthy of a strong bid.

PCGS# 5029 | EST: \$150+

LOT 71

10C 1941-S PCGS MS67

Satiny luster glows from near perfect surfaces. Only the middle band is not fully split, but it is ever so close.

PCGS 215, NGC 470. The PCGS Price Guide value listed by PCGS is \$125.

PCGS# 5032 | EST: \$120+

LOT 72

10C 1942 PCGS MS65 FB CAC

Bands are rounded and split, and surfaces are untuned and satiny.

PCGS 1,075, NGC 479. The PCGS Price Guide value is \$60.

PCGS# 5035 | EST: \$50+

LOT 73

10C 1943-D PCGS MS65 FB CAC

Untoned and frosty with fully rounded and split bands.

PCGS 5,038, NGC 2,174 CAC 71. The PCGS Price Guide value is \$50, which seems downright cheap for a beautiful coin.

PCGS# 5047 | EST: \$50+

LOT 74

10C 1944-D PCGS MS67

A wholly untuned frosty GEM. Bands are not split, but overall quality is outstanding.

PCGS 117, NGC 311. The PCGS Price Guide value is \$85.

PCGS# 5052 | EST: \$75+

LOT 75

10C 1945-S NGC MS68 CAC

Among the finer known for the normal "S" variety of this last year of issue of the Mercury Head design. Exceptional in every way imaginable with incredible multi-colored iridescent toning, superb strike and blazing luster.

PCGS 16, NGC 381, CAC 34. RARE FINER. The most recent NGC-graded coins were NOT CAC approved. The Collectors Universe value is \$1,000 and the CAC CPG value is \$780. Destined for a top registry set.

PCGS# 5060 | EST: \$650+

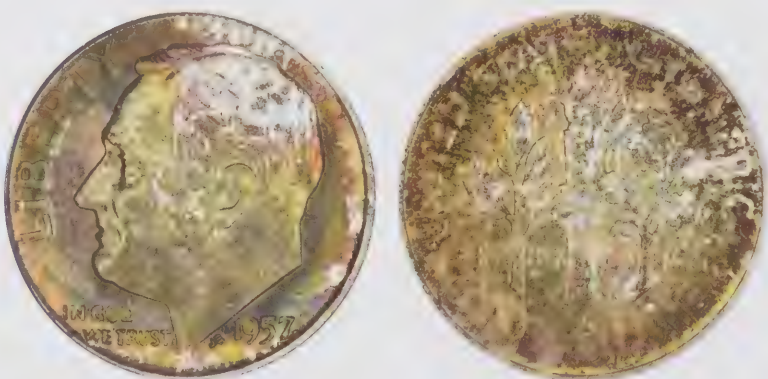

LOT 76

10C 1950-S PCGS MS67+

A beautiful SUPERB GEM. Awesome album toning graces the obverse of this lustrous 50-S dime.

PCGS 45, NGC 23. The current PCGS Price Guide value is listed at \$150 and we think this one will bring more. None have sold since 2020.

PCGS# 5096 | EST: \$120+

LOT 77

10C 1957-D PCGS MS67

Beautiful mint set toning graces sublimely brilliant surfaces. The eye appeal is great.

PCGS 232, NGC 469. Scarce finer, we expect this coin to bring a strong bid relative to the published levels and APRs.

PCGS# 5115 | EST: \$50+

LOT 78

10C 1958 NGC MS67+

A lovely Mint Set toned SUPERB GEM. Highly lustrous and dusted with a dappled iridescent violet-rose toning. Very pleasing and high end.

PCGS 23, NGC 33. The most recent sold for \$134 in January 2022. The current Collectors Universe value is \$475 and this date is RARE finer.

PCGS# 5116 | EST: \$120+

LOT 79
10C 1958-D NGC MS68 FT

Incredible quality! Beautifully toned surfaces show off multicolored, original Mint Set color that is draped over virtually flawless surfaces. Rich luster glows through the rich patina, accenting the varied hues. Sharply struck up devices are bold.

PCGS 4, NGC 19. The current Collectors Universe value is listed at \$4,150 and the most recent MS68 FT to sell in auction was a PCGS-graded coin in November 2021 for \$3,600, while the last NGC-graded example sold nearly two years ago for \$1,020. A great coin for the advanced Roosevelt dime collector.

PCGS# 85117 | EST: \$1,000+

LOT 81
25C 1920 PCGS MS66

An original GEM. Nicely toned and well struck, this 1920 borders on a full head designation, the details are just a trifle soft on the hairline. Otherwise well struck throughout.

PCGS 95, NGC 72. The last PCGS MS66 without CAC approval to sell brought \$630 in January 2021 and the current PCGS Price Guide value is listed at \$850. Scarce finer.

PCGS# 5734 | EST: \$750+

LOT 83
25C 1944-S PCGS MS67+ CAC

Nicely preserved SUPERB GEM. Well struck and rich obverse toning.

PCGS 231, NGC 377, CAC 128. PCGS has graded 50 in MS67+ and just 5 finer. Recent examples sold from \$660 to \$1,140 and the current PCGS Price Guide value is \$800. A 68 will cost \$7,000+. Bound for a wonderful set.

PCGS# 5826 | EST: \$650+

LOT 80
25C 1845 PCGS XF45

This is a very interesting and seemingly RARE 1845 quarter. The reverse was broken in quite dramatic fashion, with a bisecting die crack from the first S in STATES through the eagle to the period between QUAR and DOL. Another die crack, which perhaps would turn into a cud in future strikings from this die, is seen through AME. This is a very pleasing and seemingly original toned and lightly circulated collector grade with a bold eye appeal.

PCGS 26, NGC 9. Worthy of a very strong bid, do not let the APRs or published levels fool you, this is a highly desirable example.

PCGS# 5408 | EST: \$300+

LOT 82
25C 1929-S PCGS MS63 FH

Untoned and well struck with a Full Head and strong details. Surface marks are minimal and potentially consistent with the next higher grade. No guarantees.

PCGS 137, NGC 62. The PCGS Price Guide value is \$400. Great addition to a better date set.

PCGS# 5777 | EST: \$400+

LOT 84
50C 1916-D PCGS MS63

Rich olive and blue gold toning over frosted surfaces. First year of issue for the Walking Liberty design with the mintmark placed at the lower right obverse.

PCGS 523, NGC 247. The value listed in the PCGS Price Guide is \$1,000. The most recent examples sold in the \$660 to \$720 range. A great addition to a better WLH set.

PCGS# 6567 | EST: \$700+

LOT 85

50C 1937 PCGS MS66 CAC

Warm, antique silver and iridescent toning from long term envelope storage defines this well struck and totally original PQ GEM. A fabulous looking coin with a high end appeal.

PCGS 855, NGC 362, CAC 145. The CAC CPG value is \$530. We think this original high end GEM should bring a premium bid for its quality and eye appeal.

PCGS# 6601 | EST: \$400+

LOT 87

50C 1942 NGC MS65 CAC

A frosty untuned GEM with light russet toning at the rims most likely from a paper wrapper.

PCGS# 6614 | EST: \$120+

LOT 89

50C 1943 PCGS MS66+

Blast white silver brilliance really makes the delicate peripheral toning pop in the light making this PQ coin sparkle in a light.

PCGS 151, NGC 44. The last one sold for \$300 in April 2022 and the PCGS Price Guide value is \$300, which jumps to \$900 in 67.

PCGS# 6618 | EST: \$260+

LOT 86

50C 1941-D to 1945-D FIVE COIN LOT. PCGS MS66

All coins are housed in older blue tag PCGS holders, all but the 43-D are CAC approved. All are frosty, brilliant and lustrous with varied amounts of hints of original tone. Nicely struck, these PQ GEMS are worthy of a wonderful short set.

The combined PCGS Price Guide value is \$1,325 and we would not be shocked if this lot brought more.

PCGS# 6612 | EST: \$1,250+

LOT 88

50C 1942 PCGS MS66+

Intensely lustrous and ultra sleek, this coin has a superb visual allure!

\$1 1878 7/8 TF STRONG. PCGS MS64 CAC

Brilliant and well struck! This is a VERY HIGH END and nearly GEM caliber example of this popular Red Book listed variety.

PCGS 2122, NGC 1116, CAC 165. The most recent examples sold in March 2022, realizing \$1,006 and \$1,020. The current CAC CPG value is \$848. Scarce finer and popular in all grades.

PCGS# 7078 | EST: \$750+

LOT 109

\$1 1878-CC PCGS MS62

Truly reflective, fully Prooflike surfaces are bold and lustrous, we don't know why CAC didn't bean this one or why PCGS didn't call it PL. The strike is bold and the surfaces have just some minor contact, but they are not at all hacked up.

PCGS 5548, NGC 4242. The most recent example realized \$550 and the PCGS Price Guide value is listed at \$600. As the first Carson City Morgan dollar date, this coin will always be a popular date.

PCGS# 7080 | EST: \$500+

LOT 111

\$1 1879-S PCGS MS66 CAC

Brilliantly lustrous and beautifully toned in shades of blue, violet, and amber-rose. Sharply struck and of GEM + quality, this MS66 is deserving of its CAC approval and has an excellent look!

PCGS 8257, NGC 7883, CAC 897. The current CAC CPG value is listed at \$442, and this colorful beauty should sell for more. Good luck.

PCGS# 7092 | EST: \$400+

LOT 113

\$1 1880-CC NGC MS65 CAC

Fully frosted with light gold toning throughout deepening to russet and blue at the upper obverse.

PCGS 2,798, NGC 1,128, CAC 274. The Collectors Universe Price Guide value is \$1,325 and the CAC price report value is \$1,580. An NGC CAC coin realized \$1,500 at auction in May 2022. An attractive GEM for the Carson City Mint collector.

PCGS# 7100 | EST: \$1,300+

LOT 110

\$1 1878-S NGC MS64 CAC

A lovely double sided toned near-GEM from this first year of the Morgan series, housed in an old NGC "fatty." The surfaces have a semi-Prooflike luster and a bold, sharp strike. The eye appeal is great.

PCGS 18624, NGC 18380, CAC 403. The current CAC CPG value is listed at \$277 and this colorful near-GEM will bring a strong bid for its originality and old holder.

PCGS# 7082 | EST: \$250+

LOT 112

\$1 1879-S PCGS MS67 CAC

A sharply struck SUPERB GEM with silky satiny luster and memorable details. An area of red gold toning can be seen around the date as well as the corresponding area on the upper reverse; the coin is otherwise untuned.

PCGS 1,765, NGC 2,254, CAC 590. Listed in the PCGS Price Guide at \$1,050 and the CAC CPG at \$1,130. The exceptional eye-appeal of this coin is sure to generate competitive bidding.

PCGS# 7092 | EST: \$1,000+

LOT 114

\$1 1880-O PCGS MS63

Untoned and frosty with moderate contact consistent with the grade. Considerably scarcer in higher grades, with the value doubling in MS64.

PCGS 3,278, NGC 2,115. The PCGS Price Guide lists the value as \$625 and the most recent auction record for the grade was \$660 in May 2022. Good value for a Mint State Morgan Dollar set.

PCGS# 7114 | EST: \$500+

LOT 115

\$1 1880-S PCGS MS62 DMPL CAC

A flashy and brilliant DMPL housed in an old green tag holder. Well struck, this coin has a lot of allure for such a modest grade.

PCGS 236, NGC 92, CAC 4. The CAC CPG value is \$250 and we feel this coin should bring that or more. Good luck.

PCGS# 97119 | EST: \$200+

LOT 116

\$1 1880/9-S PCGS MS65 DMPL

Flashy, brilliant, reflective lustrous surfaces gleam and beam from below a dusting of original toning on both sides. The eye appeal is truly excellent for the date/grade.

PCGS 39, NGC 24. The most recent example realized \$1,320 in April 2021 and the current PCGS Price Guide value is listed at \$1,600. Scarce finer and always popular, expect spirited bidding.

PCGS# 97123 | EST: \$1,200+

LOT 117

\$1 1880-S PCGS MS66 CAC

PQ, highly lustrous, flashy and well struck. Splashes of dappled iridescent color grace both sides, accenting the smoothness of the surfaces and frosty nature of the sharply struck devices. The eye appeal is great.

PCGS 11851, NGC 12569, CAC 1359. The current CAC CPG value is listed at \$442 and we expect this pretty GEM to sell for more.

PCGS# 7118 | EST: \$400+

LOT 118

\$1 1881-CC PCGS MS65

An untoned and frosty GEM with booming cartwheel luster. An attractive example of this popular Carson City Mint issue.

PCGS 5,190, NGC 2,158. Listed in the PCGS Price Guide with a value of \$1,250.

PCGS# 7126 | EST: \$1,000+

LOT 119

\$1 1881-S PCGS MS63

Choice and lustrous this obverse toned 81-S dollar. Soft violet and gold is accented by the semi-reflective Prooflike luster. Sharply struck and fresh to the market and housed in an old green tag holder, we are not sure why CAC didn't bean this lovely and original example.

Worthy of a premium bid!

PCGS# 7130 | EST: \$125+

LOT 120

\$1 1881-S PCGS MS65 CAC

Classic album toning at the peripheries make this a sensational coin for the assigned grade.

PCGS# 7130 | EST: \$200+

LOT 121

\$1 1881-S PCGS MS65+ CAC

Intense, S-mint luster is brilliant with swirling cartwheels that accent the blush of rainbow that dominates half the obverse. The color rates an 8+ on our 10-point scale. The eye appeal is excellent.

Worthy of a strong bid, disregard the published levels--this one will sell for more.

PCGS# 7130 | EST: \$300+

LOT 123

\$1 1882-CC PCGS MS64

Pale gold toning can be seen on the reverse; aside from a light toning streak on Miss Liberty's cheek the obverse is untuned.

PCGS 14,253, NGC 6,775. The value listed in the PCGS Price Guide is \$475.

PCGS# 7134 | EST: \$400+

LOT 125

\$1 1882-S PCGS MS67 CAC

Satiny cartwheel luster flows from this sharply struck SUPERB GEM untuned Morgan Dollar.

PCGS 1,160, NGC 1,900, CAC 544. The value listed in the PCGS Price Guide is \$1,200. Most recent auction sale of a PCGS CAC coin realized \$1,501 in May 2022.

PCGS# 7140 | EST: \$1,100+

LOT 122

\$1 1881-S PCGS MS66 CAC

Another peripheral toned PQ GEM. Boldly lustrous and original, this one has a great look. Bid accordingly.

PCGS# 7130 | EST: \$400+

LOT 124

\$1 1882-S PCGS MS65

Wow! The reverse of this GEM glows with stunning multi-colored toning that showcases the attractiveness of Morgan's iconic design. We rate the color an 8.5 on our 10-point scale. The obverse is satiny and mostly untuned.

PCGS 20,374, NGC 20,393. The PCGS Price Guide value of \$265 will surely be blown away by strong bidding for this attractive toner.

PCGS# 7140 | EST: \$450+

LOT 126

\$1 1883 CC G.S.A. NGC MS65+ CAC

This is a neat bag toner. While the surfaces seem untuned, you can see the distinct pattern of textile contact on the obverse. As you rotate the lustrous surfaces in a light, you can pick up the faintest golden peach patina. This GEM is very eye appealing and high end.

PCGS 331, NGC 4888, CAC 716 (both GSA and non-GSA). There 344 in MS65+ GSA at NGC. This GEM will find active bidding for sure.

PCGS# 518869 | EST: \$600+

LOT 127
\$1 1883-O PCGS MS65 CAC

Well struck, satiny and untuned. In an older PCGS green label holder.

PCGS# 7152 | EST: \$400+

LOT 129
\$1 1884-CC PCGS MS64 CAC

Fully lustrous and frosted surfaces consistent with the PCGS grade and CAC approval.

PCGS 20,391, NGC 10,773, CAC 650. The value in the PCGS Price Guide is \$480 and the CAC price report is \$540.

PCGS# 7152 | EST: \$450+

LOT 130
\$1 1884-O PCGS MS65

We love the look of this GEM. A triangle "wedge" of pastel blue/violet comes in front of Liberty's face and melds to gold and peach. You can see the textile toning "dots" on throughout and the eye appeal is huge. We rate the color a 9 out of 10. This GEM belongs in a great set and will see very strong bidding.

PCGS# 7154 | EST: \$400+

LOT 131
\$1 1884-O NGC MS65

Both sides of this GEM are toned in shades of azure, teal, and amber rose hues. The brilliance of the underlying cartwheels amplifies the subtle differences in the dominant hues. Sharply struck and beautiful, this GEM is housed in an older NGC holder, and fresh to the collector market, this GEM will delight any beginner toner collector.

PCGS# 7154 | EST: \$200+

LOT 132
\$1 1885 PCGS MS64 PL

Light obverse contact marks are magnified by the fully reflective surfaces. The reverse is nearly mark-free and at least a full grade higher than the obverse. Untuned and attractive.

PCGS 747, NGC 559. The PCGS Price Guide value listed by PCGS is \$240.

PCGS# 7159 | EST: \$200+

LOT 133

\$1 1885 NGC MS65

Lovely golden green and pale blue toning adorns both sides of this highly lustrous GEM. Sharply struck and satiny smooth, this is a very pleasing coin that will delight any toned dollar collector.

PCGS# 7158 | EST: \$200+

LOT 134

\$1 1885 NGC MS66

Surfaces are untuned, frosted, and largely free of contact marks.

PCGS 1,717, NGC 1,863. The value listed in the Collectors Universe Price Guide is \$425.

PCGS# 7158 | EST: \$325+

LOT 135

\$1 1885 PCGS MS65 DMPL

A bold and brilliantly reflective DMPL 1885 Morgan dollar. The silver surfaces are totally untuned and the frosty devices stand out nicely against the fields. Generally clean and free of any distracting marks of any kind, the eye appeal is wonderful, with better than typical mirrors. Housed in an OGH.

PCGS 365, NGC 196. The most recent example sold for \$1,050 in January 2022 and we sold one in December 2021 for \$911. The current Collectors Universe value is \$1,150 and this fresh, old holdered GEM will bring a strong bid for sure.

PCGS# 97159 | EST: \$1,000+

LOT 136

\$1 1885-O PCGS MS65

Generally white with faint golden toning towards the rims, particularly on the reverse. In an older PCGS blue label holder.

PCGS 22,851, NGC 31,036, CAC 861. The PCGS Price Guide value is \$250, and the CAC price report value is \$286.

PCGS# 7162 | EST: \$240+

LOT 137

\$1 1885-O PCGS MS65 CAC

Splashes of toning grace the obverse of this GEM 85-O dollar, taking on the end of roll toning pattern. We really love the pinks, golds, and greens on this one.

PCGS# 7162 | EST: \$400+

LOT 138

\$1 1885-O PCGS MS66

Super satiny luster beams from a mostly white obverse and a reverse that glows with pale russet- olive toning towards the rims. An outstanding type coin.

PCGS 3,178, NGC 4,918. The PCGS Price Guide value is \$420. An outstanding coin for the assigned grade.

PCGS# 7162 | EST: \$325+

LOT 139
\$1 1885-S PCGS MS61

A somewhat scarce date in Mint State, the 85-S is overshadowed by the 84-S. This coin displays some bag marks on lustrous surfaces.

PCGS 617, NGC 575. The current PCGS Price Guide value is listed at \$420 and these have been selling around \$320 in auction. A decent coin for the grade.

PCGS# 7164 | EST: \$300+

LOT 140
\$1 1886 PCGS MS66 CAC

A really neat, original end of roll toner! You really have to appreciate the angles of the color, clearly where the flaps of paper were folded over. The eye appeal is great and worthy of a strong bid.

PCGS# 7166 | EST: \$400+

LOT 141
\$1 1886 PCGS MS66 CAC

Another really neat toner with splashes and streaks of teal, lilac, lavender, amber, tangerine, and yellow gold. The eye appeal is exceptional with the color rating an 8 on our 10-point scale and worthy of a strong bid.

PCGS# 7166 | EST: \$550+

LOT 142
\$1 1887-S PCGS MS62

A lustrous and original nearly CHOICE Mint State example. Well struck and nice for the grade.

PCGS 2657, NGC 1822. The current PCGS Price Guide value is listed at \$235. Bid accordingly.

PCGS# 7180 | EST: \$180+

LOT 143
\$1 1890 PCGS MS65 CAC

A colorful, wholly original GEM. Stored for ages in a kraft paper envelope, both sides developed a pleasing antique patina that is enlivened by a bold luster. Well struck and very pleasing. RARE finer.

PCGS 797, NGC 321, CAC 72. The most recent sold for \$1,469 in our April 2022 Central States auction. The current CAC CPG value is \$1,500 and the PCGS value is \$1,100. Neither service has ever graded an 1890 dollar finer than MS66.

PCGS# 7196 | EST: \$1,200+

LOT 144
\$1 1890-CC PCGS AU55

Ample mint luster survives on this lightly circulated, popular CC dollar.

PCGS 487, NGC 354. The most recent sold for \$432 in April 2022 and The PCGS Price Guide value is listed at \$450.

PCGS# 7198 | EST: \$400+

LOT 145

\$1 1890-CC PCGS MS63

Satiny surfaces radiate cartwheel luster. Mostly white with attractive peripheral golden toning.

PCGS 4,069, NGC 1,713. The Price Guide value listed by PCGS is \$1,800. Recent auction records for PCGS graded coins range from \$1,260 to \$1,680.

PCGS# 7198 | EST: \$1,200+

LOT 146

\$1 1890-CC PCGS MS63

Frosty and lustrous surfaces are mostly smooth and untoned. An inconsequential dark area can be noted on one of the Eagle's legs, most likely as struck by the Mint.

PCGS 4,069, NGC 1,713. The PCGS Price Guide value is listed at \$1,800. Recent auction records for PCGS graded coins range from \$1,260 to \$1,680.

PCGS# 7198 | EST: \$1,200+

LOT 147

\$1 1892-CC PCGS AU50

A pleasing AU50 that retains a wealth of semi-reflective luster in the fields. Light problem free wear defines this next to last CC Morgan date.

PCGS 217, NGC 92. The most recent example sold for \$870 in May 2022 and the PCGS Price Guide value is \$850. This visually appealing example is worthy of a very strong bid indeed.

PCGS# 7214 | EST: \$750+

LOT 148

\$1 1892-O PCGS MS62

A bold luster swirls over the surfaces of this essentially CHOICE 92-O dollar. Conditionally challenging this untuned beauty has a decent strike (soft in the centers, but slightly better than usually seen). Light marks commensurate with the grade do not detract from the quality or eye appeal.

PCGS 1449, NGC 1009. The PCGS Price Guide value is \$575 and the most recent sold for \$555 in March 2022. Bound for a nice set.

PCGS# 7216 | EST: \$500+

LOT 149

\$1 1896 NGC MS64

Semi-Prooflike luster gives this gently toned near-GEM a great look! Sharply struck, this coin has a great look, and should bring a premium bid.

PCGS# 7240 | EST: \$100+

LOT 150

\$1 1899 PCGS MS63

Frosty and mostly untuned. Moderately scarce in choice mint state.

PCGS# 7258 | EST: \$325+

LOT 152

\$1 1899 PCGS MS64

A mostly untuned choice coin with light contact marks and satiny luster.

PCGS 4,885, NGC 3,265. The PCGS Price Guide value is \$550. Much less available in choice mint state than the "O" Mint issue of the same year.

PCGS# 7258 | EST: \$400+

LOT 153

\$1 1899 PCGS MS64

Surfaces are smooth, satiny, untuned, and free of distracting marks.

PCGS 4,885, NGC 3,265. The value in the PCGS Price Guide is \$550. Good value at the MS64 level as the price doubles in MS65.

PCGS# 7258 | EST: \$400+

LOT 154

\$1 1901-S PCGS AU58

A lustrous example that is on the cusp of a full Mint State grade, no guarantees, but we would not be surprised to see this in a Mint State holder one day. Delicate freckles of russet-gold toning can be seen on both sides attesting to the originality.

PCGS 298, NGC 309. The PCGS Price Guide value is listed at \$550 and recent APRs range from \$552 to \$608. Scarce in Mint State, this is a very pleasing 01-S.

PCGS# 7276 | EST: \$500+

LOT 155

\$1 1904-O NGC MS64

Surfaces are mostly smooth and satiny with blue-gold toning at the rims indicative of long storage in a paper roll or album. In an early generation NGC holder.

PCGS 59,898, NGC 73,413. The Collectors Universe Price Guide value of \$155 is likely to be exceeded.

PCGS# 7292 | EST: \$125+

LOT 156

\$1 1923-S PCGS MS64

Frosted surfaces are suffused with variegated gold-olive-gray toning. Full cartwheel luster.

\$1 1974-S SILVER. PCGS PR67 DCAM

Lovely peripheral toning frames SUPERB DCAM Proof surfaces.

PCGS 394, NGC 144. The PCGS value is \$27, but the eye appeal of this lovely coin should bring more.

PCGS# 97433 | EST: \$40+

LOT 159

G\$1 1853 PCGS MS64 CAC

Surfaces are satiny and reflective with above average detail as a result of a needle-sharp strike. Deep yellow gold and an absence of distracting marks complete the look of this near GEM.

PCGS 744, NGC 846, CAC 123. Listed in the PCGS Price Guide at \$1,250 and the CAC price report at \$1,380. Worthy of consideration for better set. Bid accordingly.

PCGS# 7521 | EST: \$1,200+

LOT 160

\$2.50 1854 PCGS MS63 CAC

Old orange gold toning attests to this coin's originality and light surface marks are consistent with the grade.

PCGS 55, NGC 48. Listed in the PCGS Price Guide with a value of \$1500. Although considered common in the lower grades the date is rather scarce in choice mint state.

PCGS# 7769 | EST: \$1,200+

LOT 161

\$2.50 1893 PCGS MS63 CAC

Deep yellow and attractive with some light obverse contact marks consistent with the grade and CAC approval.

PCGS 236, 211, CAC 16. Listed in the PCGS Price Guide at \$1,000 and the CAC price report at \$1,020.

PCGS# 7845 | EST: \$800+

LOT 162

\$2.50 1893 PCGS MS64

Well struck in rich yellow gold. Gleaming satiny surfaces are nearly mark-free, and on the cusp of GEM quality.

PCGS 144, NGC 139. There is a wide range of recent APRs, but the PCGS Price Guide lists the value as \$1,100. From a modest mintage of 30,000 and relatively scarce in the higher Mint State grades.

PCGS# 7845 | EST: \$800+

LOT 163

\$2.50 1901 NGC MS66

Deep golden tone and satiny luster blanket smooth and attractive surfaces. A fine hairline on Miss Liberty's cheek can be noted with a glass but is otherwise not distracting.

PCGS 134, NGC 112. The value listed in the Collectors Universe Price Guide is \$2,250. The date is tough to locate in GEM mint state with only 68 graded higher.

PCGS# 7853 | EST: \$1,200+

LOT 164

\$2.50 1903 PCGS MS62 CAC

Strong strike created stunning detail and prooflike surfaces, while this is not noted on the holder the reflectivity likely accounts for the CAC sticker.

PCGS 1,236, NGC 1,573, CAC 9. The PCGS Price Guide value is \$725, and the CAC price report value is \$815. An unusually sharp business strike for which knowledgeable collectors will likely compete.

PCGS# 7855 | EST: \$700+

LOT 165

\$2.50 1904 PCGS MS64 CAC

Deep yellow gold and full mint frost combine for a pleasing appearance. Surfaces are smooth and worthy of the CAC sticker.
